The Genesis System combines "zero let-off" with light draw weights (adjustable from 10 lbs. to 20 lbs.) to create a bow that covers all standard draw lengths and fits virtually everyone. The new Genesis bow has just one cam. This means no tuning problems, much less recoil, more accurate shooting, and less noise. The Genesis bow is ideal for kids, beginners, and experienced archers. Kids can't outgrow the bow because there is no specific draw length requirement. It's simple to buy because there is no need to measure and fit for draw length. It's easy to shoot because the draw length is always right, the beginning archer won't develop bad habits caused by an ill fitting bow. And best of all ... its built to last.

097002 Ravin R5X Package

The Ravin R5X melds the standard and bullpup styles, combining an ultra-compact front end with a stock that includes an adjustable cheek pad and butt stock. The result is a tactical, all black, HeliCoil Technology-powered crossbow that shoots 400 FPS—with fully integrated silent cocking. The R5X measures 31" long and 5.75" axle-to-axle width when fully cocked.

Crossbow Specifications: 400 FPS, Weight: 6.7 lbs, Length: 31" and comes Fully-Assembled/Pre-Tuned.

Includes: 3 – Ravin .003 Arrows & Field Tips (400 Grain Total), 1 – Removable Draw Handle, 1 –Quiver/Mounting Bracket, 100 Yard Illuminated Scope, Built-in Cocking System, Anti-Dry Fire/Auto Safety and Built-in Sling Mounts.

096993 Ravin R10 Package

The R10 is one of the classic Ravin models and is great for both beginners and experienced hunters and shooters. Measuring 33 inches in length and tipping the scales at 6.8 pounds, the R10 produces speeds of over 400 FPS. Made for running-and-gunning or hanging out in a tree stand or ground blind, the R10 is a slim 6 inches axle-axle when cocked. Available in Predator Camo.

Crossbow Specifications: 400 FPS: Weight- 6.8 lbs: Length- 33": Draw Weight: 270#: Fully-Assembled/Pre-Tuned

Includes: 3 – Ravin .003 Arrows & Field Tips (400 Grain Total); 1 – Removable Draw Handle; 1 – Quiver/Mounting Bracket; 100 Yard Illuminated Scope; Built-In Cocking Mechanism; Anti-Dry Fire/Auto Safety; Built-in Sling Mounts.

097001 Ravin R10X Package

Ravin has taken the best-selling R10 with renowned HeliCoil Technology and spiced it up — adding 20 FPS to amp it up to a wicked 420. The R10X's stock includes an adjustable cheek pad and butt stock and integrates silent cocking and comes in all black.

Crossbow Specifications: 420 FPS, Weight: 6.8 lbs, Length: 33" and comes Fully-Assembled/Pre-Tuned.

Includes: 3 – Ravin .003 Arrows & Field Tips (400 Grain Total), 1 – Removable Draw Handle, 1 –Quiver/Mounting Bracket, 100 Yard Illuminated Scope, Built-in Cocking System, Anti-Dry Fire/Auto Safety and Built-in Sling Mounts.

096996 Ravin R18 Package

The R18 is the shortest Ravin ever created at just 18 inches in length. The VertiCoil Cam System rotates the ultra-small cams 720 degrees, coiling the strings and cables around the cam and cam axle allowing an axle-to-axle height of just 1.3 inches cocked or 4.1 inches when uncocked, with a static overall width of 4.75". The R18 is a takedown style crossbow with limbs that expand vertically, shooting 330 feet per second. The R18 includes a detachable stock with an integrated removable quiver system, making the total length roughly 25 inches when fully in-tact. The unique 6-pound crossbow features the Ravin 3-Dot Reflex Sight for easy target acquisition, and includes the Ravin built-in cocking mechanism, allowing for an easy draw. The R18 comes in black.

Crossbow Specifications: 330 FPS: Weight- 6 lbs: Length- 25" with stock: Draw Weight: 250#: Fully-Assembled/Pre-Tuned

Includes: 3 – 16".003 350gr R18 Arrows & Field Tips; 1 – Removable Draw Handle; Ravin 3 Dot Reflex Sight; Built-In Cocking Mechanism; Anti-Dry Fire/Auto Safety; Built-in Sling Mounts.

097000 Ravin R26X Package

The R26X takes the compact R26 platform and adds the Ravin Fully-Integrated Silent Cocking feature to give apex hunters a whisper quiet draw every single time. Advanced HeliCoil Technology enables a slim 26" length and 5.75" axel-to-axel width as well as a blazing speed of 400 FPS.The R26X comes in all black coloring.

Crossbow Specifications: 400 FPS, Weight: 6.5 lbs, Length: 26", Draw Weight: 340# and comes Fully-Assembled/Pre-Tuned.

Includes: 3 – Ravin .003 Arrows & Field Tips (400 Grain Total), 1 – Removable Draw Handle, 1 –Quiver/Mounting Bracket, 100 Yard Illuminated Scope, Fully-Integrated Silent Cocking System, Anti-Dry Fire/Auto Safety and Built-in Sling Mounts.

096997 Ravin R29X Camo Pkg

The R29X, complete with a fully-integrated Silent Cocking System, hits a new pinnacle of speed at an incredible 450 FPS. The length remains 29 inches, and when fully drawn, the R29X is 6 inches axle-axle and weighs a light 6.75 pounds. Including an ergonomic grip, this crossbow is easy to maneuver in tight spaces and gives hunters and shooters great control without sacrificing comfort. Fully-Assembled/Pre-Tuned and includes: 6- Ravin .003 Arrows & Field Tips (400 Grain Total), 1- Removable Draw Handle, 1- Quiver/Mounting Bracket, 100 Yard Illuminated Scope. Built-In Cocking Mechanism, Anti-Dry Fire/Auto Safety, Built-in Sling Mounts. Predator Dusk Camo

096994 Ravin R500 Package

The R500 takes crossbow innovation to the next level. The proprietary HexCoil Cam System rotates the cams an incredible 360 degrees and has reformed traditional crossbows into the fastest, most accurate and compact designs ever seen. Completely silent, this crossbow uses the R500 Draw Handle and cocks back to a slim 3.6 inches when fully cocked, firing arrows downrange at 500 feet per second! The R500 utilizes the VersaDrive Cocking System that has an internal screw drive that moves the Trac Trigger Firing System (TTFS) back and forth. The internal clutch within the VersaDrive System eliminates over-cocking and allows cocking and uncocking to be stopped or resumed at any time during the process. The R500 comes in Slate Gray.

Crossbow Specifications: 500 FPS: Weight- 8.4 lbs: Length- 28": Draw Weight: 300#: Fully-Assembled/Pre-Tuned

Includes: 3 – Ravin .003 Arrows & Field Tips (400 Grain Total); 1 – Removable Draw Handle; 1 – Quiver/Mounting Bracket; 100 Yard Illuminated 550 FPS Scope; Anti-Dry Fire/Auto Safety; Built-in Sling Mounts.

096995 Ravin R500E Package

Ravin is shattering industry standards once again with the R500E. Featuring the proprietary HexCoil Cam System, the R500E is able to produce staggering speeds of 500 feet per second with a 400 grain arrow. The R500E has the Ravin Electric Drive System, that allows users to simply press a button to cock and decock this crossbow, with the option to manually cock the crossbow with the included R500 Draw Handle. The Ravin Electric Drive consists of a 12-volt battery and motor unit that simply attach and detach to the stock. Both the battery and the motor unit can be easily detached for storage or to recharge on the charging dock. The R500E also utilizes theVersaDrive Cocking system, which consists of a dual screw drive that moves the Trac Trigger Firing System (TTFS) back and forth. The internal clutch within the VersaDrive System eliminates over-cocking and allows cocking or decocking to be stopped at any time during the process. The R500E comes in Slate Gray.

Crossbow Specifications: 500 FPS: Weight- 9.9 lbs: Length- 28": Draw Weight: 300#: Fully-Assembled/Pre-Tuned

Includes: 6 – Ravin .003 Arrows & Field Tips (400 Grain Total); 1 – Removable Draw Handle; 1 – Quiver/Mounting Bracket; 100 Yard Illuminated 550 FPS Scope; Anti-Dry Fire/Auto Safety; Built-in Sling Mounts.

C TenPoint

009672 TenPoint Havoc RS440 XERO Pkg

Introducing the FIRST hunting crossbow with a built-in range finding scope. C TenPoint

009676 TenPoint Viper S400 Pk

Ten Point's shortest forward-draw crossbow ever produced the light-weight Viper S400 measures just 32-inches in length yet delivers speeds up to 400 FPS. Featuring the revolutionary ACUslide silent cocking and safe de-cocking system, the uber-compact crossbow measures ultra-narrow 7.2-inches wide and features a 3.5 pound, 2-stage, zero-creep S1 trigger that delivers our most crisp, consistent break ever.

Package Includes: RangeMaster Pro Scope mounted on a machined aluminum 7/8-inch Fixed Dovetail Mount, ACUslide Cocking and De-Cocking System, 6-Arrow Tech Quiver and Three Evo-X CenterPunch premium carbon arrows with 100-grain practice points.

009674 TenPoint Turbo S1 Pkg

Featuring silent easy cocking and safe-de-cocking, the Turbo S1 is Ten Point's shortest forward-draw crossbow ever, measuring an ultra-compact 31-inches long, and delivering speeds of 390 feet per second. Equipped with the RX-6 Cam System, a 2-stage, zero-creep S1 Trigger that delivers a consistent crisp, 3.5-pound pull, and the cocking and safe de-cocking system dealers recommend most – the ACUslide. Forget the hassle of carrying a target to discharge your bow, or risking damaging an arrow by discharging it at the end of the hunt – safely de-cock the crossbow by backwinding the handle, and unlike other de-cocking systems on the market, stop at any point without the fear of damage, injury, or losing control.

Package Includes: RangeMaster Pro Variable Speed Scope, ACUslide Cocking and De-Cocking System, Three Pro Elite 400 Carbon Arrows (.003" straightness), 3-Arrow Quiver and Integrated String Stop System.

009693 TenPoint Titan De-Cock Pkg

Featuring the D1 Trigger and the revolutionary ACUdraw De-Cock, the Titan De-Cock is a value crossbow that offers safe de-cocking and easy cocking, and shoots up to 380 feet-per-second. Equipped with the D-1 Trigger that delivers a consistent crisp, 3.5-pound pull. Forget the hassle of carrying a target to discharge your bow, or risking damaging an arrow by discharging it at the end of the hunt – the ACUdraw De-Cock is simple, silent, and safe and allows you cock and safely de-cock with easy 5-pounds of force.

Package Includes: 3x Pro-View Lighted Scope, ACUdraw De-Cock, Three Pro Elite 400 Carbon Arrows (.003" straightness) and a 3-Arrow Quiver.

009692 TenPoint Titan M1 w/AD

The Titan M1 is an incredible 9.5-inches narrower and 30 feet-per-second faster than its legendary predecessor. Powered by VX-5 inverted cams that elongate the power stroke and increase rotation, it delivers lethal accuracy shot-after-shot. The cost-effective Titan M1 is the best value on the crossbow market.

Specs: Length 32.5", Width - Axle-to-Axle (uncocked/cocked) 14.25" / 9", Power Stroke 14", Up to 370 fps, Weight in Ibs.(w/o accessories) 6.4 and Draw Weight in Ibs. 180 LBS.

Package Includes: TenPoint's 3x Pro-View 3 Scope mounted on a machined aluminum 7/8-inch Fixed Dovetail Mount, ACUdraw, 3-Arrow Instant Detach Quiver; ambidextrous side-mount quiver bracket and Three TenPoint Pro Elite carbon arrows with 100-grain practice points.

009686 Wicked Ridge Raider 400 De-Cock Pkg

Equipped with the revolutionary ACUdraw De-Cock for safe de-cocking, D1 Trigger, the American-Built Raider 400 De-Cock combines the convenience of safe de-cocking and speeds up to 400 feet-per-second to create an affordable crossbow for all hunters that outperforms its competitors. The light crossbow is equipped with the D-1 Trigger – a 2-stage, zero-creep design that delivers a consistent crisp, 3.5-pound pull. The ACUdraw De-Cock is simple, silent, and safe and allows you cock and safely de-cock with easy 5-pounds of force.

Package Includes: 3x Multi-Line Scope, ACUdraw De-Cock, Three Match 400 Carbon Arrows (.004" straightness), 3-Arrow Quiver

009690 Wicked Ridge NXT 400 Pkg

The Narrowest and Most Accurate Wicked Ridge Crossbow Ever. Presighted at 20-yards: Easy 1-bolt Assembly: Ready-to-Hunt Package.

Crossbow Hunting Package Includes: TenPoint's Multi-Line Scope: Rope-Cocker: 3-Arrow Instant Detach Quiver and Three XX75 Wicked Ridge Aluminum Arrows.

009557 Excalibur TwinStrike Package

The TwinStrike is the first crossbow of its kind, giving you Excalibur™ signature durability-but now, an immediate follow-up shot the moment you need it. DualFire Technology, engineered to accurately fire two shots from a single crossbow with tight grouping from any distance. DualFire features 3 key components: Two-Trigger Platform- Double, independent match-grade 4 lb. frictionless triggers. Front trigger fires the top rail, back trigger fires the bottom rail. CeaseFire Technology: Ensures your crossbow will not fire unless an arrow is loaded. Works in conjunction with Excalibur's Rhino Nock. Reinforced safety and extra anti dry-fire insurance. Over/ Under Rail System: Perfectly balanced featuring an external Charger EXT crank. Optimized accuracy at any distance. Compact over/under setup combined with a shoot through the riser for increased consistency and accuracy. The TwinStrike is legal in any state where crossbow hunting is legal.

Crossbow Specifications: Speed (Up To) 360 FPS: Weight- 7.75 LBS: Cocking Effort- 14 LBS: Draw Weight- 358 LBS.

Package includes: Overwatch Illuminated Scope: Scope Mount and 30mm Rings: Charger Ext / Fail Safe Strap: R.E.D. Suppressors: DualFire Decocking Aid: Rebolt 4 Arrow Quiver and Bracket: 4 - Quill Arrows with Rhino Nocks and 4 - 100 gr. field points.

009559 Excalibur Micro Mag 340 Pk

This crossbow is designed to take care of all your needs. With an aluminum frame, anti dry-fire, premium trigger, and R.E.D. Suppressors, this crossbow features a draw weight of 270 lbs, weighs just 5.5 lbs and shoots up to 340 fps. This package is a dependable companion for beginners and pros alike. Mossy Oak Break-Up Country

Includes: Dead Zone Scope, Guardian Anti-Dry Fire System, R.E.D. Suppressors, 1" Scope Rings, 4 – Arrow Quiver, 3- Quill Arrows, 3 – 100gr Field Points, Rope Cocking Aid and Owners Manual.

The latest addition to the most advanced Micro crossbow platform in the world! Not only does it feature the Quick-Loc Technology takedown system, a completely silent integrated Charger crank, the Pro-Shot, rifle-grade 2 stage trigger and Anti-Dry Fire, but what makes this Assassin stand out are the High-Output Express limbs with Armor Tips giving the Assassin 400TD the narrowest profile of the entire Assassin family, while still cranking out arrows at blistering speeds up to 400fps!

Includes: Tact-100 Illuminated Scope with 30mm Rings, PRO-SHOT Trigger, Anti-Dry Fire System, R.E.D. Suppressors, Sound Deadening System, Ambidextrous Cheekpiece, 4 Arrow Quiver, 4 PROFLIGHT 16.5" Premium Arrows, 4 100gr Field Points, Integrated Charger with Fail-Safe Strap, Explore Case and Owners Manual. Realtree Edge

009563 Excalibur Micro Suppressor 400 TD Pk

The Suppressor 400 TD takes the Micro platform to a whole new level with the addition of the High-Output Express Limbs with Armor Tips, allowing this crossbow to reach never before seen Micro speeds of up to 400fps.Complete with revolutionary Quick-Loc Technology, the Suppressor series has always been known for its ninja-like stealth and vibration resistance. The Suppressor 400 TD doesn't disappoint thanks to the SDS Silencing System and Airbrakes, providing for an extremely quiet shot.

Included: Tact-100 Illuminated Scope with 30mm Rings, PRO-SHOT ACP Trigger, Guardian Anti-Dry-Fire System, R.E.D.S. Suppressors, Sound Deadening System, Air Breaks, Ambidextrous Cheekpiece, 4 Arrow Quiver with Bracket, 4 PROFLIGHT 16.5" Premium Arrows, 4 100gr Field Points, Charger EXT Crank with Fail-Safe Strap and Owners Manual. Mossy Oak Break-Up Country.

009478 AXE 405 XBow Package

The AXE 405 is compact by design, but colossal with its features. Adjustable Butt Stock; Adjustable Cheek Comb; Shoot Through Riser; Balanced Center of Mass (Centered of the Trigger / Hand Grip); Integrated Crank with Cock / De-Cock Feature (Adjustable handle position); Trigger (3.7 lbs. and zero creep); Safest Trigger on the Market (Automatically resets to safe every shot); Full Capture, Tunable Roller Rest; 85% Cam Efficiency (Best in Market); Ergonomic Chassis Design; Integrally Mounted 3 Arrow Quiver; Multi Range Illuminated Reticle Scope; Adjustable Foot Peg; (3) AXE micro diameter bolts with 100 grain practice tips

009479 AXE 440 XBow Package

Features: Adjustable Butt Stock: Adjustable Cheek Comb: Shoot Through Riser: Balanced Center of Mass (Centered of the Trigger / Hand Grip); Integrated Crank with Cock / De-Cock Feature; Trigger (3.5 lbs. and zero creep); Safest Trigger on the Market (Automatically resets to safe every shot); Tunable Roller Rest; 85% Cam Efficiency (Best in Market); Ergonomic Chassis Design; Integrally Mounted 3 Arrow Quiver; Multi Range Illuminated Reticle Scope; Adjustable Foot Hold; (3) AXE micro .166" diameter 19.5" bolts (403 grains with included 100 grain practice tips)

096022 Barnett WhiteTail Hunte STR Pkg

The Whitetail Hunter STR creates a compact, manageable profile that hunters of all sizes and skills can manage. Step-Through Riser (STR) technology reduces the length of the crossbow by integrating the foot stirrup directly into the riser. Combined with an overall weight of just 6.6 pounds, this crossbow hunts light and fast –375 feet per second fast. The Whitetail Hunter STR comes ready-to-hunt with all the accessories you need and just one bolt require for assembly. Safety features include a TriggerTech trigger, anti-dry fire technology, finger safety reminders and a patented arrow retainer.

Specs: Length (with Stirrup) 34-7/8", Width (uncocked) 20-1/8", Weight: 6.6 lbs. (Overall), Powerstroke: 15-7/16" and Speed (380 grains) 375 fps.

Package Includes: Two 22" Headhunter Arrows, 4 x 32mm Multi-Reticle Scope, Lightweight Quiver, Rope Cocking Device and Lubrication Wax.

009637 Barnett Rope Cocking Device

This tool simplifies cocking any crossbow by decreasing the cocking tension by half. Handles allow for a firm hold and the rope may be adjusted to fit both the bow and user.

* Always use with the hooks facing up.

*Note: Use only Ravin-branded draw handle.

009606 Excalibur Charger EXT Crank

The CHARGER EXT™ will dramatically reduce the draw weight of any Excalibur crossbow to a mere 12 pounds while guaranteeing consistent string alignment. The CHARGER EXT™ can be detached in seconds and features an ambidextrous, removable handle and a spring loaded retractable cable for quick and easy storage.When the time comes to unload your crossbow, the FAIL-SAFE STRAP™ will add support and security allowing you to quietly and safely decock your Excalibur. The CHARGER EXT™ is constructed of high strength aluminum alloys to reduce weight and ensure years of trouble free service. The CHARGER EXT™ fits on MICRO and Bulldog Series crossbows, Stryker Katana and previous model crossbows can be retrofitted to accommodate the Charger EXT™.

009516 Excalibur Dual Fire Stringing Aid

Change your strings on the TwinStrike easily with the use of the DualFire Stringing Aid. No need for a bow press! DIY string changes on the range or in the field can be accomplished quickly without losing valuable time. Works only on crossbows equipped with DualFire Technology.

009618 Excalibur Crossbow Stringer

Changing strings on your Excalibur Crossbow is fast and easy when you use this stringer. It really takes the sweat out of changing strings.

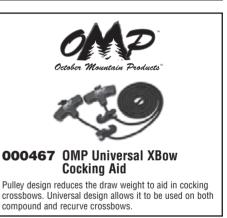

009471 Rocky Mountain Quiet Crank

Quiet and easy-to-use. Reduces cocking effort by 94%. Quiet-clutch design with no-slip brake. Can be easily installed or removed in seconds. Ambidextrous design works for both left- and right handed users. Works with all Carbon Express crossbows. Includes quick-detach handle and neoprene storage case.

009472 Rocky Mountain Universal Rope Cocker

Works on most crossbows. Makes cocking a crossbow fast and simple. Easily attaches and detaches. Reduces cocking effort by 50%.

000466 30-06 Crossbow Cocker Kit

Custom cut rope to fit your crossbow. It is made with small diameter BCY rope material and compact heavy duty pull handles. Also includes Little Snot String Wax and .5 oz tube of Rail Snot.

C TenPoint

000420 TenPoint 3x ProView 2 Scope

Calibrated for crossbows that shoot in the 300 fps range, this 20, 30, 40-yard combo illuminated dot and crosshair configuration is housed in a lightweight 7/8" aluminum tube equipped with fully-coated 3x optics. The dots are positioned at the intersection of each duplex crosshair. Depending on your hunting conditions, you can choose from a non-illuminated black dot or one of two illuminated, colored dots (red or green). A five-position rheostat controls the light intensity and color.

Rings included.

009684 TenPoint ACUdraw Hand Crank Replacement Replacement handle only.

009703 Ten Point XTEND Adjustable Crank Handle

The XTEND Crank Handle starts at a compact 5-inches long and extends to its userfriendly length of 7.5-inches. When extended to its full length, the crank handle decreases the cocking effort by approximately 45% over the standard crank handle on all TenPoint gear-assisted cocking devices. Also includes parts to convert the XTEND Adjustable Crank Handle from a square drive to a hex drive for use on ACUdraw PRO or ACUdraw units.

009683 TenPoint ACUdraw Cord

- One-piece for new style claw.

TRUGLO

002081 TruGlo Opti Speed BDC Xbow Scope

OPTI-SPEED features a drop-compensating reticle to provide accurate hold-overs from 20-70 yards and calibrates to any speed of crossbow by scaling the reticle with a simple dial. The glass-etched reticle can be used with or without illumination, depending on surrounding light and target color. Weaver-style 30mm rings and 3V CR2032 Battery included.

002082 TruGlo 4x32 IR Crossbow Scope

Compact and lightweight design with dual color reticle illumination. Adjustable rheostat for brightness control. Fully-coated lenses and rubber eye guard. Weaver-style rings included.

009514 TruGlo Hip Shot Shooting Rest

The TruGlo HIP SHOT Crossbow Shooting rest provides a stable platform that easily goes with you on any hunt. By bracing against your hip or the ground, you can take advantage of a stable 3-point support that works while sitting, standing or kneeling. Compact and lightweight, HIP SHOT is a trusted hunting companion for any crossbow shooter. Vertical grip moves hand safely away from crossbow rail.

Lightweight folding design stores easily in a pack or on a belt. Telescoping design fits all sized shooters. Fully assembled.

002435 Apex Crosspeak IR Scope

Glass-etched reticle can be illuminated (red) for increased contrast or used without illumination (black). APEX Ballistic Reticle provides holds from 20–100 yards. Increased magnification compared to many other speed-calibrated scopes (2-7x vs 1-4x). Speed calibration system scales the target image to the reticle and can be used from 260–500 fps. Illuminated reticle has 10 brightness settings with off positions between each setting. 1/2-MOA per click windage and elevation adjustments. Nitrogen gas-filled. Fully coated lenses provide maximum brightness, clarity, and contrast. Machined 30mm rings included. Neoprene scope cover included.

097020 Ravin Shoulder Sling

Adjustable 2.5" wide padded neoprene design with soft, durable no-slip backing. Quick-detach swivels for easy sling removal and built-in thumb loop designed for carrying comfort. Fits all Ravin crossbows.

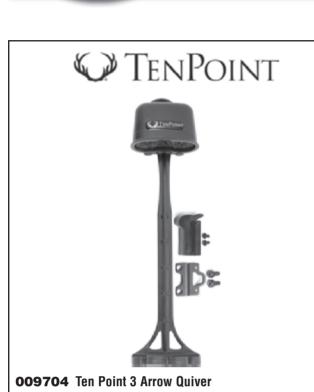

097016 Ravin TacHeads BiPod A spring-loaded, quick-detach bi-pod designed for onehand usage. Lightweight, compact and durable. Attaches to any Picatinny rail.

Neoprene crossbow sling in Realtree AP HD Camo. Includes sling swivels.

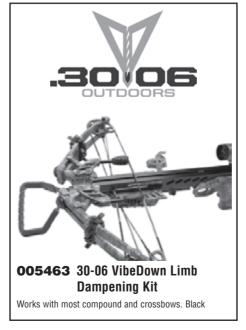

At a lightweight 4.75-ounces, the 3-Arrow Instant Detach Quivers features an ultradurable spine, and a unique, flexible rubber loop, allowing you to silently hang the quiver while in your treestand. Compatible with either TenPoint's traditional or sidemount quiver bracket, its three mounting positions allow you to adjust its orientation to suit your preference.

*Comes with mounting hardware.

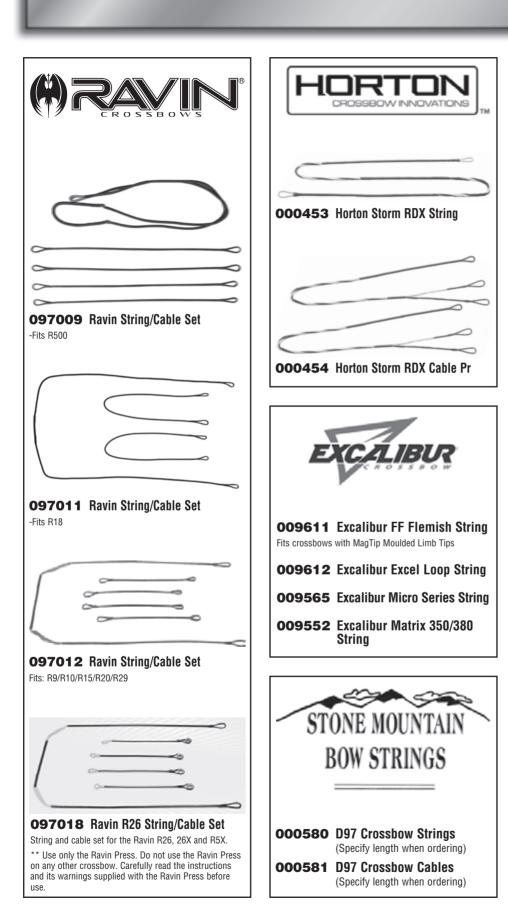

LIMBSAVER BY SVD SIMS VIERATION LABORATORY

O05599 LimbSaver Twist Lox These limb suppressors for split limb crossbows securely snap between your limbs without the use of a plastic bracket. Use two or more TwistLox suppressors per limb. No tools required. Specify: Black or Camo

Extend the life of your crossbow by increasing stability and shock absorption. Simply seat the limb dampeners between the Ravin limbs next to the riser pockets. This quick and easy installation gives you a quieter, smoother shot immediately. UV & weather-resistant tactical black construction. 2 Pack

000431 TenPoint EVO-X CenterPunch 16" 6p 000427 TenPoint EVO-X CenterPunch 20" 6p

*For use with Havoc RS440 XERO, Havoc RS440, and Siege RS410 crossbows.

Specifically designed for the Havoc RS440 and the Siege RS410, the CenterPunch 16-inch arrow is fletched slightly offset and is fitted with a 68-grain insert and TenPoint's Alpha Nock HP and Alpha Nock HP Nock Bushing. Constructed from modulus carbon fiber at 33 MSI (million-pounds-per-square-inch) and wrapped in an exclusive LAZER-TECH carbon weave, it is fletched with 2.1" Q2i Fusion-II Vanes. CenterPunch arrows are inspected for straightness to within .001 and each package is weight-grain matched within 1-grain per arrow. TenPoint's Alpha-Nock HP features a deep bowstring groove, a large smooth radius base, and elongated ears. Its HP Aluminum Bushing increases strength and accuracy. The string on TenPoint's extremely narrow crossbows wraps tightly around the center of the Alpha-Nock HP resulting in straight nock travel and precision downrange accuracy, while minimizing string serving wear. The Alpha-Nock HP's deep channel design increases the string-to-nock engagement by 28% and "holds" the bowstring in place during the shot which prevents "shoot-over" or "shoot-under". The Alpha-Nock HP can be used in any TenPoint, Wicked Ridge, or Horton Crossbow Innovations crossbow. Use of the Alpha-Nock HP in any of these crossbows will not void the warranty, even if your crossbow originally required the use of a flat nock or Omni-Nock.

000428 TenPoint EVO-X AB CP 16" Lighted 3p **000429** TenPoint EVO-X AB CP 20" Lighted 3p

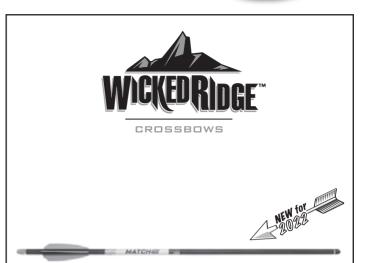

The Alpha-Blaze Lighted Nock contains a one-piece Nock/LED unit that is indexed with the vanes and press fits into the arrow's Aluminum Bushing. Upon firing the crossbow, the bowstring's force compresses the two pieces and activates the lighted nock. Deactivate the easy on/off Alpha-Blaze lighted nock by pulling the nock straight out until the light turns off – no tools required. The LED light of the Alpha-Blaze system lasts for approximately eight hours when activated.

009720 Ten Point Pro Elite 400 w/Alpha Nock 009723 Ten Point Pro Elite 400 w/Alpha Brite Nock

The Pro Elite 400 20-inch carbon crossbow bolt is fletched slightly offset and is fitted with a 61-grain aluminum insert, 3.5" Bohning X Vanes™. Pro Elite shafts are inspected for straightness to within .003 and hand-sorted for weight tolerance to within 2-grains per dozen. Available with molded Alpha Nock or Alpha Brite System.

000433 Ten Point Discharge Bolt

The Crossbow Discharge Arrow includes a 20-inch carbon arrow with an installed Alpha-Nock, discharge collar, and field tip. The 725-grain finished arrow with an Alpha-Nock, is designed for use on most crossbows that shoot a 20-inch arrow. It can also be used on most crossbows requiring flat, moon, or capture nocks.

009726 Wicked Ridge Match 400 20" Bolt 6pk

Weighing 400-grains, the Match 400 Carbon Crossbow arrow features a Stainless-Steel Insert which creates an improved 14% FOC, generating up to 20% tighter groupings than previous carbon arrows. Each Match 400 carbon crossbow arrow is inspected for straightness to within .004". The arrow is equipped with TenPoint's Alpha-Nock HP. TenPoint's Alpha-Nock features a deep bowstring groove, a large smooth radius base, and elongated ears. The string on TenPoint's crossbows wraps tightly around the center of the Alpha-Nock to yield straight nock travel and precision down-range accuracy, while minimizing string serving wear. The Alpha-Nock's deep groove "holds" the bowstring in place on extremely narrow crossbows to prevent "shoot-over" or "shoot-under". The 20-inch carbon shaft is fletched slightly offset and is fitted with a 61-grain aluminum insert and 3.5" Bohning X Vanes.

009727 Wicked Ridge Match 400 20" Lighted 3pk

Weighing 400-grains, the Match 400 Carbon Crossbow arrow features a Stainless-Steel Insert which creates an improved 14% FOC, generating up to 20% tighter groupings than previous carbon arrows. Each Match 400 carbon crossbow arrow is inspected for straightness to within .004⁺. The arrow is equipped with TenPoint's Lighted Alpha-Brite System. TenPoint's Alpha-Nock features a deep bowstring groove, a large smooth radius base, and elongated ears. The string on TenPoint's crossbows wraps tightly around the center of the Alpha-Nock to yield straight nock travel and precision down-range accuracy, while minimizing string serving wear. The Alpha-Nock's deep groove "holds" the bow-string in place on extremely narrow crossbows to prevent "shoot-over" or "shoot-under".

009722 Wicked Ridge XX75 w/Alpha Nock 009725 Wicked Ridge XX75 w/Alpha Brite Nock

The XX75 20-inch 2219 aluminum arrow is fletched slightly offset and is fitted with a 13-grain aluminum insert, 2.0" Easton Bully Boattail Vane. Available with molded Alpha Nock or Alpha Brite System.

007358 CX D-Strover 20" Bolts 3/Pk

The approximation of

The D-Stroyer 380 is the lightest and fastest bolt in the Carbon Express lineup. It provides Dual Spine Weight Forward Technology for ultimate down-range accuracy plus BuffTuff exterior on the front 2/3rds that adds superior strength and consistency. 3 pk includes inserted Moon Nock and C-Nock plus Rocky Mountain Nub & 3 100 Gr Practice Points. Straightness: +/- 0.003"

007359 CX PileDriver XB Bolt 20" 6/Pk 007360 CX PileDriver XB Bolt 22" 6/Pk 007361 CX PileDriver XB Bolt 20" w/Light 3/Pk

Designed for the hunter who wants ultimate penetration. Heaviest carbon crossbolt in CX lineup creates maximum kinetic energy and great knock-down power. Fletched with 4" vanes. 6-Pack includes inserted moon nocks, plus 6 universal flat nocks.

007335 CX Mayhem XB Bolt 20" Moon 6/Pk 007336 CX Mayhem XB Bolt 22" Moon 6/Pk

Innovative multi-layer construction has an optimal size diameter and is tuned for today's high-powered crossbows to deliver exceptional down-range accuracy and penetration. Fletched with 3" vanes. 6-Pack includes inserted moon nocks, plus 6 universal flat nocks.

007310 CX Crossbow Release Bolt

1 Manual Contraction

Made from 100% woven wrap layered glass, this special release bolt is built to withstand ground impact. Comes with special steel point designed to keep in from burrowing into the ground.

Screws onto your existing bolt. Safely allows you to discharge your crossbow.

009485 AXE 17.5" XBow Bolt 6pk **009486** AXE 20" XBow Bolt 6pk

097029 Ravin .001" R500 Bolt 6/Pk

400 grain (with 100 grain field tip- not included); Use in Ravin R500 Series only; 100% pure carbon construction; Straightness tolerance: .001"; High-impact brass threaded inserts; 2" high-profile offset vanes; High-impact aluminum nock bushings; Ravin-engineered polymer nocks.

Note: Use only Ravin-branded arrows with Ravin clip-on nocks.

097003 Ravin .001 Premium Match Grade Bolt- 6Pk **097004** Ravin .001 Premium Match Grade Lighted Bolt- 3Pk

Ravin 20" .001 Premium Match Grade Bolts are designed for superior accuracy, speed, kinetic energy and durability. They are made with high-strength 100% pure premium carbon construction. Includes high-impact Ravin polymer nocks, brass threaded inserts and aluminum nock bushings. The lighted bolts feature LumenokTM Technology and are ultra-bright orange color. *Match-Grade bolts compensate for the added weight of lighted nocks and weigh the exact same as Ravin non-lighted arrows for the same flight accuracy. Note: Use only Ravin-branded arrows with Ravin clip-on nocks.

097025 Ravin .001" XK5 500gr Bolt 6/Pk **097026** Ravin .001" XK5 500gr Bolt Lighted 3/Pk

The XK5 500 Grain Lighted Arrows (inclusive of 100 grain field tip or broadhead) have a straightness tolerance of .001 and are the most premium arrows Ravin offers. The XK5 arrows have high-impact brass-threaded inserts with aluminum nock bushings and Ravin-engineered polymer nocks. The Lighted HD arrows will come in a 3 pack and utilize Lumenok Technology.

Not compatible with Ravin R18 or R500 Series Crossbows.

Note: Use only Ravin-branded arrows with Ravin clip-on nocks.

097027 Ravin R18 .003" Bolt- 6/pk **097028** Ravin R18 .003" Bolt Lighted- 3/pk

350 grain (with 100 grain field tip- not included): Use in Ravin R18 only: 16" Length: 100% pure carbon construction: Straightness tolerance: .003": Highimpact brass threaded inserts: 2" high-profile offset vanes: High-impact aluminum nock bushings: Ravin-engineered polymer nocks: Lighted arrows utilize Lumenok™ Technology.

Note: Use only Ravin-branded arrows with Ravin clip-on nocks.

097005 Ravin .003 Match Grade Bolt- 6PK **097006** Ravin .003 Match Grade Lighted Bolt- 3Pk

The Ravin 20" .003 Match Grade Bolts are made with high-strength 100% pure premium carbon construction. Includes high-impact Ravin polymer nocks, brass threaded inserts and aluminum nock bushings. The lighted bolts feature LumenokTM Technology and are ultra-bright orange color. *Match-Grade bolts compensate for the added weight of lighted nocks and weigh the exact same as Ravin non-lighted arrows for the same flight accuracy. Note: Use only Ravin-branded arrows with Ravin clip-on nocks.

097007 Ravin Lighted Nock

Ravin LED illuminaated nocks fit all Ravin-branded arrows. They contain a built-in lithium battery with ultra bright orange color. LumenokTM Technology. 3-Pack Note: Use only Ravin-branded arrows with Ravin clip-on nocks

097008 Ravin Replacement Nock

High-impact Ravin engineered polymer construction and are designed to lock into Ravin's unique Trac-Trigger Firing System. 12-Pack

Note: Use only Ravin-branded arrows with Ravin clip-on nocks

097019 Ravin Extinguisher Arrow Puller

Easily turns off lighted nocks. Pulls out target arrows with ease. Easily stores in quiver on arrow shaft.

SCORPION VENOMTM LUBRICANTS AND COATINGS

009067 Scorpion Venom Rail Lube

Chemically composed to provide extreme slip without tack. No need to wax the serving that touches the rail. No more wax buildup, friction or serving separation. Apply to the barrel/rail of the crossbow, one or two passes is all you need using the mess-free applicator.

009068 Scorpion Venom Crossbow Care Kit

Kit contains: Crossbow Rail Lube, Plymeric Bowstring Fluid and Target Arrow Release Fluid.

Lube Features Weatherlock Technology. 100% odorless. Reduces string friction and prolongs bow string life. Heat

Reduces string friction and prolongs bow string life. Heat displacement technology. Non-Flammable, environmentally safe and non-toxic. Will not freeze. 1 oz tube.

009007 Snot Lube Crossbow Kit Kit includes 1- String Snot Bowstring Wax, 1- Bow Snot Parts Pen Oiler and 1- Rail Snot Crossbow Rail Lube.

Rail Lube

Silicone based, non-toxic and non-flammable. Provides a protective film reducing friction and increasing the velocity of your crossbow.

009030 30-06 Rocket Fuel XB Rail Lube

Developed to exceed the needs of today's speed-intensive crossbows, with a felt applicator tip that provides a quick, need and accurate job every time.

009028 30-06 Black Ice Rail Lube

Black Ice Dry Glide is the first of its kind. Applies Wet on your crossbow rail and air drys in 10 seconds. Unlike typical rail lubes it won't collect dirt and debris or gather in the trigger assembly. Completely Odorless when dry.

Lube Carbon Express flight rail white stick lubricant increases string life and reduces friction between the rail and string for improved performance. This clean, odorless lubricant with silicone effectively lubricates, protects and preserves your archery equipment while also acting as a rust inhibi-

C TenPoint

009665 Ten Point Flight Rail and Trigger Lube

009666 Ten Point Venom Premium Lube

Applicator has an internal spring to prevent spilling. Place applicator on desired location and slightly push down, squeeze bottle to release fluid. Recommended for use on strings, cables and cocking device cords.

009668 TenPoint Wax & Conditioner

Made from all natural compounds and comes in a convenient chap stick style tube. Lubricants and rejuvenates bow strings and cables.

tor. Ideal for metal, wood, leather and plastic.

SUPERDRIVE 25

007517 Easton Super Drive 25 Shaft

SuperDrive is the 25 diameter carbon performance shaft for shooters looking for success on the 3D course. Straightness: \pm .002". Weight tolerance: \pm 1 grain. Black, smooth matte finish. Multi-layer wrapped carbon fiber. Super or G UNI bushings –included. Inserts, points, and nocks -sold separately. Pin Adapter -sold separately

Size: 290

007518 Easton Super Drive 23 "S" Shaft **007519** Easton Super Drive 23 "G" Shaft

SuperDrive 23 is the World Archery Maximum Compliant Diameter carbon performance shaft for shooters looking for success with indoor and 3D competition.

Specify size: 325 (7.43 gr/inch), 375 (6.97 gr/inch) or 475 (6.35 gr/inch)

SAM FULL METAL JACKET

008806 Easton FMJ 6mm Shaft

Why shoot an ordinary carbon arrow? Add the penetration power of a Full Metal Jacket. Pre-installed H Nock. ST RPS 8-32 inserts. Reduced-diameter 6mm carbon core with 7075 metal jacket. Easy target pull. Straightness: \pm .003.

Specify size: 470 (8.8 gr/inch), 390 (9.7 gr/inch) or 320 (10.6 gr/inch)

FULL METRIL OHET MEUSED CARBON

008079 Easton 5MM FMJ Shaft

The Axis Full Metal Jacket utilizes a high-strength, N-FUSED carbon core wrapped in a full metal jacket, the AXIS FMJ boasts more bone-crushing power for deeper penetration and more pass-throughs. +/- .002" Guaranteed straightness and a weight tolerance of +/- 2 grains. X Nocks installed. HIT Insert, chamfer stone, installation tool, HIT epoxy all included. Gun metal Black Finish.

Specify size: 250 (11.5 gr/inch), 300 (12.00 gr/inch), 340 (11.3 gr/inch), 400 (10.2 gr/inch) and 500 (9.1 gr/inch)

008065 Easton 5MM FMJ Autumn Orange Shaft

Celebrating Easton's 100 years in archery, the 5MM Autumn Orange FMJ is a fresh take on an old favorite, featuring Easton exclusive FMJ arrow technology and finished with the classic Easton Autumn Orange anodize, this limited edition offering gives archers a modern arrow with throwback nostalgia to the arrows they may have put in their first quiver. Includes HIT inserts and 5mm X Nocks installed.

Specify size: 300 (12 gpi), 340 (11.3 gpi), 400 (10.2 gpi)

008087 Easton 4MM FMJ Shaft

The 4MM Full Metal Jacket has been updated with a new spine configuration, an improved 8-32 point outsert system, and a redesigned graphics. The standard 8-32 thread point outsert optimizes front-of-center for easier broadhead tuning and more durability. FMJ starts with an advanced carbon core foundation for lightweight strength. A full metal jacket adds kinetic energy, enhances accuracy, and pulls easier from targets. The combination provides the deepest penetration and more pass-through impacts for quicker kills and heavier blood trails. Pre-installed 4mm nocks and 4mm Aluminum Point Outsert (50 grains) included. Straightness +/- .003"

Specify size: 250 (12.3 gpi), 300 (11.7 gpi), 340 (11.0 gpi), 400 (9.8 gpi)

008073 Easton 4MM Axis Long Range Shaft

Industry-leading carbon AXIS is now available in a 4MM micro-diameter. The AXIS 4MM Long Range is engineered with a specific 100% carbon-fiber layup for increased velocity. Includes Easton's Aluminum point outsert to boost both strength and front-of-center accuracy at long range and comes pre-installed with 4MM nocks. Straightness: +/- .003"

Specify size: 250 (9.8 gpi), 300 (9.3 gpi), 340 (8.3 gpi), 400 (7.4 gpi)

008086 Easton 5MM Axis Shaft

The world's first arrow with Carbon nanotubes. N-Fused Carbon utilizes Hybtonite carbon nanotube infusion to create a stronger, hard-hitting Axis. Increased straight compared to ordinary carbon arrows. +/- .003" with a weight tolerance of +/- 2 grains. X Nock installed. HIT Inserts, chamfer stone, installation tool, HIT epoxy included.

Specify size: 200 (12 gpi), 260 (11.5 gpi), 300 (10.7 gpi), 340 (9.5 gpi), 400 (9.0 gpi), 500 (8.1 gpi) or 600 (7.2 gpi)

008083 Easton 5MM Axis Traditional Shaft

Get the look of a traditional arrow with the performance of a carbon one with the Axis Traditional. Factory crested with Bone X Nock pre-installed. Insert included. +/- .003"

Specify size: 600 (7.9 gpi), 500 (8.9 gpi), 400 (9.8 gpi) or 340 (10.3 gpi)

008701 Easton Sonic 6.0 Shaft

The Easton Sonic 6.0 is a 6mm high-performance hunting arrow engineered with speed and accuracy in mind. The Sonic 6.0 is built in the USA using Easton's seamless Acu-Carbon process for 100% weight and spine consistency. Lighter overall mass weight also provides for a wider-range of arrow build options; from light-weight speed setups to high-FOC/high-momentum heavy-weights. 6mm nocks pre-installed and 6MM ST RPS 8/32 inserts included. Straightness: +/- 0.003"

Specify size: 250 (9.5 gpi), 300 (8.8 gpi), 340 (7.8 gpi), 400 (7.2 gpi), 500 (6.7 gpi) or 600 (5.8 gpi)

008095 Easton Carbon Legacy Shaft

The Easton Carbon Legacy combines the traditional look of wood-grained carbon with high-visibility white-dipped cresting. The Carbon Legacy is accurate, durable, and has exceptional flight visibility. .244" Inside diameter with pre-installed with 6.5MM 3D Super Nocks and aluminum inserts included. Straightness $\pm.006$ "

Specify size: 340 (10.1 gpi), 400 (9.3 gpi), 500 (8.3 gpi), 600 (7.5 gpi)

009120 Easton 6.5 Match Shaft

The 6.5 uses proprietary Acu-Carbon[™] Uniform Spine process. Acu-Carbon[™] is a continuous-fed, single-die manufacturing method that results in the most reliable tolerances and eliminates the need for the spine-alignment and weight sorting. The Easton 6.5MM[™] arrows are USA-made shafts that offer the highest level of accuracy available to bowhunters today all at price points to fit virtually any budget.

+/- .001" Straightness. Micro-Lite Nocks and 6.5MM Inserts included.

Specify size: 250 (9.4 Gr/Inch), 300 (9.5 Gr/Inch), 340 (9.3 Gr/Inch), 400 (8.4 Gr/Inch) or 500 (7.3 Gr/Inch)

009122 Easton 6.5 Hunter Classic Shaft

The 6.5 uses proprietary Acu-Carbon[™] Uniform Spine process. Acu-Carbon[™] is a continuous-fed, single-die manufacturing method that results in the most reliable tolerances and eliminates the need for the spine-alignment and weight sorting. The Easton 6.5MM[™] arrows are USA-made shafts that offer the highest level of accuracy available to bowhunters today all at price points to fit virtually any budget.

+/- .003" Straightness. Micro-Lite Nocks and 6.5MM Inserts included.

Specify size: 250 (10.0 Gr/Inch), 300 (9.5 Gr/Inch), 340 (9.3 Gr/Inch), 400 (8.4 Gr/Inch) or 500 (7.3 Gr/Inch)

BIEASTON 65

009124 Easton 6.5 Bowhunter Shaft

The 6.5 uses proprietary Acu-Carbon[™] Uniform Spine process. Acu-Carbon[™] is a continuous-fed, single-die manufacturing method that results in the most reliable tolerances and eliminates the need for the spine-alignment and weight sorting. The Easton 6.5MM[™] arrows are USA-made shafts that offer the highest level of accuracy available to bowhunters today all at price points to fit virtually any budget.

+/- .006" Straightness. Micro-Lite Nocks and 6.5MM Inserts included.

Specify size: 340 (9.3 Gr/Inch), 400 (8.4 Gr/Inch) or 500 (7.3 Gr/Inch)

THE FASHONIN

009131 Easton 6.5 WhiteOut Shaft

Easton's 6.5MM Whiteout is the next evolution in hunting arrow aesthetics. With an all-white exterior finish and USA-Made uniform ACU Carbon construction, Whiteout offers high-visibility in flight and provides a blood indicator for shot-placement identification. +/- .003" straightness 6.5MM Super Nock and 6.5MM Insert included.

Specify size: 300 (9.6 Gr/Inch), 340 (8.8 Gr/Inch), 400 (8.1 Gr/Inch) or 500 (7.5 Gr/Inch)

008707 Easton XX75 GameGetter Shaft

7075-T9 alloy with Adjustable Super Nocks- installed and RPS inserts- included. 3-/.003" Guaranteed straightness.

Specify Size: 500, 400, or 340

008715 Easton XX75 Camo Hunter Shaft

Now the popular Camo Hunter comes with the Super UNI Bushing and Super Nock installed. +/- .002" guaranteed max straightness with weight tolerance of +/- 1%. Sizes 1816, 1913 and 1916 have X UNI Bushings and X Nocks installed. Inserts also included.

Specify size: 2018, 2117, 2216, or 2219

28

CELEVIAL MIETAL MAURAT

008088 Easton 4MM FMJ Arrow

The 4MM Full Metal Jacket has been updated with a new spine configuration. an improved 8-32 point outsert system, and a redesigned graphics. The standard 8-32 thread point outsert optimizes front-of-center for easier broadhead tuning and more durability. FMJ starts with an advanced carbon core foundation for lightweight strength. A full metal jacket adds kinetic energy, enhances accuracy, and pulls easier from targets. The combination provides the deepest penetration and more pass-through impacts for quicker kills and heavier blood trails. Fletched with Blazer Vanes with Pre-installed 4mm nocks and 4mm Aluminum Point Outsert (50 grains) included. Straightness +/- .003"

Specify size: 250 (12.3 gpi), 300 (11.7 gpi), 340 (11.0 gpi), 400 (9.8 gpi)

1 2 C SMM FULL METAL JACKET

008807 Easton 6MM FMJ Arrow w/Blazer 6/pk

Why shoot an ordinary carbon arrow? Add the penetration power of a Full Metal Jacket, Pre-installed H Nock, ST RPS 8-32 inserts, Reduced-diameter 6mm carbon core with 7075 metal jacket. Easy target pull. Straightness: ± .003

Specify size: 470 (8.8 gr/inch), 390 (9.7 gr/inch) or 320 (10.6 gr/inch)

008076 Easton 4MM Axis Long Range Arrow

Industry-leading carbon AXIS is now available in a 4MM micro-diameter. The AXIS 4MM Long Range is engineered with a specific 100% carbon-fiber lavup for increased velocity. Includes Easton's Aluminum point outsert to boost both strength and front-of-center accuracy at long range and comes fletched with Blazer Vanes, pre-installed 4MM nocks and inserts. Straightness: +/- .003"

Specify size: 250 (9.8 gpi), 300 (9.3 gpi), 340 (8.3 gpi), 400 (7.4 gpi)

SOMIC 5, D HIGH

008702 Easton Sonic 6.0 Arrow w/Vane 6/Pk

The Easton Sonic 6.0 is a 6mm high-performance hunting arrow engineered with speed and accuracy in mind. The Sonic 6.0 is built in the USA using Easton's seamless Acu-Carbon process for 100% weight and spine consistency. Lighter overall mass weight also provides for a wider-range of arrow build options: from light-weight speed setups to high-FOC/high-momentum heavyweights. Factory Helical Fletched with 2" Bully Vanes by Bohning. 6mm nocks pre-installed and 6MM ST RPS 8/32 inserts included. Straightness: +/- 0.003"

Specify size: 250 (9.5 gpi), 300 (8.8 gpi), 340 (7.8 gpi), 400 (7.2 gpi), 500 (6.7 gpi) or 600 (5.8 gpi)

CHARLE METHON AND BEEN MENSED CAPRON

008068 Easton 5MM FMJ Arrow w/Blazer 6/pk

Same great arrow now with factory crest.

The Axis Full Metal Jacket utilizes a high-strength. N-FUSED carbon core wrapped in a full metal jacket, the AXIS FMJ boasts more bone-crushing power for deeper penetration and more pass-throughs. +/- .002" Guaranteed straightness and a weight tolerance of +/- 2 grains. X Nocks installed. HIT Insert, chamfer stone, installation tool, HIT epoxy all included. Gun metal Black Finish.

Specify size: 300 (12.00 gr/inch), 340 (11.3 gr/inch), 400 (10.2 gr/inch) and 500 (9.1 gr/inch)

008066 Easton 5MM FMJ Autumn Orange Arrow w/Vane 6/Pk

Celebrating Easton's 100 years in archery, the 5MM Autumn Orange FMJ is a fresh take on an old favorite, featuring Easton exclusive FMJ arrow technology and finished with the classic Easton Autumn Orange anodize, this limited edition offering gives archers a modern arrow with throwback nostalgia to the arrows they may have put in their first quiver. Factory 6-pack Fletched with 2" Bully Vanes by Bohning. Includes HIT inserts and 5mm X Nocks installed.

Specify size: 300 (12 gpi), 340 (11.3 gpi), 400 (10.2 gpi)

N-FUSED CARBON SUM 4:00 ---

008704 Easton 5MM Axis Arrow w/Blazer 6/pk

The world's first arrow with Carbon nanotubes. N-Fused Carbon utilizes Hybtonite carbon nanotube infusion to create a stronger, hard-hitting Axis. Increased straight compared to ordinary carbon arrows. +/- .003" with a weight tolerance of +/- 2 grains. X Nock installed. HIT Inserts, chamfer stone, installation tool, HIT epoxy included.

Specify size: 200 (12 gpi), 260 (11.5 gpi), 300 (10.7 gpi), 340 (9.5 gpi), 400 (9.0 gpi), 500 (8.1 gpi) or 600 (7.2 gpi)

008096 Easton Carbon Legacy Arrow

The Easton Carbon Legacy combines the traditional look of wood-grained carbon with high-visibility white-dipped cresting. The Carbon Legacy is accurate, durable, and has exceptional flight visibility. .244" Inside diameter and comes fletched with 4" Left Wing Feathers, pre-installed with 6.5MM 3D Super Nocks and aluminum inserts. Straightness ±.006"

Specify size: 340 (10.1 gpi), 400 (9.3 gpi), 500 (8.3 gpi), 600 (7.5 gpi)

101

008810 Easton Genesis II Arrow- 6/Pk 008814 Easton Genesis II Arrow- 72/Pk **008815** Easton Genesis II Arrow- 36pk

The XX75 Genesis II arrow is made of a 7075 aerospace alloy with a guaranteed straightness of +/- .005" and a weight tolerance of +/- 2.5%. G-Nock and points installed. Size 1820. Fletched with 3" vanes. The only arrow approved by NASP for tournament use.

*72 Pack comes with mixed color arrows.

Specify: Black, Green, Purple, or Teal

009121 Easton 6.5 Match Arrow 6pk

The 6.5 uses proprietary Acu-Carbon[™] Uniform Spine process. Acu-Carbon[™] is a continuous-fed, single-die manufacturing method that results in the most reliable tolerances and eliminates the need for the spine-alignment and weight sorting. The Easton 6.5MM[™] arrows are USA-made shafts that offer the highest level of accuracy available to bowhunters today all at price points to fit virtually any budget.

+/- .001" Straightness. Factory-fletched 2" Bully™ vanes; Micro-Lite Nocks and 6.5MM Inserts included.

Specify size: 250 (9.4 gr/lnch), 300 (9.5 gr/lnch), 340 (9.3 Gr/lnch), 400 (8.4 Gr/lnch) or 500 (7.3 Gr/lnch)

EASTON 6

009123 Easton 6.5 Hunter Classic Arrow 6pk

The 6.5 uses proprietary Acu-Carbon[™] Uniform Spine process. Acu-Carbon[™] is a continuous-fed, single-die manufacturing method that results in the most reliable tolerances and eliminates the need for the spine-alignment and weight sorting. The Easton 6.5MM[™] arrows are USA-made shafts that offer the highest level of accuracy available to bowhunters today all at price points to fit virtually any budget.

+/- .003" Straightness. Factory-fletched 2" BullyTM vanes; Micro-Lite Nocks and 6.5MM Inserts included.

Specify size: 250 (10.0 gr/lnch), 300 (9.5 gr/lnch), 340 (9.3 Gr/lnch), 400 (8.4 Gr/lnch) or 500 (7.3 Gr/lnch)

EASTON 6

009125 Easton 6.5 Bowhunter Arrow 6pk

The 6.5 uses proprietary Acu-Carbon[™] Uniform Spine process. Acu-Carbon[™] is a continuous-fed, single-die manufacturing method that results in the most reliable tolerances and eliminates the need for the spine-alignment and weight sorting. The Easton 6.5MM[™] arrows are USA-made shafts that offer the highest level of accuracy available to bowhunters today all at price points to fit virtually any budget.

+/- .006" Straightness. Factory-fletched 2" Bully™ vanes; Micro-Lite Nocks and 6.5MM Inserts included.

Specify size: 340 (9.3 Gr/Inch), 400 (8.4 Gr/Inch) or 500 (7.3 Gr/Inch)

EASTON 65

009126 Easton 6.5 RTS JR Arrow 6/pk

500 spine arrows with pre-installed nocks and inserts. Specify: 26" or 28" EASTON

009132 Easton 6.5 WhiteOut Arrow 6/pk

Easton's 6.5MM Whiteout is the next evolution in hunting arrow aesthetics. With an all-white exterior finish and USA-Made uniform ACU Carbon construction, Whiteout offers high-visibility in flight and provides a blood indicator for shot-placement identification. +/- .003" straightness Comes fletched with Blazer Vanes and 6.5MM Super Nock and 6.5MM Insert included.

Specify size: 300 (9.6 Gr/Inch), 340 (8.8 Gr/Inch), 400 (8.1 Gr/Inch) or 500 (7.5 Gr/Inch)

007735 Carbon Express Maxima Sable RZ Shafts

Constructed with Carbon Express's exclusive TriSpine technology with 360-degree spine consistency to stabilize and maintain how the arrow flexes in flight, the Sable RZ series sets a new standard in lightweight hunting arrow performance. The exclusive 3K carbon weave of the TriSpine construction brings strength, stability, and speed together to create a tough, light weight and wicked accurate arrow shaft with up to 4X the accuracy of standard single spine arrows. Designed for speed, the key to consistency comes in the arrow's center section or Red Zone[™] which takes advantage of Carbon Express's proven Tri-Spine technology where the center section is weaker while the distal ends remain stiff to contain arrow oscillation and control the enemy of hyperaccuracy, Dynamic Spine. Constructed of 100% carbon the Maxima Sable RZ offers an exceptional strength-to-weight ratio. Dozen Pack

Straightness: ±.002" Weight tolerance: ±1 grain

Specify size: 350 (8.4 gpi), 400 (7.5 gpi), 500 (6.5 gpi)

Maxima[™] Triad[™] is a Tri-Spine XSD (Extra Small Diameter) .166 hunting arrow with performance at its core. Featuring Carbon Expresses exclusive REDZONE[™] Technology, the patented three spine arrow shaft creates less than 1/3 the oscillation of single spine arrows and FOUR TIMES THE ACCURACY for easier tuning and unprecedented accuracy. Smaller diameter construction means thicker walls, more durability, decreased wind resistance/crosswind impact and exceptional penetration with +/-.002" Real Straightness. Each package of shafts is a Laser Match Set that are sorted and matched by spine and weight for best-in-class consistency with a spine sorting tolerance +/-.0025 & weight sorting tolerance +/-1.0 grains.

Specify size: 300 (10.9gpi), 350 (10.1gpi) or 400 (9.2gpi)

007751 Carbon Express Maxima Red MO Contour Shaft

The Maxima RED Contour continues the breakthrough in controlling Dynamic Spine, now with the added benefit of Mossy Oak Contour camouflage. The high-tech carbon design of Maxima RED arrows has stiffer distal ends to contain the arrow's flex to the RED ZONE[®]. Utilizing Carbon Express exclusive Tri-Spine Technology the RED ZONE is the center section of the arrow shaft, engineered specifically to contain Dynamic Spine and make broadheads shoot more consistently. The Maxima RED Contour shaft features a .244-inch inside diameter and are sorted and matched by weight and spine. Spine selection sorting tolerance is +/- 0.0025-inch. Weight sorting tolerance is +/- 1.0 grains. Specify size: 400 (8.1 grains/inch) or 350 (9.1 grains/inch)

007747 Carbon Express Maxima Red SD MO Contour Shaft

Carbon Express Maxima RED SD arrows in Mossy Oak Contour Camouflage feature stiffer distal ends to contain the arrow's flex to the RED ZONE[®]. Utilizing Carbon Express's exclusive Tri-Spine Technology to control the center section of the arrow and by doing so creates more consistent arrow flight. Small diameter .203 Maxima Red SD Contour arrows utilize premium Carbon Express inserts and Bull Dog Nock Collars with Launch Pad Nocks. Each group of arrows is spine selection sorted to a tolerance of +/- 0.0025-inch and eight sorting to within +/- 1.0 grains.

Specify size: 400 (8.7 grains/inch) or 350 (9.7 grains/inch)

MAXIMA

007760 Carbon Express Maxima Red SD Shaft

The Maxima RED SD is a breakthrough in controlling Dynamic Spine. This arrow has all the same features of the Maxima Red, but in a smaller diameter (.023" ID) shaft, which offers superior penetration.

Includes LAUNCHPAD Precision Nock, BullDog Nock Collar and half-out inserts.

Specify size: 250 (8.3 gr/inch), 350 (9.4 gr/inch) or 450 (11.1 gr/inch)

007767 Carbon Express Maxima Red Shaft

The Maxima RED is a breakthrough in controlling Dynamic Spine. The hi-tech design has stiffer ends to contain the arrow's flex to what we call the "RED ZONE". Sorted and matched by weight and spine for best-in class consistency. Spine selection sorting tolerance is +/-.0025". Weight tolerance is +/- 1.0 grains.

Specify size: 250 (8.11 gr/Inch) or 350 (9.07 gr/Inch)

CARBON EXPRESS

STROYER 258

007791 Carbon Express D-Stroyer PileDriver Shaft

The D-Stroyer PileDriver[®] is engineered for the hunter who wants ULTIMATE penetration. The D-Stroyer PileDriver is the heaviest arrow in the Carbon Express line and is designed to create maximum kinetic energy and deliver greater knock-down power. The Dual Spine Weight Forward technology delivers enhanced, accuracy, and penetration vs a single spine shaft. With patented DualSpine weight Forward Technology this two-spine arrow shaft reduces the oscillation by half for twice the accuracy. With an internal diameter of .244 these shafts fit standard components and include CX's premium inserts and Launchpad arrow nocks. Each matched set weights +/-1 grain

Specify size: 300 (12.8 gpi), 350 (11.0 gpi) or 400 (10.1 gpi)

THE REAL PROPERTY OF A DESCRIPTION OF A

Features: Dual Spine Weight Forward; Buff Tuff Plus; Camo Buff Tuff - Patented outer layer construction that provides the world's toughest and quietest carbon arrow finish that's easier to remove from targets & constructed on the front 2/3rds of the shaft; BullDog Nock Collar - Exclusive Feature made of aircraft grade aluminum that prevents impact damage; Laser Match Set - Pack sets are sorted & matched by spine and weight for best-in-class consistency. Spine sorting tolerance +/- .0025 & Weight sorting tolerance +/- 1.0 grains +/- .002" Real Straightness - Laser checked for straightness to a remarkable 1/10,000 of an inch; Launchpad Precision Nocks and inserts included.

Specify size: 300 (9.7gpi), 350 (8.9gpi), 400 (8.0gpi)

007786 Carbon Express D-Strover Shaft

Features: Dual Spine Weight Forward; K360 - Patented outer layer construction of 100% high modulus carbon weave for consistent spine strength & durability constructed on front 2/3 of the shaft; Match Weight +/-1.0 grains - Weight sorting tolerance +/- 1.0 grains; +/- .003" Real Straightness - Laser checked for straightness to a remarkable 1/10,000 of an inch; Launchpad Precision Nocks and inserts included.

Specify size: 350 (8.9gpi), 400 (7.9gpi), 500 (7.0gpi)

007782 Carbon Express D-Stroyer SD Shaft

Features: Dual Spine Weight Forward; SD - Small Diameter .203" ID, maximum kinetic energy and greater penetration with less wind drift; K360 - Patented outer layer construction of 100% high modulus carbon weave for consistent spine strength & durability constructed on front 2/3 of the shaft; Match Weight +/-1.0 grains - Weight sorting tolerance +/- 1.0 grains; +/- .003" Real Straightness - Laser checked for straightness to a remarkable 1/10,000 of an inch; Launchpad Precision Nocks and inserts included.

Specify size: 300 (11.4gpi), 350 (10.3gpi), 400 (9.4gpi)

007745 Carbon Express Predator Shaft

+/- .006" Straightness. Accepts Type 1 Insert.

Specify Size: 700 (6.3 gr/inch), 800 (7.5 gr/inch), 2040 (7.7 gr/inch), 3050 (8.3 gr/inch), 45/60 (9.2 gr/inch), 60/75 (9.8 gr/inch)

* 700 and 800 size shafts require 1/2 inserts and are not included.

PREDATOR 53

007794 Carbon Express Predator SD Shaft

Features: SD - Small Diameter .203" ID, maximum kinetic energy and greater penetration with less wind drift; Match Weight +/-2.0 grains - Weight sorting tolerance +/- 2.0 grains; +/- .003" Real Straightness - Laser checked for straightness to a remarkable 1/10,000 of an inch; Launchpad Precision Nocks and inserts included.

Specify size: 300 (11.5gpi), 350 (10.3gpi), 400 (9.4gpi)

007736 Carbon Express Maxima Sable RZ Arrow w/Vanes 6/Pk

Constructed with Carbon Express's exclusive TriSpine technology with 360-degree spine consistency to stabilize and maintain how the arrow flexes in flight, the Sable RZ series sets a new standard in lightweight hunting arrow performance. The exclusive 3K carbon weave of the TriSpine construction brings strength, stability, and speed together to create a tough, light weight and wicked accurate arrow shaft with up to 4X the accuracy of standard single spine arrows. Designed for speed, the key to consistency comes in the arrow's center section or Red Zone[™] which takes advantage of Carbon Express's proven Tri-Spine technology where the center section is weaker while the distal ends remain stiff to contain arrow oscillation and control the enemy of hyper-accuracy, Dynamic Spine. Constructed of 100% carbon the Maxima Sable RZ offers an exceptional strength-to-weight ratio. Fletched with 2" Quadel Vanes.

Straightness: ±.002" Weight tolerance: ±1 grain

Specify size: 350 (8.4 gpi), 400 (7.5 gpi)

007752 Carbon Express Maxima Red MO Contour Arrow

The Maxima RED Contour continues the breakthrough in controlling Dynamic Spine, now with the added benefit of Mossy Oak Contour camouflage. The high-tech carbon design of Maxima RED arrows has stiffer distal ends to contain the arrow's flex to the RED ZONE[®]. Utilizing Carbon Express exclusive Tri-Spine Technology the RED ZONE is the center section of the arrow shaft, engineered specifically to contain Dynamic Spine and make broadheads shoot more consistently. The Maxima RED Contour shaft features a .244-inch inside diameter and are sorted and matched by weight and spine and are fletched with 2" Quadel Vanes and utilize premium Carbon Express inserts and Bull Dog Nock Collars with Launch Pad Nocks. Spine selection sorting tolerance is +/- 0.0025-inch. Weight sorting tolerance is +/- 1.0 grains.

Specify size: 400 (8.1 grains/inch) or 350 (9.1 grains/inch)

DATE IDATE & Lat

007750 Carbon Express Maxima Red SD MO Contour Arrow

Carbon Express Maxima RED SD arrows in Mossy Oak Contour Camouflage feature stiffer distal ends to contain the arrow's flex to the RED ZONE[®]. Utilizing Carbon Express's exclusive Tri-Spine Technology to control the center section of the arrow and by doing so creates more consistent arrow flight. These small diameter .203 Maxima Red SD Contour arrows are fletched with 2" Quadel Vanes and utilize premium Carbon Express inserts and Bull Dog Nock Collars with Launch Pad Nocks. Each group of arrows is spine selection sorted to a tolerance of +/- 0.0025-inch and eight sorting to within +/- 1.0 grains.

Specify size: 400 (8.7 grains/inch) or 350 (9.7 grains/inch)

007768 CX Maxima Red Arrow w/Blazer 6/Pk **007769** CX Maxima Red Arrow w/Blazer 36/Pk

The Maxima RED is a breakthrough in controlling Dynamic Spine. The hi-tech design has stiffer ends to contain the arrow's flex to what we call the "RED ZONE". Sorted and matched by weight and spine for best-in class consistency. Spine selection sorting tolerance is +/-.0025". Weight tolerance is +/- 1.0 grains. Specify size: 250 (8.11 gr/lnch) or 350 (9.07 gr/lnch)

007761 Carbon Express Maxima Red SD Arrow 6/pk **007762** Carbon Express Maxima Red SD Arrow 36/pk

The Maxima RED SD is a breakthrough in controlling Dynamic Spine. This arrow has all the same features of the Maxima Red, but in a smaller diameter (.023" ID) shaft, which offers superior penetration.

Includes LAUNCHPAD Precision Nock, BullDog Nock Collar and half-out inserts. Specify size: 250 (8.3 gr/inch) or 350 (9.4 gr/inch)

007993 Carbon Express Flu Flu Arrow 60-75

Equipped with full length feathers, you have the ultimate arrow for the quick short bursts needed when hunting birds.

CARBON EXPRESS

007792 Carbon Express D-Stroyer PileDriver Arrow 6pk

The D-Stroyer PileDriver[®] is engineered for the hunter who wants ULTIMATE penetration. The D-Stroyer PileDriver is the heaviest arrow in the Carbon Express line and is designed to create maximum kinetic energy and deliver greater knockdown power. The Dual Spine Weight Forward technology delivers enhanced, accuracy, and penetration vs a single spine shaft. With patented DualSpine weight Forward Technology this two-spine arrow shaft reduces the oscillation by half for twice the accuracy. With an internal diameter of .244 these shafts are fletched with 2" Quadel Vanes and include CX's premium inserts and Launchpad arrow nocks. Each matched set weights +/-1 grain

Specify size: 300 (12.8 gpi), 350 (11.0 gpi) or 400 (10.1 gpi)

007783 Carbon Express D-Stroyer SD Arrow 6pk **007785** Carbon Express D-Stroyer SD Arrow 36pk

Features: Dual Spine Weight Forward; SD - Small Diameter .203" ID, maximum kinetic energy and greater penetration with less wind drift; K360 - Patented outer layer construction of 100% high modulus carbon weave for consistent spine strength & durability constructed on front 2/3 of the shaft; Match Weight +/-1.0 grains - Weight sorting tolerance +/- 1.0 grains; +/- .003" Real Straightness - Laser checked for straightness to a remarkable 1/10,000 of an inch; Fletched with 2" Quadel vanes. Launchpad Precision Nocks and inserts included.

Specify size: 300 (11.4gpi), 350 (10.3gpi), 400 (9.4gpi)

007749 Carbon Express Predator w/2" Vane 36pk

The Predator II is a rugged carbon composite arrow that is certain to deliver impressive results. Straightness: +/-.006" max. Now fletched with exclusive Assault performance Vanes.

Specify size: 2040 (7.7 gr/lnch), 3050 (8.3 gr/lnch), 4560 (8.8 gr/lnch) or 6075 (9.7 gr/lnch)

007733 Carbon Express Adrenaline FPS w/Vane 6/Pk

Weight tolerance: +/- 2.0 grain Specify size: 350 or 400

007787 Carbon Express D-Stroyer Arrow 6pk **007788** Carbon Express D-Stroyer Arrow 36pk

Features: Dual Spine Weight Forward; K360 - Patented outer layer construction of 100% high modulus carbon weave for consistent spine strength & durability constructed on front 2/3 of the shaft; Match Weight +/-1.0 grains - Weight sorting tolerance +/- 1.0 grains; +/- .003" Real Straightness - Laser checked for straightness to a remarkable 1/10,000 of an inch; Fletched with 2" Quadel vanes. Launchpad Precision Nocks and inserts included.

Specify size: 350 (8.9gpi), 400 (7.9gpi), 500 (7.0gpi)

007780 Carbon Express D-Stroyer MX Hunter Arrow 6pk **007781** Carbon Express D-Stroyer MX Hunter Arrow 36pk

Features: Dual Spine Weight Forward; Buff Tuff Plus; Camo Buff Tuff - Patented outer layer construction that provides the world's toughest and quietest carbon arrow finish that's easier to remove from targets & constructed on the front 2/3rds of the shaft; BullDog Nock Collar - Exclusive Feature made of aircraft grade aluminum that prevents impact damage; Laser Match Set - Pack sets are sorted & matched by spine and weight for best-in-class consistency. Spine sorting tolerance +/- .0025 & Weight sorting tolerance +/- 1.0 grains +/- .002" Real Straightness - Laser checked for straightness to a remarkable 1/10,000 of an inch; Fletched with 2" Raptor Vanes. Launchpad Precision Nocks and inserts included.

Specify size: 300 (9.7gpi), 350 (8.9gpi), 400 (8.0gpi)

PREDATOR 50

250 100 100 100

007796 Carbon Express Predator SD Arrow 36pk

PREDETOR

Features: SD - Small Diameter .203" ID, maximum kinetic energy and greater penetration with less wind drift; Match Weight +/-2.0 grains - Weight sorting tolerance +/- 2.0 grains; +/- .003" Real Straightness - Laser checked for straightness to a remarkable 1/10,000 of an inch; Fletched with 2" Assault vanes. Launchpad Precision Nocks and inserts included.

Specify size: 300 (11.5gpi), 350 (10.3gpi), 400 (9.4gpi)

007775 Carbon Express Adrenaline Arrow 6/pk

The Adrenaline is engineered for speed and accuracy with outstanding strength and durability. Ultra-buffed finish gives a silent draw on your rest for added stealth in the field. Includes LAUNCHPAD precision nocks, and inserts. Specify size: 250 (8.96 gr/inch) or 350 (9.98 gr/inch)

34

079005 Gold Tip TripleX Pro Shaft

ATT -

At .421", the Triple X Pro is Gold Tips largest diameter shaft and has taken the indoor tournament world by storm and making a name for themselves on the 3-D circuit. The .150 spine offers incredible durability and accuracy. The Triple X Pro provides exceptional straightness retention. +/- .001" and weight tolerance +/- .5 grains. Components sold separately.

079008 Gold Tip X-Cutter Pro Shaft

The wide diameter X-Cutter Pro has grown to become a favorite choice of 3-D archer's. Coming in at just 7.8 gpi, these "fat shafts" provide line-cutting performance without added weight. +/- .001" straightness and +/- 5 grains weight tolerance. 250 spine. Components sold separately.

079009 Gold Tip UL Pro 22 Shaft

The Ultra-Lite Pro 22 is a perfect choice for those 3-D archer's who don't want to pull extra weight required to get the larger shafts up to speed or just don't have the draw length to physically make it happen. The UL Pro 22 weighs in at only 7.3 grains per inch. +/- .001" straightness tolerance and +/- 5 grains weight tolerance. 300 spine. Components sold separately.

1 00LO THE SAL 400

079020 Gold Tip Hunter XT Shaft

The Gold Tip Hunter family of shafts provide the versatility to meet the demands of every level and challenge you may encounter. Providing speed, stability and strength, thanks to Gold Tips 100% carbon technology, the Hunters have become the go-to hunting arrows for many thousands of bowhunters. +/- .003" straightness tolerance and +/- 2 grains weight tolerance. GT Series Nock and Accu-Lite inserts included.

Specify size: 300 (9.3 gpi), 340 (8.9 gpi), 400 (8.2 gpi) or 500 (7.3 gpi)

079053 Gold Tip Force FOC Shaft

Bowhunting is 100% about penetration at impact, and FORCE F.O.C. from Gold Tip is built to deliver. With an extremely lightweight, high F.O.C. design in a configuration that's easy for any hunter to use, it makes every shot a show of FORCE. +/- .5 grain weight tolerance; +/- .001" straightness tolerance; Includes Brass and Aluminum inserts

Specify Size: 250 (9.8 gr/inch), 300 (8.8 gr/inch), 340 (8.2 gr/inch) or 400 (7.4 gr/inch)

079007 Gold Tip 30X Pro Shaft

The 30X Pro is a .398 diameter shaft that provides line-cutting performance of a large shaft without sacrificing a bit of speed. The 30X Pro features a stiffer .200 spine and is built Gold Tip tough. +/- .001" straightness tolerance and +/- .05 grains weight tolerance. 8.5 gpi Components sold separately

079006 Gold Tip 9.3 Max Pro Shaft

THE answer to consumer demand for a product that not only pushes the maximum allowable diameter for indoor WORLD ARCHERY/ FITA events, but is also durable enough to maintain pinpoint accuracy shot after shot into the notorious, arrow wrecking targets that are so common at these events, Gold Tip brings to you the Nine.3 MAX Pro. +/- .001" Straightness.

Size: 250 (8.3 gr/inch)

079010 Gold Tip Hunter Pro Shaft- w/Bushing

The Gold Tip Hunter family of shafts provide the versatility to meet the demands of every level and challenge you may encounter. Providing speed, stability and strength, thanks to Gold Tips 100% carbon technology, the Hunters have become the go-to hunting arrows for many thousands of bowhunters. +/- .001" straightness tolerance and +/- .5 grains weight tolerance. GTO Series Nocks, nock bushings and Accu-Lite inserts included.

Specify size: 300 (9.3 gpi), 340 (8.9 gpi), 400 (8.2 gpi) or 500 (7.3 gpi)

The Gold Tip Hunter family of shafts provide the versatility to meet the demands of every level and challenge you may encounter. Providing speed, stability and strength, thanks to Gold Tips 100% carbon technology, the Hunters have become the go-to hunting arrows for many thousands of bowhunters. +/- .006" straightness tolerance and +/- 2 grains weight tolerance. GT Series Nock and Accu-Lite inserts included.

Specify size: 300 (9.3 gpi), 340 (8.9 gpi), 400 (8.2 gpi) or 500 (7.3 gpi)

079015 Gold Tip Airstrike Shaft

STILLS TICHEL

Gold Tip introduces Airstrike[™], featuring an ultra-light .204 inside diameter profile with an extreme front of center design, high modulus carbon construction, and exclusive Dyna-Tek Slick Shield[®] coating. Built for speed and long-range accuracy, the Airstrike[™] closes long distances faster and penetrates deeper with pinpoint accuracy. +/- .001" straightness tolerance and +/- 0.5 grain weight tolerance. .204 Accu-Tough Nock, Ballistic Collar and .204 inserts included.

Specify size: 250 (9.6 gr/inch), 300 (8.5 gr/inch), 340 (7.8 gr/inch) or 400 (7.2 gr/inch)

Valene Valene Vero-4HH)

079040 Gold Tip Velocity Pro Shaft

Built for speed, the entire family of Velocity arrows ensures you get the most out of the technologically sophisticated speed bows offered by today's leading bows. Offering incredible durability and straightness retention, with less added weight, the Velocity line fulfills your need for speed. +/- .001" straightness tolerance and +/- .5 grains weight tolerance. GTO Series Nocks, nock bushings and Accu-Lite inserts included.

Specify size: 300 (8.8 gpi), 340 (8.2 gpi), 400 (7.4 gpi), 500 (6.3 gpi) or 600 (5.9 gpi)

079050 Gold Tip Velocity Shaft

Built for speed, the entire family of Velocity arrows ensures you get the most out of the technologically sophisticated speed bows offered by today's leading bows. Offering incredible durability and straightness retention, with less added weight, the Velocity line fulfills your need for speed. +/- .006" straightness tolerance and +/- 2 grains weight tolerance. Accu-Lite Nock and Accu-Lite inserts included.

Specify size: 300 (8.8 gpi), 340 (8.2 gpi), 400 (7.4 gpi), 500 (6.3 gpi) or 600 (5.9 gpi)

079055 Gold Tip Pierce Platinum Shaft

The Gold Tip Kinetic Pierce is a micro diameter arrow that's built to hunt. Its greatly reduced diameter makes it resist wind drift for long range accuracy. Its decreased weight makes it fly fast and flat. And when the Pierce impacts its target, it has the energy to punch through. Thanks to the patent pending Ballistic Collar Insert System, this surgical arrow has the strength of a jackhammer to take on any hide, meat, or bone you put in front of it. GTO Nock and Nock Collar also included. Weight tolerance: +/- .5 grains. Straightness: +/- .0025"

Specify size: 300 (9.1 gr/in), 340 (8.3 gr/in), 400 (7.6 gr/in) or 500 (6.6 gr/in)

079045 Gold Tip Velocity XT Shaft

Built for speed, the entire family of Velocity arrows ensures you get the most out of the technologically sophisticated speed bows offered by today's leading bows. Offering incredible durability and straightness retention, with less added weight, the Velocity line fulfills your need for speed. +/- .003" straightness tolerance and +/- 2 grains weight tolerance. Accu-Lite Nock and Accu-Lite inserts included.

Specify size: 300 (8.8 gpi), 340 (8.2 gpi), 400 (7.4 gpi), 500 (6.3 gpi) or 600 (5.9 gpi)

COLO THE PIERCE

079059 Gold Tip Pierce Tour Shaft

The Pierce Tour is specifically engineered for outstanding performance in field archer conditions where long distances rule and unpredictable winds abound. This micro diameter arrow is made with Gold Tip's 100% Pure Carbon Technology resists wind drift and provides unmatched straightness retention. Straightness Tolerance: ± .5 grains. All components sold separately.

Specify size: 300 (9.1 gr/inch), 340 (8.3 gr/inch), 400 (7.6 gr/inch) or 500 (6.6 gr/inch)

079057 Gold Tip Pierce Shaft

The Gold Tip Kinetic Pierce is a micro diameter arrow that's built to hunt. Its greatly reduced diameter makes it resist wind drift for long range accuracy. Its decreased weight makes it fly fast and flat. And when the Pierce impacts its target, it has the energy to punch through. Thanks to the patent pending Ballistic Collar Insert System, this surgical arrow has the strength of a jackhammer to take on any hide, meat, or bone you put in front of it. Weight tolerance: +/- 2 grains. Straightness: +/- .006"

Specify size: 250 (9.8 gr/in), 300 (9.1 gr/in), 340 (8.3 gr/in), 400 (7.6 gr/in) or 500 (6.6 gr/in)

079030 Gold Tip Kinetic Kaos Shaft

741010)

For bowhunters looking for a durable, hard-hitting, small diameter shaft that still provides unmatched straightness retention, the Kinetic family of arrows meets the challenge. If you're hunting larger game or striving to increase your accuracy in wind and inclement wether, the Kinetic shafts are engineered to deliver. +/- .025" straightness tolerance and +/- .5 grains weight tolerance. Includes GTO Series Nock, GTO Nock Bushing, Accu-tough Insert and Ballistic Collar.

Specify size: 200 (11.6 gpi), 300 (10.4 gpi), 340 (9.9 gpi), 400 (9.5 gpi) or 500 (7.6 gpi)

TRADITIONAL 600

079087 Gold Tip Traditional Classic XT Shaft

Gold Tip's Traditional Classic XT is built of a heavyweight, small diameter carbon shaft that comes equipped with stainless steel inserts and reinforced Ballistic Collars. The strength and durability, coupled with the look of a custom footed-shaft makes it the perfect choice for any SPORTSMAN that demands hard-hitting kinetic energy. Straightness: .003"

Specify size: 340 (12.1 gr/in), 400 (11.4 gr/in), 500 (9.8 gr/in) or 600 (9.0 gr/in)

079085 Gold Tip Traditional Classic Shaft

Gold Tip's Traditional Classic XT is built of a heavyweight, small diameter carbon shaft that comes equipped with stainless steel inserts. The strength and durability, coupled with the look of a custom footed-shaft makes it the perfect choice for any SPORTSMAN that demands hard-hitting kinetic energy. Straightness: .006"

Specify size: 340 (12.1 gr/in), 400 (11.4 gr/in), 500 (9.8 gr/in) or 600 (9.0 gr/in)

079083 Gold Tip Traditional XT Shaft

The Gold Tip Traditional Series Shafts offer the recurve shooter the performance and durability all leatherwall addicts are looking for. +/- .003" straightness tolerance and +/- 2 grains weight tolerance. Includes GT Series Nock and Accu-Lite Insert.

Specify size: 340 (10.5 gpi), 400 (9.3 gpi), 500 (8.6 gpi) or 600 (7.8 gpi)

079080 Gold Tip Traditional Shaft

The Gold Tip Traditional Series Shafts offer the recurve shooter the performance and durability all leatherwall addicts are looking for. +/- .006" straightness tolerance and +/- 2 grains weight tolerance. Includes GT Series Nock and Accu-Lite Insert.

Specify size: 340 (10.5 gpi), 400 (9.3 gpi), 500 (8.6 gpi) or 600 (7.8 gpi)

079060 Gold Tip Ted Nugent Edition Shaft- White

The Ted Nugent Signature Series offers three distinct choices to get the job done, each with its own unique Nugent style. +/- .006" straightness tolerance and +/- 2 grains weight tolerance. White Zebra Stripe. GT Series Nock and Accu-Lite Insert included.

Specify size: 300 (10.8 gpi), 400 (9.3 gpi) or 500 (8.4 gpi)

Weight tolerance: +/- 2 grains. Straightness: +/- .006"

Specify size: 250 (9.8 gr/in), 300 (9.1 gr/in), 340 (8.3 gr/in), 400 (7.6 gr/in) or 500 (6.6 gr/in)

079031 Gold Tip Kinetic Kaos Arrow Dz

For bowhunters looking for a durable, hard-hitting, small diameter shaft that still provides unmatched straightness retention, the Kinetic family of arrows meets the challenge. If you're hunting larger game or striving to increase your accuracy in wind and inclement wether, the Kinetic shafts are engineered to deliver. +/- .025" straightness tolerance and +/- .5 grains weight tolerance. Includes GTO Series Nock, GTO Nock Bushing, Accu-tough Insert and Ballistic Collar. Fletched with Raptor Vanes.

Specify size: 200 ((11.6 gpi), 300 (10.4 gpi), 340 (9.9 gpi), 400 (9.5 gpi) or 500 (7.6 gpi)

079061 Gold Tip Ted Nugent Edition Arrow- 6pk White

The Ted Nugent Signature Series offers three distinct choices to get the job done, each with its own unique Nugent style. +/- .006" straightness tolerance and +/- 2 grains weight tolerance. White Zebra Stripe. GT Series Nock and Accu-Lite Insert included. Fletched with Raptor Vanes.

Specify size: 300 (10.8 gpi), 400 (9.3 gpi) or 500 (8.4 gpi)

The Ted Nugent Signature Series offers three distinct choices to get the job done, each with its own unique Nugent style. +/- .006" straightness tolerance and +/- 2 grains weight tolerance. Pink Zebra Stripe. GT Series Nock and Accu-Lite Insert included. Fletched with Raptor Vanes.

Specify size: 400 (9.3 gpi) or 500 (8.4 gpi)

079088 Gold Tip Traditional Classic XT w/4" Feather 6pk

Gold Tip's Traditional Classic XT is built of a heavyweight, small diameter carbon shaft that comes equipped with stainless steel inserts and reinforced Ballistic Collars. The strength and durability, coupled with the look of a custom footed-shaft makes it the perfect choice for any SPORTSMAN that demands hard-hitting kinetic energy. Straightness: .003"

Specify size: 340 (12.1 gr/in), 400 (11.4 gr/in), 500 (9.8 gr/in) or 600 (9.0 gr/in)

TRADITIONAL 600

079086 Gold Tip Traditional Classic w/4" Feather 6pk

Gold Tip's Traditional Classic XT is built of a heavyweight, small diameter carbon shaft that comes equipped with stainless steel inserts. The strength and durability, coupled with the look of a custom footed-shaft makes it the perfect choice for any SPORTSMAN that demands hard-hitting kinetic energy. Straightness: .006"

Specify size: 340 (12.1 gr/in), 400 (11.4 gr/in), 500 (9.8 gr/in) or 600 (9.0 gr/in)

The Gold Tip Traditional Series Shafts offer the recurve shooter the performance and durability all leatherwall addicts are looking for. +/- .003" straightness tolerance and +/- 2 grains weight tolerance. Includes GT Series Nock and Accu-Lite Insert. Fletched with 5" Barred & Shield cut feathers.

Specify size: 340 (10.5 gpi), 400 (9.3 gpi), 500 (8.6 gpi) or 600 (7.8 gpi)

079081 Gold Tip Traditional Arrow 6pk

The Gold Tip Traditional Series Shafts offer the recurve shooter the performance and durability all leatherwall addicts are looking for. +/- .006" straightness tolerance and +/- 2 grains weight tolerance. Includes GT Series Nock and Accu-Lite Insert. Fletched with 4" Feathers.

Specify size: 340 (10.5 gpi), 400 (9.3 gpi), 500 (8.6 gpi) or 600 (7.8 gpi)

007536 Gold Tip Twister Flu Flu Arrow Each

With its specially twisted feather fletching coupled with its small diameter, the Twister is the new standard in high performance Flu-Flu arrows. Includes .204 Nocks and Inserts.

Specify size: 500 (7.6 gpi), 400 (9.5 gpi) or 300 (10.4 gpi)

079093 Gold Tip Lightning Arrow 6/Pk

28" full length shaft. For use in bows not exceeding 35 lbs in draw weight. GT Series Nock and Glue in point installed. Fletched with vanes.

079096 Gold Tip Fiberglass Arrow Black 6/Pk

28" Full Length Shaft. For use in bows not exceeding 30 lbs in draw weight. Nocks and points installed. Fletched with vanes.

079098 Gold Tip Fiberglass Arrow Pink 6/Pk

28" Full Length Shaft. For use in bows not exceeding 30 lbs in draw weight. Nocks and points installed. Fletched with vanes.

008580 Nockturnal Universal Nock Tool

With an improved look, feel and more streamlined design the Nockturnal[®] Nock Tool™ helps users maximize the performance of their Nockturnal lighted nocks. Works with new and old style nocks.

008522 Nockturnal Shift Lighted Nock

Nockturnal Shift FIT lighted nocks take the simplicity and reliability of the world's most dependable and user-friendly lighted nock to an entirely new level. Thanks to the external on/off switch the process of turning an ultra-bright, string activated Nockturnal lighted nock off has never been easier. Constructed of an ultra-strong, impact resistant, poly-carbonate casing that protects the super-bright LED lights Shift nocks deliver on what users have come to expect from Nockturnal lighted nocks. The patented, string-activated, piston-driven contact linear switch triggers the nock to illuminate immediately when the string is released and can be quickly turned off with the newly integrated external switch, a true evolution in the world's most reliable lighted nock system. 2-pack

007192 Arizona E-Z Fletch- Carb Straight

The Carbon Right E-Z fletch is designed to fletch any carbon or aluminum arrow from Ultra Micro diameter all the way up to 5/16" standard diameter. This tool will fletch vanes or feathers up to 5" long. This tool works great for archers wanting to stick with a more "traditional" setup.

007193 Arizona E-Z Fletch- XBow Bolt

The E-Z Fletch Bolt tool is designed to fletch any carbon or aluminum arrow from 5/16" standard diameter all the way up to 26/64" diameter. This tool will fletch vanes or feathers up to 2.25" long. The Bolt tool works great for crossbow shooters that want to increase their accuracy and broadhead stabilization.

007191 Arizona E-Z Fletch Mini

The E-Z Fletch Mini lets you fletch vanes up to 2-1/4" with maximum helical for more accurate arrow flight. Perfect for carbon arrows, 5/16" (.3125) diameter or smaller.

007196 Arizona E-Z Fletch Pro- LW

The left helical tool puts a helical twist on the fletching for maximum stability. Will do any plastic vane or left wing feather up to 5 inches in length. The aluminum tool will fletch shafts 5/16" to 26/64" diameter.

007197 Arizona E-Z Fletch Pro- RW

The left helical tool puts a helical twist on the fletching for maximum stability. Will do any plastic vane or right wing feather up to 5 inches in length. The aluminum tool will fletch shafts 5/16" to 26/64" diameter.

007198 Arizona E-Z Fletch Pro- Straight

This tool will do any plastic vane or feather up to 5 inches in length. The aluminum tool will fletch shafts $5\!/16"$ to 26/64" diameter.

007190 Arizona E-Z Fletch- Carbon RW

This carbon right helical tool will put a helical on the vane or feather. It will accommodate any arrow 5/15" (.3125) diameter or small and handle any right wight feather or vane up to 5" long. Works well with 2" vanes.

007199 Arizona E-Z Fletch Pro- Offset

The offset is your best choice for crossbow bolts with 4" fletching and a good compromise for those who want some offset, but not a full helical. The aluminum tools will fletch shafts 5/16" to 26/64 diameter.

H&H ARCHERY SUPPLY • 1-800-356-2209 • Fax 1-320-963-6521

O01498 Bohning Pro Class Jig Perfect fletch every time. Quick-set magnetic clamp with large clamp grips for easier operation, easy off-set adjustment & accurate "snap" indexing. Specify RW, LW or Straight

001500 Bohning Helix Blazer Fletching Jig

The Blazer Helix Fletching Jig with a pre-set 3 degree helical built into the clamp, gives a real helical, not just an offset.

001513 Bohning Big Jig Fletcher

The Big Jig is designed to fletch up to a 4" vane. Comes with two clamps, 1° right offset and 3° right helical. The Big Jig will allow you to fletch any size arrow shaft from an X-10 to a 27/64 diameter line cutter.

001507 Bohning Cauldron Fletching Jig

The Cauldron Jig is a 3 vane advanced fletching system allows you to fletch all three vanes at once. The snap-in inserts are easy to change and don't require tools, so you can switch from a three degree right helical to a one degree right in no time. With this jig you can leave the nock on your arrow so you don't need to change the center post - simply twist the dial at the bottom of the jig to rotate your arrow for perfect indexing. The Cauldron pressure ring is adjustable to accommodate micro, standard, and large arrow diameters. Includes inserts for Straight (gray), 3° right helical (black), 3° left helical (ourple). 1° right offset (red), and 1° left offset (orange).

001502 Bohning X-Bow Tower Fletcher

A fletching system that accommodates .2985 and .303 shaft size arrows and allows you to fletch 3 vanes at once precisely 120 degrees apart, and reduces your fletching time to a third. Includes the crossbow center post and two collar rings. Also includes clamp release tape and 2 sets of arms: black for 3 degree helical and red for a 2 degree right offset. The maximum vane size for fletching is 2.25" for Helical, and 4" for Offset. Not for use with swedged end shafts or feathers.

001503 Bohning Multi-Fletcher

Bohning's Multi-Fletcher[®] Jig will truly do it all! Every Multi-Fletcher[®] includes 7 colorcoded clamp inserts for different angles, from straight up to a 3° right or left helical. It works with all arrow diameters from X10s to 27s. The Multi-Fletcher[®] can do a 3 or 4 fletch and will accommodate arrows with standard nocks or x-bow bolts. The rugged 16-gauge stainless steel base and durable composite clamps can be cleaned with acetone to remove adhesion force and consistent angles, and the feather inserts are specially designed to avoid damage to feathers.

001520 Bohning Tower System Fletching Jig

One jig that can do it all and do it all at once. With the complete Tower System you can fletch 3 vanes of almost any size vane in three different configurations all at once. It comes with 3 sets of arms: 3° Helical for up to 2.25" vanes, 2° offset to fletch up to 4" vanes, and straight for up to 4" vanes.

090102 Q2i Fusion-II Vane- 36/Pk

Completely re-engineered and re-formulated to hold up to the most challenging environments. Helps minimizes crosswind interference. 2.1" long and weigh 7.5 grains. Specify color: Black, Royal Blue, Neon Green, Neon Orange, Neon Pink, Neon Yellow, Fire Red and White.

090104 Q2i Fusion X-II Vane 1.75"- 36/Pk

A premier target archery vane. Extremely light weight with an incredibly low profile. Minimal in flight interruption for taking a pure shot.

Specify color: Black, Royal Blue, Neon Green, Neon Orange, Neon Pink, Neon Yellow, Fire Red and White.

090106 Q2i Fusion X-II Vane 2.1"- 36/Pk

Re-Designed and Re-Engineered to perfection. Designed for Target & 3D Archery. Lightweight and Aerodynamic design. Each vane weighs just 5.8 grains. Specify color: Black, Royal Blue, Neon Green, Neon Orange, Neon Pink, Neon Yellow, Fire Red and White.

090108 Q2i Fusion X-II Vane 3"- 36/Pk

Great for hunting, target archery and crossbolts. Superior adhesion. Low profile for high wind situations and crossbow clearance. Each vane weighs just 9.5 grains. Specify color: Black, Royal Blue, Neon Green, Neon Orange, Neon Pink, Neon Yellow, Fire Red, White, and Purple.

090112 Q2i Fusion X-II Vane 4"- 36/Pk

Designed specifically for crossbolts with heavier broadheads. Helps to stabilize front of center weight distribution. Advanced adhesion technology for unsurpassed durability. Specify color: Black, Royal Blue, Neon Green, Neon Orange, Neon Pink, Neon Yellow, Fire Red and White.

A first of it's kind. Designed specifically for today's high powered crossbows. Unrivaled advancements for crossbolt steering and control.

Specify color: Black, Royal Blue, Neon Green, Neon Orange, Neon Pink, Neon Yellow, Fire Red and White.

009278 Glue Dispenser Squeeze Bottle

009236		Tuff High 7 gram	Performance
009237	-	Tuff High 1/2 oz	Performance

OO9238 Goat Tuff High Performance Glue 1 oz

OO9239 Goat Tuff High Performance Glue 2 oz

Formulated to cover the broadest range of substrates: shafts, vanes, feathers, nocks and inserts. Weatherproof, impact resistant and sheer resistant. Bonds on carbon, aluminum and wood shafts.

009255 Goat Tuff Thread Lock 10 ml

Use on any threaded parts. Mild adhesive that prevents parts from vibrating loose. Removable when desired.

009268 Goat Tuff Accelerator

Works with carbon, aluminum and wood arrows. Speeds arrow assembly. Fletch feathers in 15 seconds.

009274 Goat Tuff High Impact Glue

Bonds inserts in carbon and aluminum shafts. Rubberized to absorb higher shock loads than regular cyanoacrylate glues. Bonds broadheads that attach to a ferrule or wood shaft. Bonds in seconds. Weatherproof. .5 oz.

009267 Goat Tuff Debonder

Removes old glue from carbon and aluminum shafts without damage. Clean up spills and mistakes with ease. Fast safe removal of glue from skin.

Extra thick so it won't run into your fletching jigs, perfect for carbon or aluminum arrows, inserts and nocks. Incredibly strong high tech glue reduces arrow build time to mere minutes. When used with accelerator, kicks into high speed for instant adhesion. Simply spread Beyond Bond on the vane or feather, spray the arrow with the accelerator and position the jig. Done in seconds.

009064 Scorpion Venom Polymeric Bowstring Wax

This innovative product is easy to use and apply, no need to burnish into the bowstring. Use the leather patch supplied, run a thin coating of product up and down the string area that **<u>does not</u>** contact the bow. Helps reduce friction between the string fibers, will not become brittle in cold weather.

003832 Bohning Ferr L Tite Cool Flex

Low-temp hot melt for carbon shafts. Instant full strength set-up in cold water. Specifically formulated for carbon arrows. Easy to apply and heat reversible. 12 gram stick will do approximately 144 inserts.

OO3830 Bohning Ferr-L-Tite Stick (ea) A hot melt cement that is used for adhering steel points to wood shafts or setting inserts or points into aluminum or carbon arrows.

001323 AAE/Cavalier Epoxy

A two part epoxy for gluing nock and point inserts into aluminum and carbon shafts. It also is an excellent general purpose epoxy that retains a very flexible bond. The syringe is designed to dispense equal amounts of resin and hardener to maximize strength.

003836 Saunders Hot Melt Cement Bonds inserts to aluminum, wood or carbon shafts. Low melting point. Now comes in a 8" stick.

001319 30-06 Nuclear Vane Juice

The proprietary formula strips vane quills of all oils and impurities to help create an incredible bond between the vane and shaft. Apply directly to the quill with precisionpoint pen.

Quick bonding agent that works great on aluminum and carbon shafts. Bond to many substrates. 3200 psi strength. Works great on vanes or feathers. Max 15 second bond time. Water Resistant.

001318 30-06 Insert Weld

Black high-viscosity rubber toughened. Great for carbon and aluminum shafts. Shock resistant. .008" gap filler. 3700 psi strength. Military grade. Max 90 second bond time.

OO9025 Bohning String Shield Wax String Shield is a silicone based liquid wax that instantly penetrates the bowstring with no heat necessary. The sponge applicator is clean and easy, and the string Shield formula reduces string friction while enhancing tired string colors. The odorless and waterproof wax leaves a like-new feel to the bowstring.

009010 Bohning Tex-Tite Bow String Wax (ea.)

Designed for the new synthetic fiber bowstrings. Made light in color to blend with both light and dark string materials. Comes ready to apply.

009012 Bohning Seal-Tite Wax

A new silicone based wax formulated for treating the new high tensil strength bow string materials. Acts as both protectant and lubricant.

009022 Bohning Xcellerator Wax

A revolutionary wear reduction wax. An all natural based string wax and conditioner that greatly reduces string friction and abrasion typically found with cable slides, wheels and rollers. Lubricates & Rejuvenates your bowstring. Resists penetration by water to the critical string fibers. Scent free.

009008 30-06 String Snot Bow Wax 48ct Display

009004 30-06 String Snot Bow Wax

String Snot Bowstring Wax is engineered to improve performance. Lightweight and easy to apply. Reduces string flaring and feathering. 100% odorless and 100% waterproof. Non freezing, non-flammable. Weatherlock technology.

009006 30-06 Snot Lube Kit for Compounds

Includes 1 String Snot Bowstring Wax, 1 Bow Snot Parts Pen Oiler and 1 Arrow Snot Target Release Fluid. Features Weatherlock Technology and is Made In The USA.

003885 30-06 Bow Snot Oiler Pen 100% odorless oiler pen that is engineered to improved performance. Heat displacement technology and is nonflammable and non-toxic. Great for axles, arrow rest, cable slides, sight brackets, limb bolts and release parts.

OO9011 ML-6 String Wax Formulated to be used on 450 Premium strings.

009047 BCY X String Wax

The perfect wax for 452X and all other bowstrings. Super silicone formula that is scent free, water repellent and abrasion resistant. Protects fibers to reduce fuzz. Excellent string protection. Applicator included.

OO9016 Pro Release Black Lightning A new wax formulated for treating the new high tensil strength bow string materials. Acts as both protectant and lubricant.. GWS96

008999 Zebra High Performance String Wax

Increase the longevity and performance of your premium bowstring. A unique formula designed to condition your strings and cables to maximize the performance and life.

007035 Zebra Hybrid One Cam String 007036 Zebra Hybrid Two Cam String

007037 Zebra Hybrid Split Cable

Features Zebra's proprietary Anti-Stretch technology, along with patented "ZS" Twist, makes Zebra Hybrid the most durable bowstring on the market. Incredibly stable, anti-stretch technology. Made from a precision blend of Vectran and HMPE. ZS Twist minimizes peep rotation. Specify Size.

007055 Zebra Trophy One Cam Strings

007056 Zebra Trophy Split Cable

Zebra Trophy is built with the proprietary Trophy Process which leverages over 20 years of experience building and testing strings for the world's top bow manufacturers and professional archers. The Trophy Process is a proprietary pre-conditioning process that guarantees no serving separation and the shortest "shoot-in-" time of any premium bowstring.

Vapor IWIST Xtreme (VIX) strings and cables are the answer to inconsistency. After as few as three shots, your peep sight is done changing positions for good. VaporTrail makes this possible through their proprietary blend of synthetic materials and in-depth manufacturing processes. They also use a combination of the best serving materials on the market. Peep rotation, string creep and serving separation are no longer a factor...set it and forget it...guaranteed! Stock sizes strings and cables are Hunter Green/Brown and Mathews Archery sizes are Black/Brown.

Call for sizes.

STONE MOUNTAIN		
BOW STRINGS		
001517	Stone Mt Titanium One Cam String	
001516	Stone Mt Titanium Two Cam String	
001512	Stone Mt Titanium Split	

001521 Stone Mt Titanium Control Cable

The Titanium string/cables by Stone Mountain are pretwisted and pre-stretched under 800 lbs of tension. Combined with a unique serving process, this system offers the same non-stretch, zero peep rotation quality coupled with the following features. Each string and cable is equipped with Halo serving. This reduces friction wear for a longer lasting serving with a slip free quality. Also, each string and cable is pre-treated with a friction reduction conditioner. This provides additional friction reduction along with overall string protection. Standard color is Flo Green Speckled and Black.

Specify size when ordering.

OO1522 Stone Mt Tiger Dyneema Split Cable

OO1518 Stone Mt Tiger Dyneema One Cam Strings

001528 Stone Mt Tiger Dyneema Two Cam Strings

OO1529 Stone Mt Tiger Dyneema Standard Cable

Stone Mountain makes the best strings in America. All strings and cables are made out of a material called Dyneema. Dyneema has been around for years and goes by the names of D99, D75, and 8125 depending on the manufacturer. Dyneema only stretches about 1/4 of an inch and is one or two feet faster than FastFlight. Mathews uses it in their Zebra strings and cables are made in two color (Tiger) Black/Brown.

DACRON

007005 Dacron Bow String (Black)

Compound or Recurve-Recurve Strings measured in AMO length. Specify size.

000569 BCY Mercury 2 XB String

A larger version of the popular Mercury material, made from the highest Strength Dyneema®. Very low creep, for use in Crossbows and some compounds, as an alternate for Force 10. 1/4 lb spool. Black

000556 BCY 8125G String Material

92% SK75 Dyneema, 8% GORE fiber, Highest speed and higher durability, preferred by some compound shootersparticularly 3D. Also the choice of Olympic style recurve shooters. 1/4 lb spool. Black

000535 Dvna-Flvte 97 String 1/4#

Made of Dyneema's latest high modules polyethylene yarn. Dynaflight 97 is much stronger than past flight and has much lower creep.

000538 BCY B55 String Material Black 1/4 lb

000539 BCY B55 String Material Black 1lb

Developed specifically for the traditional archer and some crossbows. Similar to Dacron but even better. 100% polyester with better durability and very low stretch. 1/4 lb spool. Black

000549 BCY 452X String Material

67% SK75 Dyneema, 33% Vectran. Half the strand size of 450 Plus. Slightly higher arrow speed. More strand count flexibility and improved looking 2 color strings. No creep, completely stable. 1/4 lb spool. Color: Black

000525 AAE/Cavalier Pro String Server

Features anodized aluminum frame with unique double tensionbars and self-centering washer system.

000530 BCY Bear Paw Serving Tool

Features advanced German engineering with sturdy construction for long life and rugged use. Smooth, stainless steel guide rollers with excellent adjustable tension control. Slotted for easy string entry.

000528 Bohning Serve Tite

Rugged ABS frame with an extra large exit hole eyelet. Adjustable tension control. Accepts standard jig spools.

007203 Easton Pro Shop Pliers

A must for serious bow mechanics. Manufactured from the highest quality material for reliable, long-lasting performance. Nock set crimper and remover. D-Loop stretcher. Needle nose pliers, extra sharp side cutters and durable, comfortable grip.

007202 OMP Tru Crimp Pliers

TruCrimp Nocking Pliers precisely crimps and quickly removes brass nock points and c-clips. Works with all four nock sizes and c-clips.

007205 OMP T6 Archery Multi-Pliers

American hinge prevents plier from overextending and binding. Needle nose plier, D-Loop grooves, nock removal tool, nock-set and c-clip tool, wire-cutter, star key plier all built in one. Molded ergonomic grips.

003818 Saunders Forked Horn Square

The Saunders Forked Horn bow square comes with a 5/16" rod that will sit on arrow rest like an arrow. Its offset feature keeps square off of kisser.

003004 Saunders Nok Set Pliers

Spring holds steel jaws open until pressure is applied. Pliers close nok sets evenly without marring surface. Tip of pliers opens nok set for removal or loosens it for adjustment. Comfortable plastic coating on handle.

007204 CX String Loop/Nocking Pliers

Opens nock set without damage. Two hole sizes for nock set installation. Pre-stretches D-Loops. Permanently tightens D-loop string. Heavy duty comfortable extra large grip.

007201 Viper D-Loop Pliers Putting on a D-loop has never been easier. Pliers prestretches loop. Chrome finish and easy-grip handle.

PEEP TUBING —

002265 OMP 50' Peep Tubing

RADICAL ARCHERY DESIGNS, INC.

004480 RAD Super Deuce 38 Peep-1/8" **004481** RAD Super Deuce 38 Peep-3/16" **004482** RAD Super Deuce 38 Peep-1/4"

The Super-Deuce 38 features the popular angle mounted design. This anodized aluminum peep is served into the string at a 38-degree angle providing archer's with a true round aperture hole at full draw.

Black

004494 RAD Super Deuce 38 Peep- 3/16"

Specify color: Blue, Green Orange, Purple, Pink or Red

004496 RAD Super Deuce 38 Peep- 1/4"

Specify color: Orange, Pink or Red

004485 RAD Super Deuce 38 Peep w/Aligner-3/16"

The Super-Deuce 38 features the popular angle mounted design. This anodized aluminum peep is served into the string at a 38-degree angle providing archer's with a true round aperture hole at full draw.

004476 RAD P38 3/16" Peep **004477** RAD P38 1/4" Peep

P38 features many of the premium benefits found in RAD's Super-Deuce 38 - burr free string slots, aircraft grade aluminum, soft string contours, and elimination of sharp points. Cost saving are achieved by changing certain elements that reduce machine time while still maintaining RAD's, best in industry, string friendly design. The low glare finish is a painted epoxy (Black Only).

004483 RAD Tru-Aligner w/Tubing

Specifically designed for use with the popular angle mounted aluminum peep sights. When served together with the Super Deuce 45 it is simply the best self-aligning peep combination available.

*Not for use with 1/4" angle mounted aluminum peeps.

004487 RAD Maxim 38 Peep- 1/8" 004488 RAD Maxim 38 Peep- 3/16" 004489 RAD Maxim 38 Peep- 1/4"

The Maxim 38 is a self-aligning peep made specifically for shorter bows. The 38 degree angled aperture allows long draw archer's and those shooting bows as short as 30" axleto-axle a quality one piece self aligning peep. Features a protective hood and is made of a special hybrid/high impact polymer. The special hood design keeps rain and sunlight out of aperture area.

004491 RAD Maxim 38 Peep w/Micro Tube- 3/16" **004492** RAD Maxim 38 Peep w/Micro Tube- 1/4"

The Maxim 38 w/Micro Tube System is the same peep as the Maxim 38, but features a modified tubing post. This double tapered alignment post allows the use of a much smaller diameter tubing that increases speed and reduces noise over other tube alignment systems. Micro Tubing will not effect durability as the wall thickness stays the same as standard Premium Dipped Latex Tubing.

004493 RAD Dipped Latex Tubing Black- 3 ft

Simply put, Dipped Latex Tubing is the best choice for use in self-aligning peep sights. It resists tearing and abrasion much better than extruded tubing.

004499 RAD UVR Peep Tube 50' Black

Finally a peep sight tubing that looks and performs like extruded latex without the rot and cracking.

004503 RAD UVR Peep Tube 3' Black

Finally a peep sight tubing that looks and performs like extruded latex without the rot and cracking.

With the InSight Peep Apertures there is no need to switch out your peep when all you need to do is change your aperture size. Pick from one of 6 sizes to best Maximize your Accuracy.

000202 Hamsea InSight Standard Peep Kit

This InSight Peep Kit is the last kit you will ever need. With Hamskea's Light Baffle Technology in a 13 grain housing, you will eliminate all glare due to our aerospace anti-glare technology that produces a field of view with zero distortions. This housing is machined with both 37.5 and 45 degree string angles.

Kit includes: InSight Peep Housing, 6 apertures (1/32", 3/64", 1/16", 3/32", 1/8", 5/32"), aperture installation tool and protective case.

000308 TruPeep No Tie Alum Peep Sight- 1/4" **000309** TruPeep No Tie Alum Peep Sight- 3/16"

The Trophy Ridge No Tie Peep saves you time and hassle when installing a peep while increasing overall accuracy.

000190 Hamskea InSight Peep Housing

The InSight Peep Housing has a 3 ring design on the inside of the housing to eliminate glare. This housing is machined out of Magnesium with two strings angles to fit all bows (37° and 45°).

000198 Hamskea Aperture Install Tool **000199** Hamskea InSight Deluxe Peep Case

000114 Specialty Pro Series Hooded Peep Housing

The Pro Series Peep is sculpted to trim weight and boost bow performance. The hooded peep is 25% lighter on your string than the original Hooded Super Peep housing. The Peep opening is 3-16 and accepts all Specialty Archery 1/8" apertures, clarifiers that sharpen target faces, and verifiers that sharpen pins.

OOO115 Specialty 1/8" UltraLite Non Hooded Peep Housing 37 degree Black

000142 SA 1/8" Clarifier with #1 Lens 000151 SA 1/4" Clarifier with #1 Lens 000146 SA 1/8" Clarifier with #2 Lens

000152 SA 1/4" Clarifier with #2 Lens

OOO1O2 SA Super Ball Aperture Kit Aperture kit with 1/32, 3/64, 3/32, 1/16 and 1/8 apertures. The five apertures will interchange in all Specialty Archery Peeps without removing the peep from the string. You will need a reducer if you want the apertures to fit the 1/4" peep housings.

OOO1O3 SA 1/4" Hooded Peep Housing 37 degree. Black

OOO101 Specialty 1/4" Non Hooded Peep Housing 37 degree. Black

002066 TruGlo Storm 3P .019 Sight 002067 TruGlo Storm 5P .019 w/Light Sight

The ultra-lightweight Storm provides incredible performance at an attractive price. Features durable, bright fiber-wrapped pins, a large aperture and durable, CNC-machined aluminum construction, making it one of the best values in Truglo's lineup. Lightweight and compact. Adjustable for left and right hand shooters. Black

002088 TruGlo Carbon Hybrid 5 Sight

The Carbon Hybrid is the first and only archery sight constructed with the optimum combination of carbon composites and aluminum, providing an excellent strength-to-weight ration and unparalleled durability. .019 fibers and includes sight light. Reversible bracket for increased vertical adjustment range and works for both right and left hand shooters. Black

002091 TruGlo Micro Carbon Hybrid 5 Sight

The Carbon Hybrid is the first and only archery sight constructed with the optimum combination of carbon composites and aluminum, providing an excellent strength-to-weight ration and unparalleled durability. .019 fibers and includes sight light. Reversible bracket for increased vertical adjustment range and works for both right and left hand shooters. Micro-adjustable.

Specify color: Black or Realtree Xtra

002031 TruGlo Veros 5 Sight

The Veros Five-pin sight features a unique design where all fiber-optics are enclosed in a protective cover that provides maximum light exposure while protecting fibers. Additionally, when using the included LED light, the shielding blocks light from everything but the fibers. It has unique ProBrite pins designed for increased durability and brightness. The top three pins measure .019 inches in diameter, and the bottom two measure .010 inches. The Veros has micro-adjustable windage and elevation settings with strong proloaded joints, mid-bracket elevation adjustment. Black

002070 TruGlo Carbon XS Xtreme Sight

CARBON XS[™] Xtreme is the next generation carbon composite archery sight for any aspiring bowhunter. We added more shooter-suggested features than ever before, including a longer mounting bracket, extended windage and elevation adjustments, larger aperture and PR0-BRITE™ Pin Technology for even brighter pins. Sight light included. Adjustable for left and right-handed shooters.

Specify color: Black or Realtree Xtra

002054 TruGlo AC RangeRover M4 Sight

Combines the reliable adjustability of the latest RANGE•ROVER™ sight models with TruGlo's most popular multi-pin sight• Can be locked in place and used as a multi-pin sight or dialed-in to any distance• The pre-printed yardage tapes can be calibrated using either the top pin or the bottom pin andwith any bow and arrow combination. Right Hand

002092 TruGlo AC RangeRover Pro Wheel Sight

Hone your long distance accuracy with PWR DDT's illuminated Center Dot technology. Innovative scope housing has a circle with lighted center dot for superior long distance accuracy. Adjustable green, LED with 11 brightness settings with included CR2032 battery. Micro-adjust windage. Quiver mount included. Can be used RH or LH.

002056 TruGlo RangeRover Pro 2-Dot Sight

Features: Zero-In[™] adjustment dial with over 80 pre-marked yardage tapes (included) for simple setup. Black refernce circle with lighted center dot for superior long distance accuracy. Micor-Adjustable Windage-Precision Click Design. Toolless yardage and windage lock. Sight housing accepts 1.87" scope lens (sold separately). Adjustable end-of-travel stop customizes maximum yardage setting. Laser marks for windage and elevation adjustments. Adjustable for left and right-handed shooters. Adjustable quiver mount and lens cover included.

002055 TruGlo AC RangeRover Wheel Sight

Innovative ZERO-IN Adjustment Dial provides ultra-smooth, remarkably precise Micro-Adjust elevation tuning, giving hunters an extra edge in difficult conditions. Tool-less yardage lock, clean, circular sight picture with all-metal pin. Includes over 40 pre-marked yardage tapes to simplify setup. Quiver can be mounted directly to bracket. Adjustable for left and right hand shooters. Patent pending.

002043 TruGlo AC RangeRover .019 Sight

Features Tool-less yardage lock. Clean, circular sight picture with all-metal 0.019" pin. Ultra-smooth bracket for easy one-hand adjustment. Aperture has a 1.8" inner diameter with glo-in-the-dark shooter's ring to help align peep sight. Adjustable for left and right handed shooters.

002438 Apex Magnitude 5P Sight

PRO•BRITE™ pin design increases brightness without crowding the sight picture • Micro-adjustable windage and elevation • Anti-reflective texture inside aperture and sunshade reduces glare • Adjustable 2nd and 3rd axis level • Aperture has 2 in. inside diameter • Shooter's ring design for improved peep alignment • Precision machined aluminum construction • Overbuilt aperture and mounting bracket for maximum strength and durability • REVOLVE™ rotary sight light included • Stainless steel hardware • Removable machined aluminum sunshade included • Right-hand • Quiver mounting adapter included.

002443 Apex Covert 2Dot Power Dot Sight

Features: Ultra–smooth easy one–hand adjustments; Includes over 120 pre–marked yardage tapes to simplify setup; GRAVITY–LINE™ rotational adjustment aligns pin movement with gravity; Rear–facing, easy–to–see yardage tape location; Tactile push–button brightness control; Perfect for any light condition; Adjustable 2nd and 3rd axis; Quick and easy setup; Improved adjustable yardage pointer and end–of–travel elevation stop; Adjustable for left and right-handed users; Approximately 700–hour battery life; Automatically turns off after 4 hours without adjustment; 2 adjustable green and red LED.

002436 Apex Covert Pro w/Power Dot Sight

The COVERT[™] PRO features PWR•DOT[™] ILLUMINATED CENTER•DOT TECHNOLOGY. This technology gives you an adjustable green LED center dot with 11 brightness settings providing you superior long–distance accuracy. The aperture housing also allows for easy vertical and horizontal tilt adjustments for more fine–tuning options. Ultra-smooth easy one–hand adjustments. Includes over 60 pre–marked yardage tapes to simplify setup. Adjustable 2nd and 3rd axis illuminated level. Adjustable yardage pointer and 700 Hour battery life. Adjustable for left and right handed users. 700 Hour battery life.

002437 Apex Covert 4 w/Light

The Covert 4 is equipped with a roving bracket, helping make it the ultimate multi-pin hunting sight. Locked, the Covert 4 works like a traditional fixed pin sight. Unlocked, it can be dialed in for deadly accuracy. Ultra smooth easy one-handed adjustments. Adjustable 2nd and 3rd axis illuminated level. Can be used RH or LH.

002425 Apex Tundra 3 Sight

Ultra-light compact design. Weighs just 3.6 ounces. Innovative pin design improves sight picture and protects fibers. Aperture has 1.8" inner diameter. Includes level. Glow-in-the-dark shooters ring. The Hogg-It features the 5 Pin MRT Pin Guard, .019 fibers and a lighter, longer sight bar. This feature packed sight incorporates all Spot-Hogg has to offer in the most complete, micro-adjustable fixed pin sight on the market. Quick Release Hogg Knob, No Clamp Gang Micro-Adjust, 6.5" Dovetail Bow Mount and Micro Adjustable 2nd & 3rd Axis. Solid 6061 Aluminum Construction. Right Hand

003643 Spot Hoga Hunter MRT Sight

If you like the adjustability of the Hogg-It but prefer to have your hunting sight hard mounted to your bow, then this is the sight for you. Features 5- .019" fibers and MRT Pin Guard. No Clamp Gang Micro-Adjust, Micro Adjustable 2nd & 3rd Axis, Solid 6061 Aluminum Construction. Rugged Hard Mount

Right hand

003644 Spot Hogg Grinder MRT Micro Siaht

The Grinder was built with the hard working, hard hunting, hill busting hunter in mind. Solid built from the ground up, this sight was designed as a set it and forget, no frills, hunting sight. Features 5-.019" pins and MRT Pin Guard. Gang Micro Adjustments. Lightest fixed pin sight in our line-up. Solid 6061. Aluminum Construction. Right Hand.

003645 Spot Hogg Grinder MRT Sight The Grinder was built with the hard working, hard hunting, hill busting hunter in mind. Solid built from the ground up, this sight was designed as a set it and forget, no frills, hunting sight. Features 5-.019" pins and MRT Pin Guard. Simple, Durable Gang Adjustments. Lightest fixed pin sight in our line-up. Solid 6061. Aluminum Construction. Right Hand.

005604 Trophy Ridge Digital React 1 Pin Sight

The Digital React One Pin features a vertical React[®] floating .019 diamter pin. Digital React utilizes Trophy Ridge's patented React[®] Technology which mathematically adjusts your pins and yardage indicators to be spot on at any distance. Features customizable screen colors, brightness, distance increments, and up to 5 profiles that can be saved for unique arrow setups. Improve your accuracy at severe angles over longer distances with third-axis leveling.

Includes: Digital React One Pin sight, 6-foot USB charging cord and plug, optional backup sight tapes and yardage indicators, quick-start guide, and detailed manual for customizing your set up.

Right Hand

005638 TR React One Pro- .010 **005637** TR React One Pro- .019

The React One Pro will change your idea of what a single pin adjustable sight can do. Faster and more precise than other adjustable sights, the React One Pro will deliver year after year, hunt after hunt. React Technology accurately predicts what each pin gap will be based on the distance between your 20 yard pin and any other yardage. React Technology effective from 330-265 fps. Fiber optic yardage indicators. .010" or .010" fiber optics, 2nd and 3rd axis adjustment. 100% aluminum construction. Tool-less micro-click windage and elevation adjustments. Stainless steel hardware. Sight light included. Right Hand Only.

005622 TR React V5 Sight

React Technology accurately predicts what each pin gap will be based on the distance between your 20 yard pin and any other yardage. The strength of aluminum but 25% lighter. The soft touch Ballistix coating delivers added vibration reduction. React Technology effective from 330-250 fps. Vertical in-line pin technology. 2nd axis adjustment. Toolless windage and elevation adjustments. Sight light included. Right Hand Only

005605 Trophy Ridge Digital React Trio Pro Sight

The Digital React Trio Pro features two horizontal fixed .019 pins and a vertical React® .010 pin. Digital React utilizes Trophy Ridge's patented React® Technology which mathematically adjusts your pins and yardage indicators to be spot on at any distance. Digital React utilizes Trophy Ridge's patented React® Technology which mathematically adjusts your pins and yardage indicators to be spot on at any distance. Features customizable screen colors, brightness, distance increments, and up to 5 profiles that can be saved for unique arrow setups. Improve your accuracy at severe angles over longer distances with third-axis leveling.

Includes: Digital React Trio Pro sight, 6-foot USB charging cord and plug, optional backup sight tapes and yardage indicators, quick-start guide, and detailed manual for customizing your set up. Right Hand

005633 TR React Pro 5 .010 Sight 005634 TR React Pro 5 .019 Sight

Combining React Technology with all of the features of a top of the line target sight, the React Pro will change your idea of what a fixed pin sight should do. 2nd and 3rd axis leveling and micro-click windage and elevation adjustment. Rheostat sight light included. Right Hand Only.

005619 TR React H4 Sight

Features: Four .019" horizontal-pin sight perfect for shooting 195 to 330 feet per second. After only 2 pin adjustments, React Technology automatically sights in the remaining pins for dead-certain accuracy. Make easy, exact corrections with advanced tool-less windage and elevation adjustments. Improves accuracy over longer distances with second-axis leveling. Adjust brightness to suit any shooting condition with the rheostat light. Right Hand

005603 TR React Alpha 1 Sight

With an inverted V-shaped .019" single-pin, the React Alpha 1 sight allows you to see your target like never before. It's unique, angular pin shape naturally draws the eye the target while maintaining an unobstructed view. After only 2 yardage adjustments, React Technology automatically sights in the remaining indicators for dead-certain accuracy and improves accuracy at severe angles over longer distances with third-axis leveling. Perfect for bows shooting 265 to 330 feet per second. Right Hand

005623 TR React Pro 7 Sight

The React Pro 7 allows you to sight in all 7 pins quicker and with more precision than any other sight on the market. If you are looking to extend your effective range, look no further. React Technology effective from 330-270 fps. 100% aluminum construction. 2nd and 3rd axis adjustability. Toolless micro-click windage and elevation adjustments. Glowring superior in low-light. Impact-armored ultra-bright.010" fiber optics. Stainless steel hardware. Sight light included. Right Hand Only

005607 TR React H5 Sight

This innovative sight utilizes mathematical precision to quickly and accurately sight-in for unparalleled performance when it matters most. React Technology accurately predicts what each pin gap will be based on the distance between your 20 yard pin and any other yardage. Includes: Trophy Ridge React® H5 sight, mounting hardware, pre-charged rheostat light battery. Right Hand

005601 Trophy Ridge Alpha Slide Sight

A-shaped .019" single pin sight allows you to see your target like never before; Unique, angular pin shape naturally draws your eye to the target while maintaining an unobstructed view; Extended slider to maximize your shooting range starting at 20 yards; Delrin bushing create smooth, quiet movement with no metal-to-metal contact; Quiver mounting hardware for a difficult bow setup. Right Hand

005600 Trophy Ridge Hotwire Sight

On-board adjustment tool for the two fixed pins; Easily adjust the third pin with an adjustable tool-less knob; Strengthen accuracy at severe angles over long distances with second axis leveling; .019 fiber optic pins are powered by a rheostat light to suit any dawn or dusk condition; On-board pin adjustment tool for windage and elevation adjustments. Right Hand

005611 TR Pursuit Sight

The Pursuit delivers smooth, silent adjustments and limitless pin settings. 100% aluminum construction with low-light glo indicator tape. Sight level with third axis adjustability. 14" of .019 fiber optics. Includes rheostat sight light. Can be used right or left hand.

007542 Trophy Ridge Cyper 5P Sight

The Cyper Series sights are formed from Trophy Ridges' newest technology, the Ballistix CoPolymer System, making them lighter and quieter without compromising strength. The Cyper also sports the Soft Touch Ballistix Coating which delivers added vibration reduction. .019 ultra bright pins, sight level and rheostat sight light included. Tool-less windage and elevation. Designed for use with left or right hand bows. Black Only

005608 TR FIX 3P Sight 005609 TR FIX 5P Sight 005610 TR FIX 7P Sight

TAKE PRECISION TO THE NEXT LEVEL with Fix Series sights. Each pin is micro-adjusted to consistently provide unparalleled accuracy at all ranges. Fix perfectly balances this precision with superior durability and strength utilizing aluminum brackets. Ultimate visibility with ultra-bright. 019 horizontal fiber optic pins and includes rheostat sight light. Choose from Fix 7, Fix 5, or Fix 3 pin sights. Right Hand

007556 TR Volt Sight

The Volt features a Ballistic Copolymer sight hood that gives you the protection you demand, while the extra length of fiber creates the brightest pins available. Soft touch ballistix coating delivers added vibration reduction. Aluminum bracketry, .019 fiber optic pins with fiber wrapped pin guard. Can be used RH or LH

007552 TR Mist Sight

The Mist's lightweight design with precise components, supplies 3 incredibly bright pins for when it counts the most. .019 fiber optic pins, sight level and reversible sight mount design for use with left or right hand bows.

007553 TR Joker 3 Sight 007555 TR Joker 4 Sight w/Light

The Joker sight delivers superb accuracy on a reliable frame, at an incredible price. Aluminum bracketry, .019 fiber optic pins, sight level and green hood accent for easy sight acquisition. Can be used right or left hand.

007546 TR Click Light

Compatible with all Trophy Ridge sights and any sight with a 3/8" - 3/32" threaded fixture, the powerful blue LED light illuminates your sight pins in dawn and dusk situations. The click light includes three long-lasting batteries assembled, and three additional batteries for future use. No tools are required to install the light on your sight.

006334 Black Gold Ascent Verdict Assault 3P Sight **006335** Black Gold Ascent Verdict Assault 5P Sight

All Verdict models now feature 3rd axis adjustability and X-Frame base and Level Head sight ring. The Indicator needle is indexable for easy re-sighting should your set up change. Splined vertical drive gear increases durability by 80% and provides a quieter, more solid feel! High performance PhotoChromatic shell – 80% tougher, changes color faster. The Ascent Verdict offers more range and adjustability than traditional hunting movable sights. Angled (45°) sight tape can be seen from side or back and includes 54 sight tapes. Precision 1st, 2nd and 3rd axis adjustability. Works great with one-piece quivers (unlike most movable sights). Right Hand

006344 Black Gold Pro Dual Track .019 Sight

Built on the industry-leading Pro Sight platform, the Dual Trac raises the bar in target visibility while still providing dual aiming points. This bulletproof sight incorporates Black Gold's Pro Pin, providing a more defined aiming point and less target obstruction, now in an up pin option. It also features a 2nd independently adjustable Pro Pin in line with the first.

006328 Black Gold Ascent Whiteail 1 Sight

006329 Black Gold Ascent Whiteail 3 Sight

All the great features of the industry leading Ascent Verdict but in a compact lightweight version. The Ascent Whitetail is offered in a single vertical pin or the ultimate 3-pin head. Right Hand. Black.

OO6315 Black Gold Ascent Sight Tape Includes: 54 Tapes, 20-100 Yards

006343 Black Gold Mountain Lite 3P Sight

The Mountain Lite has all the great features of the Ascent Verdict but in a compact lightweight version. This 3 Pin sight also features Black Gold's individual adjustable Dual Indicator System. 54 sight tapes included; Precision 1st, 2nd and 3rd Axis adjustability; Works great with one-piece quivers. Right Hand

006312 Black Gold Blind Man's Light Kit

Features three light levels, low, medium and high which are operated by simply twisting the head of the light. Operates over 30 hours on two hearing aid batteries (included). Adapter kit for all FlashPoints and 4 pin Easy Glider. (FPSL)

006326 Black Gold Ascent Verdict .019 1P Sight **006327** Black Gold Ascent Verdict .019 3P Sight

The VERDICT is in! You'll get Black Gold's legendary durability and super-smooth adjustability with a turn of the Dial-of-Death knob.

006341 Black Gold FP Rush 3P Sight 006340 Black Gold FP Rush 5P Sight 006339 Black Gold FP Rush 2" 5P Sight ∠

Innovation and durability. Features Black Gold's Photochromatic Technology and SkyCoil and an interchangeable fluorescent sight ring. Horizontal and vertical calibrated gang. .019 sight pins. Black

006342 Black Gold Pro Hunter HD 5 Sight

With the Pro Hunter HD, you get all the features of the Ascent Verdict, but with the Pro Pin. The addition of the Pro Pin provides a narrower pin throat that ends in a round pinhead. Micro-adjust 1st and 3rd axes; 2nd axis adjustability. Right Hand

006332 Black Gold Widow Maker 5

The Widow Maker gives you Inch Wheel micro horizontal and vertical gang adjustment. High Performance PhotoChromatic shell and large 2nd axis adjustable level. Machined aluminum 2" guard for maximum protection and durability. Right Hand, Black

003692 30-06 5P Eco 5 Pin .019 Sight Lightweight sight that includes 5 .019 fiber optic pins and includes sight level and sight light. Can be used right or left hand.

004144 HHA UltraX 5010 Sight **004143** HHA UltraX 5019 Sight

Product Features: Infinite Adjust Slotted Side Bracket; Water resistant yardage tapes; 20-80 yard accuracy with a quick turn of the wheel; Leveling bubble; Machined aluminum pin carrier; Mechanical Rheostat to adjust pin brightness; Lens Kit Compatible; Blue Burst Light Compatible. 1-5/8" Scope

004173 HHA UltraX 5510 Sight 004172 HHA UltraX 5519 Sight

Product Features: Infinite Adjust Slotted Side Bracket; Water resistant yardage tapes; 20-80 yard accuracy with a quick turn of the wheel; Leveling bubble; Machined aluminum pin carrier; Mechanical Rheostat to adjust pin brightness; Lens Kit Compatible; Blue Burst Light Compatible. 1-5/8" Scope with mechanical rheostat.

004146 HHA UltraX XL5510 Sight **004145** HHA UltraX XL5519 Sight

Product Features: Infinite Adjust Slotted Side Bracket; Water resistant yardage tapes; 20-80 yard accuracy with a quick turn of the wheel; Leveling bubble; Machined aluminum pin carrier; Mechanical Rheostat to adjust pin brightness; Lens Kit Compatible; Blue Burst Light Compatible. 1-3/4" Scope with mechanical rheostat.

004150 HHA 0LX-5000 Sight 004147 HHA 0LX-5019 Sight 004166 HHA 0LX-5000 Sight

006876 Rocky Mountain 5P Sight

Direct mount sight made with all aluminum construction. 5 fully Captured .019" Pins with tool free, micro adjust windage and elevation adjustments along with 2nd and 3rd axis adjustability. Laser etched windage and elevation markers and built-in light adaptor. Right Hand

006878 Rocky Mountain Driver 1P Sight 006879 Rocky Mountain Driver 3P Sight

Features: All aluminum construction. Fully captured .019' pins with tool free, micro adjust windage and elevation adjustments. Radial Arc elevation adjustment keeps bezel square to eye and adjustable reset block for quick return. 2nd and 3rd axis adjustability and laser etched windage and elevation markers and built-in light adaptor. Right Hand

High Intensity light with twist on/off switch. 10mm x 1.0 mm threads. Batteries included.

006595 Hamskea Easy Third Axis Level

The HAMSKEA Archery Solutions Easy Third Axis Level™ enables all archers to adjust their target and hunting sight for 1st, 2nd and 3rd axis to achieve the maximum accuracy for any shot angle and distance. It has a hard anodized finish and comes with a carrying drawstring pouch.

006842 IQ Sight w/Retina Lock 5P

Most bowhunters are confident at shorter ranges, but, get out to 40 yards and beyond and they lack consistency. This is because of misalignment due to bow torque or inconsistent anchor. IQ revolutionary Retina Lock Alignment Technology puts you in perfect alignment for every shot. This sophisticated technology provides instant feedback that will identify even the slightest torque or anchor point change. Using this sight will force proper form, build confidence and, most important. extend your effective range by 20 yards+ guaranteed!

Specify: Right or Left Hand

006840 Field Logic IQ Sight Light

006844 IQ Pro Hunter 3P Sight

Designed with versatility in mind the IQ Pro Hunter features two fixed pins for shots at shorter distances and a third "floater" pin that can be dialed to specific yardages for precision aiming. IQ's patented and exclusive Retina Lock™ alignment technology and rapid-drive pin adjustment system mark the sights stand out features while a single pin rapid adjustment system runs the full range of the floating pin with just a few simple turns of the zero-stop adjustment knob. Constructed of 6061 aluminum, the lightweight Pro Hunter delivers durability without excess weight, while .019 fully enclosed and pro-tected fiber optic pins. Archers seeking accuracy-adding features like 2nd and 3rd axis adjustment, a precision bubble level, laser etched windage and elevation marks and tool-less micro adjustable windage and elevation knobs will appreciate the Pro Hunter's finer details along with multiple bow and quiver mounting holes and a built in light adapter. Right Hand Only

006279 Bee Stinger 6" Micro Hex Stabilizer 006280 Bee Stinger 8" Micro Hex Stabilizer

The Micro Hex is a wind-slicing micro-diameter stabilizer with Bee Stinger exclusive Countervail® technology. Countervail® proprietary material is built right into the carbon bar – it may seem insignificant, but the data proves otherwise. Quicker damping and reduced recoil offer a smoother feel and quieter shot – without adding weight or sacrificing stiffness. Stabilization you'll appreciate when it's time to send it. Includes 3 independent 1 oz. powder coated end weights and fits all Bee Stinger hardware mounts. Black

006270 BStinger 6" Sport Hunter Xtreme 006271 BStinger 8" Sport Hunter Xtreme

The Sport Hunter Xtreme was engineered to help provide superior stabilization while conquering shot-induced vibration, resulting in the ultimate hunting stabilizer. The Sims Internal Harmonic Dampener and De-Resonator combine to effectively minimize vibration transferred from the riser to the stabilizer upon release of the arrow. The individual 1 oz. end-weights allow users to customize their stabilizer to meet the ideal balance requirements of their particular hunting bow. Together, it equals added confidence to make YOUR shot of a lifetime. Black

006272 BStinger 8" Pro Hunter Maxx

The Pro Hunter MAXX is engineered to keep you steady under pressure while reducing vibration. Its patented design delivers maximum moment of inertia, providing greater shot control and the confidence you need to drive your arrow home. The Pro Hunter MAXX is based around a high modulus carbon rod providing ultra-stiff construction. The Pro Hunter MAXX features three independently removable end weights for customized balance and performance. Sims Internal Harmonic Dampener and De-resonator perform double-duty on shot-induced vibration, assuring ultimate control before, during and after the shot. Black

006281 Bee Stinger 10" Micro Hex Counterslide

006282 Bee Stinger 12" Micro Hex Counterslide Achieving perfect balance and offsetting the weight of your sight, guiver

and other accessories has never been more accurate, adaptable, or simple The Bee Stinger™ Microhex™ Counter Slide offers limitless configurations

for you to customize the optimal balance for you - whether you're hunting

or target shooting. Includes 5 individual 1 oz. weights and sliding bracket.

006277 BStinger 10" SH Counter Slide 006278 BStinger 12" SH Counter Slide

The Bee Stinger Counter Slide offers limitless configurations for you to customize the optimal balance and to offset the weight of your sight, quiver and other accessories. Features 5 individual weights and sliding bracket . Available in 10" or 12" lengths. Matte Black

006290 BStinger Stabilizer Quick Disconnect

Matte Black

Features a two stage dowel that locks firmly in place. Maintains rigid mount of your B-Stinger Stabilizer. 1-7/8" diameter.

006293 BStinger Elite Adj V-Bar

The V-bar block mount features integrated Quick Disconnects for the front stabilizer and rear V-bars. Strong, simple, less weight and easily disassembled for transport.

006291 BStinger 1 oz Weight- 3/Pk Specify: Black or Stainless

Car Con

006294 BStinger Side Bar Infinity Mount

No Locking Teeth for infinite adjustment, side bar quick disconnect and dual angle adjustments.

006292 BStinger Elite Side Bar Mount

Features an integrated Quick Disconnect for both the front and rear bars. Also with an up and down adjustment along with the side to side adjustment the Elite model gives you the ultimate in positioning.

006288 BStinger Adjustable Side Bar

A one-sided bracket that allows the archer to use any length V-Bar with any amount of weight. Internal teeth are machined into both sides of the Strong Arm for microadjustments in or out.

006295 BStinger Adj Side Mount

Offers two axis of adjustment in a compact, lightweight design. Without front quick disconnect.

005567 Limbsaver LS Hunter Lite Stabilizer

The LS Hunter Lite is the lightest stabilizer Limbsaver has ever created. It features a vibration-dampening particles to help cut out hand shock, vibration and noise. This 7' ultra-light stabilizer weighs only 3.5 oz. Carbon Black

005566 Limbsaver LS Hunter Micro Stabilizer

Though compact at only 8 inches long, the LS Hunter Micro gives you the same benefits as longer pro stabilizers. 5.6 ounces of added weight on the end of the stabilizer gives you a steady shot. The FW1 Stabilizer Enhancer effectively dampens unwanted vibration and helps your bow settle faster. You can add as many additional weights as you want to the end of the enhancer using the built-in 5/16" thread mount. Black

005614 Trophy Ridge Shockstop Stabilizer

The Shock Stop Stabilizer is designed to eliminate shock and vibration from your bow. The stabilizer is 8" in length and features a high-modulus carbon fiber bar, along with innovative dampening technology. The Shock Stop stabilizer includes two removable 1oz weights with the option to add a third weight and comes with a wrist strap and mounting bar.

005562 Limbsaver S-Coil Pro Stabilizer

The S-Coil Pro is an enhanced and redesigned version of our popular classic S-Coil. It's the most effective 4.5" stabilizer Limbsaver has e ever created. It utilizes a series of Broadband Nodes to effectively reduce a wide range of vibration frequencies, hand shock, and unwanted noise. The short 4.5" length is perfect for hunters who want minimal interference while shooting in tight spaces such as tree stands, brushy areas, or ground blinds. Weight: Approx 4.8 oz

Specify: Black or Camo

005568 Limbsaver S-Coil Stabilizer

The unique continuous spiral design of the S-Coil Stabilizer independently isolates and dampens vibration at an increased rate. The performance characteristics support a smoother feel, reduce bow jump, and provide a quiet shooting experience. 4.5" in length and weighs 4 73 07

Specify Color: Black or Camo.

005569 Sims Mini S-Coil Stabilizer

This remarkable stabilizer performs comparably to its big brother the S-Coil. One inch shorter (3-1/2") and weighs just 4 ounces

Black or Camo

005561 Limb Saver Spartan Stabilizer

The Spartan is 4.25" long, weighs 4oz and enhances performance through vibration dampening, eliminating hand shock, and guaranteeing a smoother-feeling shot. Specify: Black or Camo

005612 Trophy Ridge Hitman 6" Black **005613** Trophy Ridge Hitman 8" Black

The Hitman stabilizer improves balance and reduces noise and vibration. Features a quick connect system for fast removal of the stabilizer for convenient transport and storage. Total weight is 6.5 ounces and comes pre-assembled with two removable 1 oz. weights. Includes wrist strap, mounting bar, and colored rings for bow personalization.

005618 Trophy Ridge Hitman Side Mount Bracket

Easily adjustable for all horizontal and vertical directions; Quick connect system allows for quick attachment and removal of stabilizers; Mounting bracket enhances both forward and side stabilizers positioning; Convenient for storage and transportation of stabilizer.

OO2420 Apex Endgame Stabilizer Improves bow balance for better accuracy.

Lightweight carbon-fiber tube moves the center of gravity forward. Adjustable weight system (6, 7, or 8oz. total weight) tunes your bow. It is engineered for performance hunting bows. Dampening rings between weights absorb noise and vibration. Seven different colored dampening rings included for a custom look. Black

002426 Apex AccuStrike Pro Stabilizer

Features innovative CROSS•FOIL[™] dampening fin design and consists of an advanced blend of rubber and composite material. Rubber isolated stainless-steel weighting system. TRU•TOUCH[™] soft-feel technical coating (Camo models only). Length: 6 in. Black

002427 Apex End Game 6" Stabilizer

Lightweight carbon–fiber tube moves the center of gravity forward. Adjustable weight system (6, 7, or 8oz. total weight) tunes your bow. Dampening rings between weights absorb noise and vibration. Seven different colored dampening rings included for a custom look.

OO2421 Apex Tailwing String Stop Mounted String-Stop Stabilizer

Specify color: Black or Pink

The 7" Edge Hunter stabilizer have been completely redesigned and expanded upon bringing affordability and function to an all new level. Machined from 6061 aluminum, the super stiff and extremely light weight design combined with patented technologies is sure to give you the Edge over your competition. Black

COG395 Stockerized M-1 Micro Carbon Stabilizer The M1 HUNTER is designed to be the ultimate in small diameter highperformance hunting stabilizers, boasting a slim .563 OD and manufactured from the stiffest high modular carbon eliminating vibration and completely canceling dynamic shot movement. Proudly made in the USA. Black

002098 TruGlo EZ-Rest

The EZ•REST[™] is the "all thrills, no frills" solution for archers looking to hold the arrow at any angle after simple installation and tuning. Full–containment brushes hold arrow at any angle. Dual–coil launcher is adjustable / replaceable. .325 in. center hole holds all popular hunting arrow sizes and styles. Easy tuning adjustments. Universal design for left and right–handed shooters.

002095 TruGlo Carbon Hybrid Rest

High-strength torsion spring increases launcher arm performance • Stainless steel launcher arm • No bounce-back when firing • Great for target shooting, 3D, and hunting-Machined aluminum mounting bracket with full windage and elevation adjustment • Fits left and right-handed bows

002099 TruGlo HyperStrike Rest

Quiet, full-arrow containment • Adjustable, wear-resistant launcher insert (spare included) • Attaches to downwardtraveling buss cable • Independent windage and elevation adjustments • Cable clamp simplifies set-up. Right Hand

000776 Vapor Trail Limb Driver Pro

Time Tested, proven perfection. The original Limb Driver Pro continues to be a popular addition to the bowhunter or target shooter's setup. Featuring a spring-steel Hunter style launcher blade, free-floating head, and adjustable spring-tension, the Limb Driver Pro is able to absorb initial arrow shock resulting in truer arrow flight with incredible accuracy. The Limb Driver Pro is operable from the top OR bottom limb, increasing options for your personal setup preference. Package also includes mounting hardware, activation cord, arrow holder, limb pad and shelf pad.

000775 Vapor Trail Limb Driver Pro V

The Pro-V revolutionized the archery industry by becoming the first ever limb driven rest with a full-capture option, an adjustable spring tension, and free-floating launcher arm. By supporting the arrow for 70% of the shot cycle, the Pro-V allows the arrow to reach the speed needed to stabilize itself before being pulled away, adding an obvious increase in accuracy and performance, especially downrange. During this support, the freefloating launcher arm and adjustable spring-tension pair up allowing the archer to fine-tune the performance even further to their liking. Package also includes mounting hardware, activation cord, arrow holder, limb pad and cage moleskin. All Black

SURGE™ Arrow Rest clicks up to support your arrow with no vertical movement on the draw and stays up when you let down gently. When you fire a shot, the launcher stays up for a precisely-timed moment—supporting the arrow during initial movement. Right Hand

000772 Vapor Trail Pro-VX Rest

The Pro-VX offers the same bulletproof design that archers have loved for years with the Pro-V. With the Pro-VX, you get added micro-adjustability for both windage and elevation, a built-in bubble level for easy setup, and a carbon fiber rubber-overmolded cage - a cage first made popular with the Gen 7 and Gen 7x models. Standard mounting bracket. Black. Right Hand

000773 Vapor Trail Gen 7 Rest

The Gen 7 was built off of the original limb-driven system, with a redesigned bushing system for smoother operation. Its containment system is a carbon fiber substrate with a rubber overmold. The rubber overmold is passthrough - it is included in the core of the containment system and dampens sound/vibration on your bow. The side-loading gate in the cage will accommodate nearly all sizes of arrows. Standard mounting bracket. Black. Right Hand

Included hardware: Arrow Rest, Limb Pad, SHAG Pad, Riser Bolt, Activation Cord.

000774 Vapor Trail Gen 7X Rest

Full Capture Rubber Overmolded Carbon Cage; Micro-Adjustable Windage and Elevation; Top or Bottom Limb Activation; Bubble Level for quick and precise installation; Standard mounting bracket. Black. Right Hand

Includes: Shag Pad, Limb Pad, Activation Cord, and Mounting Bolt

000777 VaporTrail Shag Pad

(Shelf-Hushing Arrow-Grabbing) pad is a small accessory that both silences any type of arrow contact on your shelf AND cradles the arrow until your bow is drawn or your rest is activated.

Specify Color: Black, Blue, Flo Green, Orange, Flo Pink, Purple, Red or Yellow

007686 Hamskea Epsilon Rest

Features: C.O.R.™ Mount Technology that positions the arrow at center shot by design; The rest is in-line behind the riser eliminating guiver interference; Detent micro-tune for additional windage and vertical adjustments: Uber secure & precise picatinny clamping system; Configurable for top limb, bottom limb or cable driven activation; Eliminates lateral shaft movement with Zero Tolerance Technology (ZTT): Three stainless steel ball bearings for maximum platform stability; Noise eliminating elastomeric Rebound Dampener (Patent Pending); Cord Clamp Tensioner; Launcher torsion spring and launcher angle adjustment; Delta V Arrow Guide and Riser Mounted Arrow Guide included.

Specify: Right or Left Hand

007687 Hamskea Premier Rest

Features: 2 Sealed-Stainless Ball Bearings; Quiet Overmolded Containment Bracket; CNC Machined Components; Made in America; Top or Bottom Limb Activation; Cord Clamp; Patent Pending Rebound Dampener; Multiple Sets of Windage and Elevation Gang Adjustments; Available in black only Specify: Right or Left Hand

007690 Hamskea Hybrid Hunter Pro Rest

The Hybrid Hunter Pro[™] takes design elements from the proven VersaRest™ platform and puts them in a more streamline package that is 20% lighter. The Zero Tolerance Technology[™] is key to ensure that there is no lateral play in the shaft and that the rotation action is silky smooth. The launcher shaft rides on two over-sized sealed stainless steel ball bearings that won't wear out, but continue to rotate smoothly shot after shot. The Hybrid Hunter Pro™ also adopts adjustment features like Zero Stop Technology™ for the up and down positions of the launcher which makes for an absolute repeatable launcher position ensuring accuracy No longer do bowhunters have to compromise their accuracy for huntability

Specify Right or Left Hand

007688 Hamskea Trinity Target Rest

This rest is built for the target archer who likes lots of adjustability and a rest that can stand up to the rigors of competition and practice. Takes design elements from the proven VersaRest™ platform in a more streamline package that is 25% lighter; Full microtune windage and vertical adjustments; G-Flex blade is designed for consistency and reliability; Delta V arrow holder keeps your arrow in place during the draw cycle: Zero Tolerance Technology™ ensures there is no lateral play in the shaft and rotation is silky smooth; Zero Stop Technology[™] ensures repeatable up and down launcher positions; Tri-bearing technology provides ultimate support and smooth activation; Spring knob provides multiple internal torsion spring adjustment positions; 8 sided, non-slip compression clamp design with in-line dampening coil eliminates launcher bounce-back; Universal non-slip limb pad, heavy duty no-stretch cord and easy adjustment cord clamp; Universal Limb Clamp assembly can be configured multiple ways: top or bottom limb actuated, cable actuated, cable fall away or fixed blade

Specify: Right or Left Hand

007691 Hamskea Hybrid Hunter Pro Micro Rest

The Hybrid Hunter Pro[™] takes design elements from the proven VersaRest™ platform and puts them in a more streamline package that is 20% lighter. The Zero Tolerance Technology[™] is key to ensure that there is no lateral play in the shaft and that the rotation action is silky smooth. The launcher shaft rides on two over-sized sealed stainless steel ball bearings that won't wear out, but continue to rotate smoothly shot after shot. The Hybrid Hunter Pro™ also adopts adjustment features like Zero Stop Technology™ for the up and down positions of the launcher which makes for an absolute repeatable launcher position ensuring accuracy. Full microtune windage and vertical adjustments. No longer do bowhunters have to compromise their accuracy for huntability

Specify Right or Left Hand

007689 Hamskea Trinity Hunter Rest

Bowhunters looking for a target-quality rest with lots of adjustability and tons of features will love this rest. Full microtune windage and vertical adjustments; Zero Tolerance Technology[™] ensures there is no lateral play in the shaft and rotation is silky smooth; Zero Stop Technology™ ensures repeatable up and down launcher positions; Tri-bearing technology provides ultimate support and smooth activation; Spring knob provides multiple internal torsion spring adjustment positions; 8 sided, non-slip compression clamp design with in-line dampening coil eliminates launcher bounce-back; Easy Glide cord tensioner for easy cord adjustment; Universal non-slip limb pad, heavy duty no-stretch cord and easy adjustment cord clamp; Universal Limb Clamp assembly can be configured multiple ways: top or bottom limb actuated, cable actuated or cable fall away; Factory configured as a limb activated rest

Specify: Right or Left Hand

Laterally-adjustable launcher arms allow you to fine tune your shot; Cable-driven technology ensures a smooth, reliable draw cycle flight after flight; Make easy corrections with windage and elevation adjustments; Full arrow containment; Includes noise-reducing laser-cut felt and all mounting hardware for guick and easy installation. Specify: Right or Left Hand

007634 Trophy Ridge Sync Micro Rest

Offers a smooth, reliable draw cycle and release flight after flight: Laterally-adjustable arms, cable- driven technology, and a removable full containment arm; Microadjustable windage and elevation adjustments for a finetuned shot every time.

Specify: Right or Left Hand

007642 WB V Max Rest

The V-Notch centers the arrow using fewer points of contact, eliminating side-to-side arrow movement. This rest arrow rest makes tuning a breeze with its advanced windage adjustment and convenient reference marks giving you accurate and consistent results. Fewer points of contact for reduced arrow resistance; Durable, all-aluminum construction; Custom rubber arrow guides for quick and silent arrow loading; Micro-windage and elevation adjustments

Specify: Right or Left Hand

007648 WB V Rest

The V-Notch centers the arrow using fewer points of contact, eliminating side-to-side arrow movement. This rest arrow rest makes tuning a breeze with its advanced windage adjustment and convenient reference marks giving you accurate and consistent results. 001744 Scott Talon Release

The Talon delivers 100% hook clearance - creating extreme accuracy and tunability. The single sear driven, inline design of the Talon release reduces string loop torque. The autoreturning stainless steel hook gives you an eagle-like grip. From draw to anchor - shoot straight with TrueCenter pull and total loop clearance. Fully-adjustable trigger and travel adjustment, grip ridges for accurate pull and 9 different length adjustments. Camo Buckle Strap.

001743 Scott Ghost Release w/Buckle

Features: Magnetic Auto-Trigger Return; True-Center Pulling to Reduce Loop Torque; Stainless Steel Roller Sear Hook; Ergonomic Body; Knurled Trigger; Solid Swivel Connector with 5-hole Length Adjustment; Cam-Lock Fold Back Strap Connector; Leather Strap with Neoprene for Extra Comfort

001745 Scott Echo Release

The Echo release features Scott's Hyper-Jaw design. The independent jaws operate in perfect synchronization with one another. This removes any lateral torque that may come from inconsistencies in shooting form. The asymmetrical design delivers unmatched efficiency in the jaw opening response. The Roller Trigger System (RTS) provides a silky smooth trigger action. Separate trigger travel and tension adjustments for a wide range of trigger adjustment and a curved trigger design that provides a distinct feel and increased finger placement options. Camo NCS Buckle Strap.

001742 Scott Hero X Youth Release

The Hero X is the little brother to the Scott Legacy. FEATURES: Auto closing, Scott-exclusive modified HyperJaws; Compact ergonomic body design provides a more comfortable and repeatable anchor; Proven Scott caliper roller sear design; NCS connector strap system for infinite length adjustment; Youth leather buckle strap

Specify: Blue or Purple

001746 Scott Legacy Release w/Buckle

Features: Auto closing modified HyperJaws; Compact ergonomic body design provides a more comfortable and repeatable anchor; Proven Scott caliper roller sear design; NCS connector strap system for infinite length adjustment; Leather buckle strap

001747 Scott Jaws w/Buckle

Features: Hyper Jaw Technology; Stainless Steel Auto Closing Jaws; Ergonomic Body; Knurled Trigger; Solid Swivel Connector with 4-hole Length Adjustment; Cam-Lock Fold Back Strap Connector; Leather Strap with Neoprene for Extra Comfort

001750 Scott Summit Thumb Release

As an open hook roller sear thumb button, the Summit offers archers an opportunity to expand their shooting style without breaking the bank. The Summit features a best-inclass crisp trigger feel, auto hook return and has adjustable trigger travel for a custom feel. The Summit features a comfortable, ergonomic four finger handle with a wrist lanyard included.

001749 Scott Little Goose II Release

Little Goose II gets a refreshed look with a slimmed down head design and OD Green colored head. The Little Goose offers 5 different position adjustments to deliver you exactly the anchor point you're looking for. Patented angled jaw design for better string clearance. Specify: Black or Camo

001748 Scott Shark II Release

The updated Shark II release features a slimmed-down head design OD Green colored head Scott's #1 best-selling dual caliper release Solid Swivel Connector with patented 5-hole length adjustment Forward-positioned. Specify: Black or Camo

001752 Scott Quick Shot w/Buckle

The Quick-Shot release delivers unmatched accuracy and reliability in an affordable design. This single-jaw caliper release features Scott's signature roller sear design for an ultra-crisp trigger activation. The Quick-Shot comes standard with a leather buckle strap and has a rope connector that is infinitely adjustable to fit any size archer.

001753 Scott Wildcat 2 w/Buckle

The WildCat 2 builds on the popular design of the original Scott WildCat. The same forward trigger design and Scott's crisp Roller Sear. The WildCat 2 features an ergonomic head for comfort and performance when you need it most. It features a cam-lock fold back connecting strap, a forward knurled trigger with adjustable trigger travel. Comes with leather buckle strap.

001756 Scott Recon w/Buckle

Features: Roller Trigger System for smooth trigger return; Cam-lock fold back connecting strap; Stainless steel auto closing jaw; Curved trigger design provides a distinct feel and increased finger placement options; Ergonomic head helps with repeatable finger placement; Adjustable trigger travel; Proven Scott single caliper Roller Sear design; Solid swivel connector with 5-hole spiral length adjustment; Black leather buckle strap.

003710 B3 Alpha Swivel Release- Black **003711** B3 Alpha Flex Release- Brown

The Alpha features a roller-sear design and an adjustable trigger. The blackened stainless steel jaws are fully radiused, and the Alpha can be used off the bowstring or with a string loop. It's setting new standards in the dual-caliper release world. Swivel Stem connector has 11 length settings and the Flex Connector System features infinite length adjustments.

003714 B3 Claw Swivel Release- Black **003715** B3 Claw Flex Release- Brown

The Claw is a roller-sear hook release and is specifically built for string-loop shooters. Other features include angled forward trigger, flex or swivel stem connector, and travel/ sensitivity adjustment. The Claw's open-hook design allows for fast and simple loading in the field at the moment of truth. Swivel Stem connector has 11 length settings and the Flex Connector System features infinite length adjustments.

003718 B3 Brave Swivel Release- Red **003719** B3 Brave Flex Release- Red

The Brave is perfect for youth or anyone with small hands and wrists. It comes on a small buckle strap and has a micro-head design. The Brave is offered with red details including stitching, strap bracket or stem. Show the competition you have what it takes with the Brave. Swivel Stem connector has 6 length settings and the Flex Connector System features infinite length adjustments.

003723 B3 Rival Flex Release- Black **003724** B3 Rival Flex Release- Green

The Rival features black aluminum jaws and exclusive trigger grip bands. It's available in red, blue or green — with a color coordinating connector bracket on the Infinite adjust Flex Connector System. The Rival is a great looking, top-quality release that will perform well without breaking the bank. Has 11 length settings and the Flex Connector System features infinite length adjustments.

003712 B3 King Swivel Release- Black **003713** B3 King Flex Release- Brown

The King offers innovative features like a fully-radiused, blackened stainless steel jaw, angled knurled trigger, and adjustable roller-sear design. Buckle up with the King and you'll enjoy its comfort, style and versatility. Swivel Stem connector has 7 length settings and the Flex Connector System features infinite length adjustments.

003716 B3 Hawk Swivel Release- Green 003717 B3 Hawk Flex Release- Green

The Hawk comes with an adjustable, angled trigger for both travel and tension. It also features an interchangeable knurled post and spring-loaded return hook, so there's no time wasted during your perfect shot. Trust the Hawk to claim that next trophy. Swivel Stem connector has 11 length settings and the Flex Connector System features infinite length adjustments.

003720 B3 Tigress Swivel Release- Pink **003721** B3 Tigress Flex Release- Pink

The Tigress comes on a small buckle strap and has a micro-head design, which is perfect for anyone with small hands and wrists. The Tigress is offered with pink details including stitching, strap bracket or stem. Make a statement. Shoot with the Tigress. Swivel Stem connector has 6 length settings and the Flex Connector System features infinite length adjustments.

003730 B3 Versa Release Brass

The Versa features hardened 440C stainless internals, with simple-to-adjust tension and travel screws. The handle is a fully radiused two-piece system and allows you to rotate the finger attachment to one of five locations. The thumb bars, pegs and trigger options can be customized to fit any archer. The Versa's exclusive design includes a base system that holds sears in place — producing the best performing release available today.

Hardcore

Designed to be the ultimate hook (single jaw) release with more features than any other. First, the Hardcore features a self centering knuckle located behind the main body which eliminates side to side torgue. Also, the solid steel iaw automatically closes when you depress the trigger. This release is the ultimate for hardcore hunters as well as serious tournament archer's. As always, proudly made in the LISA

003942 TruFire Hardcore w/Fold **Buckle**

Camo leather buckle foldback strap with forward trigger.

003985 TruFire Hardcore MAX Black w/Buckle

For starters, the MAX will have a separate screw that will adjust trigger pressure (separate from trigger travel) from 3 ozs to well over 16 ozs by just a couple turns of the screw. The MAX also has the Evolution II buckle which has 2.5x more padding and is slightly wider with rolled edges creating the most comfortable strap on the market

X Caliper

All patented X-Caliper head shown offers features only found with True-Fire technology. These are the finest non-True-Rotating calipers on the market. Starting with the heat treated and teflon coated trigger and jaws for years of dependability. The user-friendly trigger fires by either pulling or relaxing the trigger. All X-Calipers come with high strength, ultra-wide, no gap jaws for quicker loading and triggers that are adjustable for trigger pressure. All straps and buckles fit both left and right hand. All X-Calipers work great on string loops, D-loop[s], or straight off the serving.

Activate trigger to open jaws, let up on trigger to close them. Built-in lanyard to keep release from slamming through if it slips out of your hand.

003773 TruBall Max Pro Plus 4F

1/2" Ergonomic Head that swivels 360 degrees, easy to open and close jaws and is completely silent. A smaller head and smaller jaws for more length and more bow speed and is quiet when loading. Activate trigger to open jaws, let up on trigger to close them. Built-in lanyard to keep release from slamming through if it slips out of your hand.

003758 TruBall Short N Sweet S1 Release 003759 TruBall Short N Sweet S2 Release

S1= Feather-light, non-collapsing trigger that is closer to the bowstring for more draw length and more SPEED!!!

S2= Swept-back, feather-light, non-collapsing trigger that is swept back for shooters who do not need extra draw length, but prefer more comfort. Both come with a large black leather buckle strap.

003792 TruBall Stinger XT Release

Built extra tough with machined knurling for added grip! Pull trigger to open, let up to close. Rigid rod keeps the 1/2" sized ergonomic head closed and ready. Black buckle strap, size Large.

Specify: Black or Camo anodized head

003763 TruBall Bandit Release- Buckle

The Bandit features a rope connection covered in a weather resistant flexible tubing, designed to make your release ready in hunting situations where speed is key.

003791 TruBall Stinger XT Jr Release

Built extra tough with machined knurling for added grip! Pull trigger to open, let up to close. Rigid rod keeps the 1/2" sized ergonomic head closed and ready. Black buckle strap sized for young archers or those with a small sized wrist. Specify: Black or Camo anodized head

003756 TruBall Shooter Youth Release-Velcro 003757 TruBall Shooter Youth Release-Buckle

Designed specifically with the youth in mind, the Shooter series features four bright color combinations. Pull trigger to open fully-independent standard caliper jaws, and let up the trigger to close. The Shooter has a quick lock connection system to provide easy adjustment for any anchor point. The rope style connection between the head and strap allows for less torque and great accuracy. Junior size strap.

Specify color: Blue, Green, Purple or Red

005481 Paradox BowSling

The original braided cord bow sling

Specify color: Elevated 2, Forest Edge, High Timber, Mission, Open Spaces, Retro Tree Camo, Olive Xtra, or *New for 2022:* Granyte

005480 Paradox Bow Sling

The Bohning Pocket Quiver provides a safe, convenient, and secure way to carry field-tipped arrows. The versatile Pocket Quiver holds six arrows of any diameter and can be slipped into a back pocket or hip pocket, or attached to a belt or pack strap. With the integrated anchoring clip, it stays securely attached and gives you quick and easy access to your arrows.

- 009322 Tight Spot Shift Lock 5 Quiver-Moss Green
- 009323 Tight Spot Shift Lock 5 Quiver-Black
- 009324 Tight Spot Shift Lock 5 Quiver-Sub Alpine
- 009325 Tight Spot Shift Lock 5 Quiver-Realtree

Features: Telescoping Rod Length that allows the user to adjust the overall length of their quiver to get the proper fit for their arrows and move your hood up and down for better balance; Second arrow gripper that allows the user to hold arrows and broadheads tighter and more reliably; Large Hood design that accommodates accommodate longer and wider broadheads; Built in quiver hanger; Quick Detach; Fully adjustable: Allows you to rotate the quiver forward or back to fine tune bow balance. Adjustable arrow wedges allows the user adjust the tension in which the arrow is held; Oversized dovetail rail mount allows the user to slide the quiver in and out to fine-tune balance and eliminate side torque.

Right Hand

009294 Tight Spot 5 Rise Quiver- Black 009295 Tight Spot 5 Rise Quiver- Realtree

The Rise comes with a loop on the hood to easily hang the quiver in the tree and is four inches shorter than the original, which makes for a more compact and maneuverable design.

009305Tight Spot 5 Quiver- Matte Black009306Tight Spot 5 Quiver- Carbon Fiber009303Tight Spot 5 Quiver- Verde 2.0009304Tight Spot 5 Quiver- Sub Alpine009307Tight Spot 5 Quiver- RT Edge009301Tight Spot 5 Quiver- RT Edge009301Tight Spot 5 Quiver- Moss Green

The first bow quiver designed to help archers shoot better while keeping their bow quiver attached to their bow. Fits tight to your bow, minimizing torque and improving accuracy. Fully adjustable and fits most bows. Ultra tough hood, Phantom foam, Vibration bumper, Quicklock Camo, wrapped carbon rods, ArrowWedge Gripper, balanced stabilization, Silicone sleeve and TailFan design are 10 reasons to get a Tight Spot Quiver.

Specify Right or Left Hand.

009310 Tight Spot 3 Quiver- Matte Black

A 3 arrow model that is compact and ideal for treestand hunters. Fits tight and is so light, you won't even notice it's on our bow. Hold arrows tight eliminating lost or dropped arrows. Specify: Right or Left Hand

009313 Tight Spot Secondary Arrow Gripper

This secondary gripper Works with any Tight Spot 5 Arrow Quiver and allows you to secure your arrows in the quiver with nothing touching the broadheads in the hood. That way your fixed blade heads stay sharp and the expandables can not prematurely deploy. The oval holes allow for selfcentering of the arrow in the gripper and for fitting any size hunting shafts including today's popular micro diameter shafts.

009299 Tight Spot Moveable Sight Bracket

This bracket is 40% lighter than the previous version and has an extra 15 degrees of rotation for better clearance on different bow set ups.

009314 Tight Spot Replacement Mount Bracket

009317 Tight Spot Treestand Bracket

The treestand bracket is just that. It mounts to the back side of your 5 or 7-arrow quiver so it is always with your quiver. It easily removes and screws into your tree where you then reattach the quiver to the bracket. This makes for a solid mount with no more fumbling for a second arrow from a hanging quiver.

002027 TruGlo Tectro 6 Quiver

Features: Ultra-lightweight aluminum construction; Weighs less than 8 oz; Positive-Lock mounting bracket; Holds 6 carbon or aluminum arrows; Compatible with arrow diameters .229" and larger; Fits mechanical and fixed-blade broadheads; TRU-TOUCH soft-feel technical coating; Includes hanging loop. Black

002024 TruGlo Tuff-Loc 4 Quiver

Vibration free lightweight/compact quiver that accepts both carbon and aluminum arrows. Quick-release cam lock for easy, smooth one-hand removal. Fits both mechanical and fixed broadheads. Weighs approximately 6.6 oz. Hold 4 arrows. Black

002026 TruGlo Loc-Down Quiver

Vibration free. TruTouch soft-feel technical coating. Secure double-griper design. Fits both carbon and aluminum arrows along with both mechanical and fixed broadheads. Twist-Lock mounting bracket- quick/easy, one hand removal(patent pending). Mounting bracket is adjustable up/down to better fit all bows. Rubber hood insert reduces noise and won't dull broadheads. Fits both left and right hand shooters. Holds up to 4 arrows.

Specify color: Xtra or Black

002431 Apex Reactor XL Quiver

REACTOR[™] XL holds your arrows safely and effectively while providing strength, balance, and versatility optimized for modern hunters and performance bows. Mounting arm holds quiver farther back (closer to the cams) for improved stability and balance. Rubber hood liner reduces noise and won't dull broadheads. TRU=TOUCH[™] soft feel technical coating dampens vibration. Fits left and right-handed bows. Hold 5 arrows.

OO2460 Apex Reactor LTE 5 Quiver Thumb tab style gripper design allows for quick / quiet arrow removal.

Fits both left and right-handed bows. Specify: Black or Realtree Xtra

002430 Apex Accu Strike 4 Quiver Lightweight and compact with Tru Touch soft feel coating. Vibration free and fits both carbon and aluminum arrows. Secure, one hand mounting bracket. Can use both fixed or mechanical broadheads and has technical rubber hood insert. Can be used both right or left hand. Black

005658 G5 Head Loc Quiver

Head-Loc quivers work to kill noise and vibration with its unique mounting system. The head-Loc rubber compression technology acts as an isolator between the quiver and the bow. The Exo-Flex hood is extremely quiet, lightweight, and also has superior absorbing properties. Accepts fixed and expandable broadheads. Power grip double spreader to hold arrows secure without deployment of mechanical broadheads. Holds 6 arrows. Free Tree Mounting bracket included.

Specify color: AP or Black

005629 Trophy Ridge Vrsa Lite 5 Quiver

The VRSA Light quiver holds five arrows using customizable single or dual arrow grippers - also includes micro diameter arrow grippers to accommodate multiple shaft sizes. The innovative design allows you to mount it either on the sight bracket or to the bow riser with one of two included riser mount adaptors. The VRSA Light is assembled with 16" rods and comes with 2 additional 10" rods, allowing you to customize the quiver length. The cam locking lever mechanism is designed to lock the quiver securely in place. The quiver includes a built-in rechargeable LED flashlight, on the top the quiver. Black

005628 Trophy Ridge Hex Lite 5 Quiver

Built-in LED lights illuminate arrows and surroundings in low light; Soft-touch hood construction reduces vibration and eliminates noise; Features quick attachment design for fast and easy mounting and detachment; Adjustable mounting offers low profile against the bow and arrow containment within the bow; Customizable single or dual arrow grippers and precision-designed hood included.

005631 Trophy Ridge 5-Spot Quiver

Features fully adjustable dual arrow grippers that hold arrows quiet and secure. Quick detach mounting bracket allows for quick on/off and the hollow hood won't dull or deploy broadheads. Hanging loop included. Specify color: Black or Xtra

O01073 Bohning Lever Lok Quiver Bracket

009205 Alpine Soft Loc 3 Quiver **009206** Alpine Soft Loc 5 Quiver

Features the Soft Loc Rail Gripper which is a pair of rubber grippers mounted on a machined aluminum bracket that permanently mounts onto bow. Two aluminum guide rails that separate the hood from the arrow gripper press snugly into the rail grippers. Black

003814 30-06 Straight Jacket Quiver

The Straight Jacket Quiver works with both fixed blade or mechanical broadheads. Easy quick release, super light with dual rubber arrow locking points. Works right or left hand. Holds 6 arrows. Black

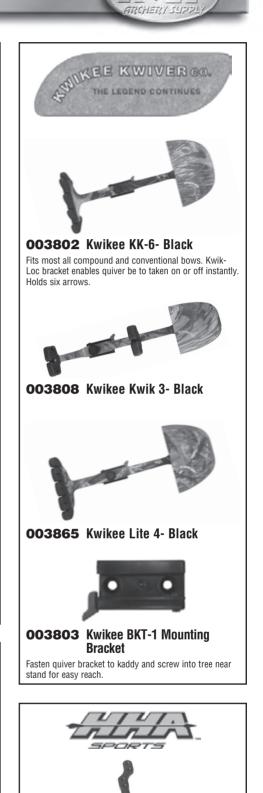

003815 30-06 Slammer 5 Quiver Super lightweight quiver with dual arrow locking points. Rock solid attachment and easy, quick detachment. Works with fixed or mechanical Broadheads. Black

009207 Alpine Power Loc 4 Quiver

The Power Loc 4 Arrow Quiver features a rubber mount that isolates noise and vibration between the quiver guide rails and your bow. The Power Loc has an innovative roll and lock latch to prevent accidental dis-mounting of the quiver. Black

004198 HHA Adjustable Quiver Bracket

Infinate adjust bracket that fits most quivers.

008287 NAP 2" XB Killzone COC 100 3/Pk

The Killzone crossbow is specifically designed for use with today's fastest crossbows or compounds. Featuring a stiffer "Spring Clip Blade Retention System"- the Killzone Crossbow is designed for crossbows shooting up to 400 fps. Offers the same 2" cutting diameter as the standard Killzone with a cut-on-contact tip.

- **008118** NAP Spitfire 3-Blade 100 gr. Broadhead
- **008119** NAP Spitfire 3-Blade 125 gr. Broadhead
- 008170 NAP SpitFire 3-BI Repl for 100/125 Gr.

Now, every pack of Spitfires has micro-grooved ferrules. Shut tight for streamlined flight, open instantly on impact, Spitfire is new and improved to incorporate a penetrationenhancing micro-grooved Slimline Ferrule. With a patented retention system that requires no o-ring and keeps blades closed on release even from the fastest bows, the mosttrusted name in mechanical broadheads delivers superb accuracy and exceptional, hassle-free performance.

008159 NAP Dark Knight 100 Broadhead

The Dark Knight represents the next level in broadhead development. This hybrid-mechanical broadhead features a pivoting main blade and two mechanical bleeder blades design for maximum penetration potential. 1-3/4" cutting diameter. 3 pack.

008282 NAP Hell Razor 100 Broadhead

All steel. One piece, shaving sharp with no loose blades. The HellRazor broadheads are the ultimate cut-on-contact one-piece broadheads designed to maximize accuracy and penetration out of today's fast, high-performance bows. Can be re-sharpened. 3 Blades- .040" thick and 1-1/8" cutting diameter. 3/Pk

008128 NAP Spitfire Maxx COC 100 Gr

With a full 1-3/4" cutting diameter, a cut-on-contact point, and the legendary Spitfire features that serious bowhunters have preferred for over 10 years. Field point accuracy, offset blades and no-o-rings or rubber bands. Micro-Grooved Ferrule and .027" thick blades.

008125 NAP Killzone COC 100 Gr 008126 NAP Killzone TT 100 Gr

The Killzone is a 2 blade rear-deploying broadhead that packs a devastating 2" cutting diameter. The field point accurate Killzone uses NAP's unique spring-clip design which ensures our blades won't open in flight or in your quiver. No o-rings or rubber bands to worry about. Available with a cut-on-contact razor tip or with a bone-crunching Trophy Tip. Each pack includes one practice tip. 3/Pk

008312 G5 MegaMeat 100 XB Head **008313** G5 MegaMeat 125 XB Head

Features: 2" Cutting Diameter; Three Razor Sharp Blades; Easy to use SNAPLOCK COLLAR; Replacement Blades and Collars; BMP Available; 3 Pack

008362 G5 Dead Meat XB 100 Head 008368 G5 Dead Meat XB 125 Head

The Dead Meat mechanical is constructed from supertough machined 100 percent stainless-steel to make contact and keep driving deep. Three heavy-duty blades produce unrelenting results by creating a gaping 1.5-inch cutting diameter for short and heavy blood trails. The design of the Dead Meat is highlighted by the SnapLock retaining collar that creates an audible "snap" when each of the three blades is locked securely in place.

008462 G5 Montec 100 XBow Head **008463** G5 Montec 125 XBow Head

008307 G5 Montec M3 100 XB Head **008348** G5 Montec M3 125 XB Head

The next generation in the Montec line of broadheads, the Montec M3. The closed vent design offers bowhunters the quietest flight possible. 100% Steel Tough; Cut-On-Contact Design; Diamond Cut Sharpness; One-Piece MIM Construction; 100% Spin Tested; 1 1/16" Cutting Diameter; 3 Pack

008379 G5 Striker V2 100 XB Head **008384** G5 Striker V2 125 XB Head

The Striker V2 is quite the upgrade from the original G5 Striker. With a bigger cutting diameter and a machine steel ferrule, the Striker V2 is stronger, bigger and flies better than ever. 1.25" cutting. 3-Pack

008288 G5 Striker X 100 XB Head **008300** G5 Striker X 125 XB Head

All the benefits of the Striker V2, but now with 33% more cutting surface; 4 Ultra Sharp Lutz Blades; 100% Steel Tough; Machined Steel Ferrule; 1.25" cutting diameter; Anix Blade Locking System; 3 Pack

Designed to Hunt

008373 G5 Striker V2 100 Broadhead 008374 G5 Striker V2 125 Broadhead 008378 G5 Striker V2 100 D6 Broadhead

008375 G5 Striker V2 Repl Blades

The Striker V2 is quite the upgrade from the original G5 Striker. With a bigger cutting diameter and a machine steel ferrule, the Striker V2 is stronger, bigger and flies better than ever. 1.25" cutting. 3-Pack

008376 G5 Striker V2 100 BMP Head

The B.M.P. is a ballistic match to the Striker V2 broadhead. Safe to use on any target, and works great on foam targets. Practice all year knowing your Striker V2 will have the same flight as the B.M.P.

008385 G5 Striker X 100 Head **008386** G5 Striker X 125 Head **008387** G5 Striker X Blade Kit

All the benefits of the Striker V2, but now with 33% more cutting surface; 4 Ultra Sharp Lutz Blades; 100% Steel Tough; Machined Steel Ferrule; 1.25" cutting diameter; Anix Blade Locking System; 3 Pack

008388 G5 Striker X 100 BMP Head **008406** G5 Montec 100 BMP Head **008417** G5 Montec 125 BMP Head

Practice all year around with the 100% Steel Tough Balistic Match Point (BMP). Safe to use on all targets and is easy to remove from any target. Includes tapered collars for all arrow diameters. 3-Pack

008357 G5 Montec M3 100 Head **008358** G5 Montec M3 125 Head

The next generation in the Montec line of broadheads, the Montec M3. The closed vent design offers bowhunters the quietest flight possible. 100% Steel Tough; Cut-On-Contact Design; Diamond Cut Sharpness; One-Piece MIM Construction; 100% Spin Tested; 1 1/16" Cutting Diameter; 3 Pack

008359 G5 Montec M3 BMP Point

The BMP is designed using aerodynamics to be ballistically matched to the wind drag and resistance of the broadhead. Now, there is no need to waste a broadhead just for practice or ruin a target from broadhead blades. 3 Pack

008428 G5 Montec CS 100 Gr

With the same MIM technology, and it's 100% spin tested design, G5 introduces the Montec CS. This 100-grain head is constructed using Carbon Steel. The sharpness of the Montec CS is 25% sharper that the original Montec and can be re-sharpened. 1-1/16" cutting diameter.

008436 G5 Montec SS 85 Gr Broadhead 008442 G5 Montec SS 100 Gr Broadhead 008427 G5 Montec 100- Pink 008443 G5 Montec SS 125 Gr

008443 G5 Montec SS 125 Gr Broadhead

The Montec features the new Patent Pending Monoflow technology. Allows for one solid piece construction, from head to thread, creating a structurally sound and consistently accurate head. Designed for the archer who wants pure muscle without sacrificing aerodynamics and accuracy. 3 Blade with 1.25° cutting diameter. 3/Pk

008445 G5 Pre-Season Montec 100 **008446** G5 Pre-Season Montec 125

The Pre-Season Montec is dimensionally the same as the Montec allowing flight and accuracy to remain constant with both broadheads, eliminating the difficult transition from field point to broadhead before the hunting season.

008317 Slick Trick Standard 1" 100 **008318** Slick Trick Standard 1" 125

008290 Swhacker 1.75" XBow 100 Gr

Specially designed for today's crossbows. The original twin

blade cutting system with high velocity design suited for heavier frames. 1" in flight, 1.75" after penetration. Includes

practice point and DVD.

008291 Swhacker 2" 100 Gr 3P Includes practice point and DVD.

008295 Swhacker 2.25" 125 Gr 3P

Unique blade design provides you with two separate cutting edges. The first set of edges, also known as the wing blades, are used for cutting the hide and the first set of ribs. These blades are also used to open the broadhead, and are much smaller than the main blades. They take the most punishment by cutting through the hair, dirt, hide, and bones during entry. The smaller blades take less energy to penetrate through the first side than an "open on impact" broadhead. These wing blades also provide a load bearing surface for the ferrule during impact. The second set of edges, or the main blades do not touch anything during the initial penetration. They still have "virgin" edges when they open in the body cavity. This allows the main blades to remain razor sharp for the internal organs. Includes practice point and DVD.

008280 Swhacker Levi Morgan 2" 100

009836 Plano Spire Compact XBow Case

Compact size fits new crossbow sizes: Three heavy-duty latches: Balanced carry handles: Stands on side for easy storage: Padlock Hasps: Quiver storage in base of case (fits most): Lashing straps to secure crossbow in case: Foam padding for crossbow protection

Exterior: 41.22" x 27" x 12.25" Interior: 39" x 24.5" x 12"

ORIGINA

009837 Plano Crossbow Case

Patented PillarLock system protects crossbow. Fits most of today's largest crossbows with scopes attached. Highdensity foam and poly tie-down straps secure, cushion and protect bow. Bolt storage in lid. Quiver can stay attached to most bows. Black 41.5"L x 33.5"W x 11" H

009825 Plano Manta Crossbow Case

The Manta is designed for versatility, meaning most any style of crossbow can be secured down into the case's customizable high-density foam padding in key impact areas. Multiple tie-down locations and straps inside fit crossbows of all sizes and shapes to hold them securely in place. The Manta's "tail" adjusts as necessary for long and short tail stocks. Measures 44.75" long when fully extended but can be collapsed to its shortest length of 33.125" of short-stocked crossbows. Its width is 38.75" and height is 13.125".

009678 Ten Point Blazer Soft Case

The Blazer soft case is lightweight and rugged. The waterresistant case features a foam-padded interior with a hook and loop strap to secure the crossbow during travel, as well as two external zippered pockets and one internal zippered pocket for accessory storage. In addition, the case features two padded quick-release straps that can be used individually for "sling-style" carrying or together for "backpack style" carrying, as well as Molle straps on the exterior pockets and backpack straps.

*Fits TenPoint's 2019 crossbow line-up.

Dimensions: Case Length: 40.5"; Case Width: 18.5"; Case Depth: 10.75"

009697 TenPoint STAG XB Case

Designed for maximum protection and durability, these rigid, water-resistant cases feature an extremely durable shell, as well as a velvet interior for added protection. The interior of the case includes two hook and loop straps to secure the crossbow during travel, and storage for a quiver that also includes straps. An integrated stirrup pass-thru with storm flap allows you to hang the crossbow, in the case, for easy storage. If used with TSA approved locks, the case is TSA compliant.

*Fits TenPoint Nitro X, Stealth NXT and Shadow NXT.

009699 Wicked Ridge Soft XB Case

Lightweight and rugged, the lockable case is equipped with an extra-large exterior zippered pocket for storage of arrows, quiver, broadheads, lube, etc. A side-mounted rubber grip handle provides easy transportation. In addition, the case also features two foam-padded adjustable straps for comfortable backpack carry. 38" x 22.5" x 10.75"

*Fits 2018 and newer Wicked Ridge crossbows (except Ranger and Lady Ranger models)

005795 30-06 Cross Coffin XB Case

Features: Front accessories Pack- 10.5° x 5". Arrow/ Quiver Pouch- 22.5" x 5.5". Side Accessory Pouch- 22.5" x 5.5". Measures 37" length x 18" width x 11.5" height.

005796 30-06 Cross Coffin Mini XB Case

Dimensions: 34" Overall Length 19" Width 11" Scope Height; 3 Arrow and Accessory Pouches; Multiple Easy-Grip Carrying Handles; Orange Trim and Piping; Grey Deer Skull Design; Shoulder Straps for Backpack-Style Carrying; Durable Construction with Heavy Padding

005793 30-06 Alpha Crossbow Case

The most practical and innovative crossbow case on the market. 29" width, 8" scope height and 42" overall length. Extreme padding and adjustable shoulder straps and 2 large external compartments.

O05794 30-06 Alpha Mini XBow Case Padded crossbow case designed to fit most compact crossbows. 2 external pockets and padded shoulder sling. Length 39" x Width 23" x Height 8"

005760 OMP Essential XB Case

Perfect for entry-level crossbows; EZ-Load for transportation; Exterior accessory pocket; 600 Denier material with coil zippers; 36" x 24"

000442 OMP Narrows Xbow Case

The Narrow Crossbow Case was designed to protect and transport ultra compact and narrow limb crossbows. Ambidextrous shoulder strap for easy transportation. Accommodates crossbows up to 15" overall width. Multiple accessory pockets for draw-cords or cocking devices; Arrowbox pocket accommodates up to 23" arrowboxes. 37" x 16" x 11"

000445 OMP Xcursion XBow Case

Fits most modern crossbows: Fleece interior: Two zippered sleeve pockets: Four accessory pockets: Heavy-duty zippers: Left Side/Right Side Messenger Style Strap. Arrow pocket accommodates up to 24" bolts.

006907 Black Hole Crossbow 16 Target

Black Hole Crossbow 16 measure 16" x 16" x 14"; 4 Sided Shooting for Longer Target Life; Broadheads and Field Points on Front and Back; Polypropylene Wrapped Sides Stop Field Tips Only; Stops ALL 400+ FPS Crossbows.

006901 Block Black Hole BH18 Target 006902 Block Black Hole BH22 Target

Totally redesigned, the all-new Black Hole offers premium performance at a great price. Shoot field points (only) at both woven polypropylene wrapped sides and shoot broadheads and expandable at the front and back of the open face layered design front and back. BH18 measures: $18^{\circ} \times 16^{\circ} \times 11^{\circ}$ and the BH 22 measures: $22^{\circ} \times 20^{\circ} \times 11^{\circ}$

Heavy-duty handle - A strap handle makes Hurricane easy to carry.

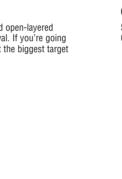

other regular bags.

006887 GlenDel Full Rut Deer Target **006888** GlenDel Full Rut Repl Vital

The GlenDel Full Rut is the size of a 300 lb. live wight buck! Super sized open-layered insert gives you 4 sided shooting, longer target life, easier arrow removal. If you're going to hunt the biggest buck in the woods, you need to practice shooting at the biggest target on the market.

006891 Glendel Pre Rut Target 006892 Glendel Pre Rut Repl Vital

Features a super-sized, four sided insert that is much bigger then the inserts in other 3-D targets. The Pre-Rut insert features PolyFusion Technology. Lasts twice as long and offers easy arrow removal. Designed to take any tip, including fixed or mechanical broadheads. Stands a full 36 inches high at the shoulders, the size of a 250 lb live weight deer and antilers that measure 150 inches.

006897 GlenDel Buck Deer Target 006898 GlenDel Buck Repl Core

Shooter

The redesigned GlenDel Buck is really just a slightly smaller version of the GlenDel Full rut. It's still big, the size of a 200 lb live weight deer, and it's over-sized 4-sided PolyFusion core gives you 5 times more surface area.

006895 GlenDel Shooter Bear Target Solid Body No Replaceable Core: Based on Shooter Buck Platform.

006896 GlenDel Shooter Turkey Solid Body No Replaceable Insert: Multiple Vital Areas: Based on Shooter Platform.

OO1278 Montana Whitetail Dream Team The Whitetail Dream Team combination consists of the Whitetail Buck and Dreamy.

OO1309 Montana Decoy Freshman Buck The Freshman Buck mimics a young buck with a big attitude, inviting a challenge from mature deer.

OO1308 Montana Decoy Estrus Betty Doe The most portable, realistic and effective deer decoy to use

The most portable, realistic and effective deer decoy to use during all phases of the rut. Estrus Betty offers portability without sacrificing realism.

001301 Montana Whitetail Dreamy Doe

001295 Montana Deer Rump Decoy

The lightest, most packable whitetail decoy Montana Decoy has ever made. Hunter's can now easily have a decoy with them on any hunt. Weighs 2 lbs.

OO1314 Montana Spike Elk Decoy This is the new secret weapon in your elk hunting pack.

Lightweight and easily folds for transport.

001304 Montana RMEF Elk Decoy

Larger cow size allows for greater visibility for approaching elk: The most definition and detail of any elk decoy: Folds up easily and light enough to carry on every hunt: Can be used in all phases of the season: Rocky Mountain Elk Foundation endorsed.

001305 Montana Eichler Elk Decoy

Weighs 40 oz (including poles) 47" x 30" unfolded and 19" x 12" folded.

001316 Montana Antelope Buck Decoy

The Antelope decoys are constructed of a durable polyester fabric with a spring steel band inside the body to hold the body erect. Fiberglass poles with step stakes are used to support the decoy. The decoy body has a picture printed image on both sides, giving the decoy that 3D look. When folded, the decoy measures 2" thick and 16" diameter.

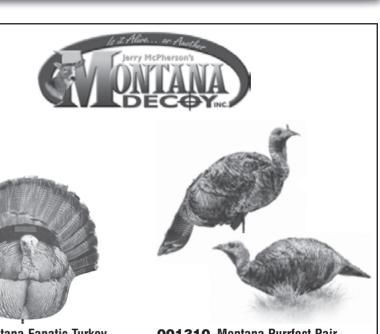

H&H ARCHERY SUPPLY • 1-800-356-2209 • Fax 1-320-963-6521

001307 Montana Fanatic Turkey Decoy

The life-like size and photographic realism creates an appearance that's sure to rile up any gobbler that sees it. Features: See-through mesh window for total concealment when stalking. The photo-realistic body lures in hot gobblers. Perfect for the run-and-gun turkey hunter. Sewn-in foldable stake can be used as a stalking handle.

001311 Montana Spring Fling Hen Using a photo taken of a hen just before she was bred,

this breeding hen decay sends an invitation no tom can turn down. Folds flat to a compact size of 10" x 6" and pops up to full size in seconds.

001310 Montana Purrfect Pair Combo

All the benefits of Jake Purrfect XD and the Miss Purrfect XD in a single package. The new fabric better replicates a turkey's natural iridescence while new realism based details like taxidermy eyes adds the finishing touches. Each decoy comes with a zippered carry pouch for easy transport and fast deployment.

001312 Montana Dinner Belle Hen

The reassuring pose of a feeding hen decoy communicates confidence to incoming birds in all hunting situations. Folds flat to a compact size of $9" \times 6"$ and pops up to full size in seconds.

001292 Primos Scarface Deer Decoy

The Primos Scarface deer decoy is not only realistic, but with the slightest breeze, the head and tail will move naturally. All of Scarface's components: head, ears, antlers, and legs fit inside the soft body cavity. This makes him easy to carry and cuts down on unwanted noise in the field.

001251 HS Strut Lite Hen Decoy

Strut-Lite Decoys offer a lightweight, foldable hollow body construction for easy transportation and storage. The decoys' feature a flake-resistant paint job that for extremely realistic decoys. The included 2-piece ground stake allows for quick setup and removal. The Strut-Lite Hen's upright position is perfect for positioning as if she is ready to be bred.

001259 HS Strut Lite Feeding Hen

Strut-Lite Decoys offer a lightweight, foldable hollow body construction for easy transportation and storage. The decoys' feature a flake-resistant paint job that for extremely realistic decoys. The included 2-piece ground stake allows for quick setup and removal. The Strut-Lite Feeder Hen's feeding position portrays relaxation and a low level of danger to nearby turkeys.

OO1272 HS Jake Decoy

Strut-Lite Decoys offer a lightweight, foldable hollow body construction for easy transportation and storage. The decoys' feature a flake-resistant paint job that for extremely realistic decoys. The included 2-piece ground stake allows for quick setup and removal. The Strut-Lite Jake's semiaggressive position brings toms in close for an easy fight.

001276 HS Strut Lite Jake/Hen Combo

Strut-Lite Decoys offer a lightweight, foldable hollow body construction for easy transportation and storage. The decoys' feature a flake-resistant paint job that for extremely realistic decoys. Included with both decoys are 2-piece ground stakes allow for quick setup and removal. The Strut-Lite Hen's upright position is perfect for positioning as if she is ready to be bred, and Jake's semi-aggressive posture brings in dominant toms for an easy fight. Use the Hen and Jake individually or together to portray the situation of a Jake breeding a hen.

001284 HS Strut Lite Flock

Strut-Lite Decoys offer a lightweight, foldable hollow body construction for easy transportation and storage. The decoys' feature a flake-resistant paint job that for extremely realistic decoys. The 3 included 2-piece ground stakes allow for quick setup and removal when things are happening fast in the woods. The Strut-Lite Hen's upright position is perfect for positioning as if she is read to be bred, and the Jake's semi-aggressive position brings in toms for an easy fight. The Feeder Hen's relaxed feeding position lets other turkeys know that the area is safe. Use individually, as pairs or use all three together for the "flock" effect.

Speak THE LANGUAGE

000711 Primos Revolver Grunt Call

Simple revolving dial design adjusts call for a fawn bleat, doe bleat, doe grunt, young buck or a mature buck.

000707 Primos Magnum Trophy Grunter Call

Reproduces the grunt of a rutting buck whitetail. Fully adjustable for throaty buck grunts to love-sick bleats. Comes with lanyard. (707)

000704 Primos Bottle Neck Grunt Call

The Bottle Neck is the perfect call for those that want to produce ideal mid-tone grunts and ROARs. Compact size and soft all rubber design make it easily accessible when calling in the big bucks.

000558 Primos Hardwood Grunter

6 in 1!!! Adjustable reed assembly from grunts to bleats. Made from select hardwood for extra loud volume and deep, throaty grunts. Extendible hose for varied tones.

000712 Primos Rut Roar Call

The Primos Rut Roar is Primo's loudest most accurate grunt call. Reproduces aggressive, mature buck sounds. Built in Challenge Wheeze. Ergonomic shape and angled outlet for directional calling.

000703 Primos Still Grunter Call

This call is fully adjustable from throaty buck grunts to lovesick does. Can be used with hands-free operation. Comes with detachable grunt tube and lanyard. (708)

001091 Primos Power Buck and Doe Call

Inhale-Exhale operation that will produce throaty grunts and clicking tones of aggressive bucks to estrus bleats and cries of does. Single and double reed options, all in one call. Dual red assembly for inhale buck or doe and exhale buck or doe. Includes built-in compass.

000553 Primos Big Bucks Bag

New compact design for easy carrying and one handed operation. New power tines and camo net bag which increase volume. 100% waterproof.

006945 Primos Fightin Antlers

High-tech polymer gives these horns the same consistency and structure as real antlers. 14 contact points reproduce buck fighting sounds from light sparring to extra loud fights. Design gives hunter room to rattle without injury to hands.

Speak THE LANGUAGE

000738 Primos Original Can Call

Estrus[™] Bleats tell bucks that a doe is ready to breed. Whitetail, Blacktail, and Mule Deer can all respond quickly and dramatically to the "quivering" doe Estrus[™] Bleat produced by "THE Original CAN[®]". This is, by far, the best call we know of to call in bucks during the pre-rut, rut, and post-rut.

000739 Primos Long Can Call

The Long CAN[®] produces longer, more intense Estrus™ Bleats, which lets bucks know there is a doe that's ready to be bred. During the pre-rut and rut this is the sound bucks are listening for.

000740 Primos Lil Can Doe Bleat

100% Freeze proof. Smaller for higher pitched bleats of young does. Perfect for early or late season hunting.

000729 Primos "The Great Big Can" Call

"Great Big" size for louder and longer range calling. Great for windy days, open country or fields. Perfect for whitetail, mule deer & blacktail deer.

OOO710 Primos RubberNeck Grunt Call Straps to your arm so it's always ready when you need it. Go

Straps to your arm so it's always ready when you need it. Go from mature buck to young buck with the push of a button. For the ultimate in tone control and accuracy, simply pinch the megaphone end of the barrel. (737)

000744 Primos Lil Big Roar Call

The Lil Big Roar reproduces aggressive buck grunts that you will most commonly hear during peak times of the rut. The Little Big Roar has a hardwood barrel, and the resonating end is made from soft rubber that you can squeeze to manipulate the sound.

000722 Primos Bullet Bugle

Compact competition style bugle that allows for easy carry and variable sounds. Patented mouthpiece and support shelf with blue reed. Soft flexible chamber allows quiet and easy packing. Includes adjustable webbing carry strap.

000911 Primos Super Pack Bugle

Compact and easy to use. The Super Pack Bugle features the patented Blue Snap-On Reed and mouthpiece with Support Shelf. Produces calf, cow and bull sounds. Bugle extends from 13" to 19"

H&H ARCHERY SUPPLY • 1-800-356-2209 • Fax 1-320-963-6521

Speak THE LANGUAGE

000723 Primos Mewie Grande Cow Call

Small in size but not in stature, the Mewie Grande™ is a compact open reed call with an enhancer that produces phenomenal range in tone and volume. A little air pressure reproduces soft and mellow mews and chirps. Stronger air pressure reproduces loud and aggressive cow calls.

000579 Primos Cow Girl Elk Call

The Cow Girl call is a bite and blow style call. A cow elk's call is characterized by a note, sliding from a high note to a low note. The Cow Girl is one of the easiest ways to achieve the sliding note consistently.

000981 Primos Imperial Plate

The angle of this plate is set at 30 degrees; the large "V" cut in the second reed makes it perfect for cow and herd bull sounds without switching calls. The largest "V" cut adds the raspy sounds of the herd bull's growls, bugles, and chuckles.

000724 Primos Lip Service Cow

Accurate estrus cow call. Compact, fits in shirt pocket.

001094 Primos HyperLip Single w/Tone Converter

Open, single-reed achieves higher pitch of cows and calves. Tone converter produces mellow and softer tones so important for calling in those call-shy bulls. Perfect for bowhunting.

001014 Primos Hyper Plate Double Y

The angle of this plate is set at 30 degrees, and the large "Y" cut in the second reed makes it perfect for estrus cow and raspy herd bull sounds without switching calls.

000728 Primos "Hoochie Mama" Elk Call

(Lost Cow Elk Push Call) Simply push for the most realistic cow elk sounds. Tunable from lost cow to easy estrus cry.

001089 Primos HyperLip Double w/tone Converter

Open, double-reed reproduces deeper, louder tones of the matriarch cow. Tone converter produces mellow and softer tones so important for calling in those call-shy bulls. Perfect for bowhunting.

000909 Primos Sentry Cow & Calf Diaphragm Call

You can't over blow this call because the "Palate Plate" is up against the roof of your mouth. Reproduces a full range of cow sounds. (158)

000730 Primos Baby Hoochie Mama

The Baby Hoochie is smaller in size that the Hoochie Mama but is just as good at producing those authentic sliding notes that are so characteristic of cow elk.

001005 Primos Blue "Snap-On" Bugle Reeds

Two blue, "snap-on" silicone reeds for perfect tension and tones every time. Unlike latex reeds, Primos' silicone reeds last an entire season. Reeds fit Terminator and Hyper LIP Bugle.

000910 Primos Ivory Bugler 1 Diaphragm Call

You can't over blow this call because the "Palate Plate" is up against the roof of your mouth. Reproduces a full range of cow, calf and bull sounds without over stretching the latex reed. (159)

150

000463 Primos Early Bird Box Call

Primos Early Bird Box Call is a double-sided box, creating tones only Purple Heart can offer, that look and feel as good as it sounds. For easy yelps, no extra pressure is needed with its paddle, just drag it over the hardwood box and get combination of thick lows, and sharp high notes every time. This box call, sanded by hand, turns into two different hens, so it's like getting two calls in one.

001008 Primos Hook Hunter 2" Hooks 001009 Primos Hook Hunter Long Hooks 001010 Primos Hook Hunter Sharp Hooks

The Hook Hunter Series produces incredibly real and unique pitches that even the wisest ol'tom can't resist.

000469 Primos Freak Frictionite Pot Call

The Freal's revolutionary design allows you to easily mount it to your leg or gun stock so you can make that last call that'll be the last sound that Gobbler hears. Allows for one-handed calling and is best for suble calling soft purrs and yelps but load enough for cuts and cackles.

000495 Primos Box Call Chalk

000584 Primos The Gobbler Shaker Call

Super loud and easy to use! Silencer cap eliminates unwanted sounds while moving through the woods. Great gobbler locator.

000515

000515 Primos Sonic Dome Double 000516 Primos Sonic Dome Triple w/Bat Cut

The Sonic Dome Series has been designed so the call is automatically positioned correctly in your mouth. The dome gives you a consistent distance between the reeds and the roof of your dome, for an incredibly consistent sound.

000461 Primos Power Owl

New and improved reed design allows for super loud locating. Improved design keeps reeds from sticking due to over blowing. New design allows for automatic back pressure.

000465 Primos Power Crow Call

Super loud & high pitched sound which produces distress cries and the high & raspy sound of crows. Cassette Included.

001087 Primos "Ol Betsy" Call

Made from the finest Pennsylvania SLATE. Slate is the easiest surface to use and produces the purest turkey sounds. Perfect finishing call with its soft yelps, clucks, and purrs. Includes conditioning pad and Hickory Striker.

000517 Primos Mouth Call Case

Designed to give your calls more life. Carry, organize and protect your mouth calls.

001015 Code Blue Doe Estrus

Doe estrus urine taken from a single animal for "trueto-life" effectiveness. Every 1-ounce bottle is certified as the "genuine article" by an independent organization and marked with the deer's registration number. Perfect for use during the rut. 1 Fl. oz.

001016 Code Blue Tarsal Gland

Contains actual tarsal gland. Every bottle is certified as the "genuine article" by an independent organization and marked with the deer's registration number. Excellent for use during the rut as a "territorial infringement." 2 fl. oz

001017 Code Blue Buck Urine

Buck urine taken from a single animal for "true-to-life" effectiveness. Every 1-ounce bottle is certified as the "genuine article" by an independent organization and marked with the deer's registration number. Perfect for use all season long. 1 fl. oz.

001029 Code Blue Scrape Mate

Buck urine collected from a single buck and intensified with natural gland secretions. Will create unbelievable scrape activity, lip curling, and even rubbing. 1 fl oz.

001054 Code Red Buck Urine 2 oz

Premium buck urine, Code Red is a fresh urine collected from bucks to ensure a true blend that performs a step above the rest.

001055 Code Red Doe Urine 2 oz

Code Red Doe Urine is the freshest and highest quality blended doe urine on the market. Code Red give hunters more scent for less money.

001053 Code Red Doe Estrus 2 oz **001052** Code Red Doe Estrus 4 oz

More for less. Code Red Doe Estrus offers you more scent for much less than the competitive national brands. Premium, fresh scent at an affordable price.

001038 Code Blue PST Aerosol Estrus

PST's Pressure Sensitive Tab allows you to control the release of scent in two ways. Create a scent trail to your stand, or freshen your hunting site with the "spray-on-demand" feature. For long-lasting, maximum attraction, place the container on the ground and depress the tab until it locks. 100% natural urine. 2 fl oz.

Tink's.

000603 Tink's "#1 Doe P" Simulates the smell of a new doe in an area. 100% doe urine.

000647 Tinks Hot Shot #1 Doe P

Contains 3 oz of Tink's #1 Doe P . 100% pure urine is dispensed. Quieter spray won't spook deer. Sprays at any angle, even upside down. Powerful fine mist for long range attraction.

000688 Tinks Gel Stream #1 Doe P

100% pure non-estrous doe urine; Simulates doe in the area; Powerful, fine mist for long range attraction; Shoots 10 foot stream 5 oz bottle.

001164 Tink's Scent Bombs

The most efficient and convenient way to disperse scent today. Simply remove cap and pull up wick. Can also be used as yardage markers as well. Hangs well in a tree to put more scent in the air.

000641 Tink's "#69 Buck Lure"

A blend of 100% natural aged doe estrus urine which is specially formulated to keep product at the peak level of performance.

000646 Tinks Hot Shot #69

Contains 3 oz of Tink's #69 Doe-In-Rut. 100% pure urine is dispensed. Quieter spray won't spook deer. Sprays at any angle, even upside down. Powerful fine mist for long range attraction.

000689 Tinks Gel Stream #69 Estrus

"Bag-in-Can" technology disperses 100% pure lure; Powerful, fine mist for long range attraction; Quiet, consistent spray without "spitting"; Shoots 10 foot stream 5 oz bottle.

001175 Tink's Smokin Sticks All Season **001176** Tink's Smokin Sticks Rut

Formulated to cover human scent and to attract game. When properly used, sticks will smoke for approximately 2 hours and the scent will stick to everything it comes in contact with.

H&H ARCHERY SUPPLY • 1-800-356-2209 • Fax 1-320-963-6521

OOO663 James Valley "Wall Hanger"

OOO611 James Valley "Wall Hanger" (Carded)

This non-estrus doe musk formulation has a calming effect on deer and works best during the pre-rut cycle. Can be used in conjunction with other scents.

OOO617 James Valley Scrape Gel (Bulk) OOO618 James Valley Scrape Gel (Carded) Contains Doe internal glands, Buck gland and secretions that work consistently to attract big bucks.

000674 James Valley Lethal Weapon Bulk

000678 James Valley Lethal Weapon Carded

Glands, glands and more glands combined with the greatest quality estrous urine obtainable are the "magic" behind this extremely effective and powerful buck scent/lure. Lethal Weapon should be used at active scrapes or "mock" scrapes during the peak of the pre-rut on through the entire rut period of the breeding cycle. Also works well in scent holders at tree stand locations or for laying scent trails.

000662 James Valley Full Draw (Bulk)

000612 James Valley Full Draw

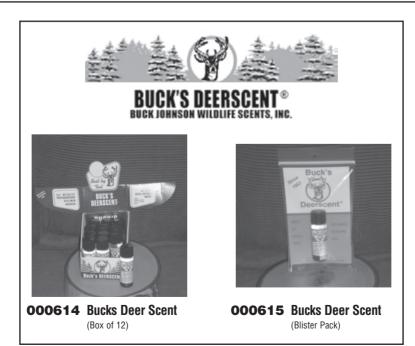

(Carded)

Pure estrus urine, internal glands and deer secretions make this scent tops for pre, full and post rut hunting.

OOO664 James Valley "Full Rut" (Bulk) OOO613 James Valley "Full Rut" (Carded) Full Rut uses reproductive glands collected from mature whitetail. This lure is enhanced with estrus, urine and secret

ingredients. Works best at open scrapes or mock scrapes.

001357 Nose Jammer- 4oz 001353 Nose Jammer- 8oz

Developed by an outfitter to put his clients on big game. Along with other secret ingredients, Nose Jammer contains Vanillin, one of the most common compounds in the woods. Vanillin also happens to overload a big game animal's sense of smell without alarming it. You won't believe how well Nose Jammer works until you've experienced it first hand. Don't let the wind decide where you hunt. Big Game will be jammed by the first sniff.

Made from aircraft-grade aluminum, the lightweight XTENDIBLE Tree Arm extends from a 85-inches to 16.5-inches in length. Once installed, the arm pivots 180-degrees for precision weapon & gear placement. The oversized Silent-Grip hook silently & securely hangs gear. Patent-pending Anti-Spin TreeCam™ lever bites into bark & eliminates unwanted spinning or movement of the arm. HAWK AugerTip™ threads, makes installation quick and painless. Included CLAW hanging hooks allows for versatile attachment and quick gear organization!

OO1451 Hawk Mega Xtendible Tree Arm

The MEGA Xtendible is only 12" when collapsed but extends up to 25.5" for that longer reach. Made of aircraft-grade aluminum for lightweight portability and includes Hawk's exclusive Anti-Spin TreeCam™ for rocksolid performance. Dual Silent-Grip™ rotating hooks are great for hanging crossbow or extra gear by your side. Sharp Auger-Tip Threads easily screw into any hardwood.

The Gun & Bow Hanger features an easy starting screw and soft, quiet, non-glare brown rubberized coating that will blend in with most any tree.

H&H ARCHERY SUPPLY • 1-800-356-2209 • Fax 1-320-963-6521

This lightweight portable bow stand goes with you and provides the support you need at the range or in the field. It is deal for shorter axle-to-axle bows and is lightweight and durable. Fits most bows and crossbows up to 3 1/8 in. limb width, measures 5.8" and weighs approx. 3.9 oz.

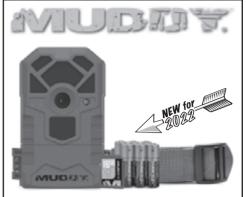

002968 Apex Split Grip Bow Stand

Holds your bow up on the range or in the field; It will accommodate both thick and thin split limb bows with a minimum 0.80" opening. When not in use the stand folds away to store in a pack, quiver, bow case, or pocket.

With very simple adjustments, the Kwik Stand will fit on all bow limbs, even the wide limbs like the Mathews Halon. The legs adjust as well to allow for the best balance angle for your bow. Non-Maring Jaws / won't scratch limbs; Adjustable Jaws fits all bows (1.28" up to 3.14" Wide); Legs Adjust for Better Stance from 4.25" to 6.00"

Specify color: Black, Blue, Lime Green, Pink, Purple or Red

000368 Moultrie Gen 3 Card Reader

Easily check trail camera cards in the field with the Moultrie Smartphone SD Card Reader Gen3. The reader is compatible with SD and Micro SD cards, as well as Lightning, USB-C and Micro USB connectors. Download the free app for Apple or Android and you'll be ready to quickly scan photos in the field with the Card Reader Gen3.

000383 Moultrie Trail Cam Repl Strap

The Moultrie Camera Mount Straps come in packs of two and are 8 ft long and 1" wide.

000369 Moultrie 16GB SD Card **000370** Moultrie 32GB SD Card

Moultrie's SD memory card is an easy way to expand the number of pictures your digital scouting camera can store. Simply place the card into the memory card slot until it is fully inserted. View pictures by removing card and placing into an SD-compatible computer, TV, phone, or other device.

009934 CuddeLink "J" Black Flash Camera

The Black Flash Camera features an industry leading ¼ second trigger speed that captures the images that so many other cameras would miss. Super-Fast Recovery Speed that is ready for the next picture within 1 second. 20MP images with stunning daylight color and black/white night images. Also features separate day/night delays, fully customizable time lapse and much more. Compatible with all CuddeLink cameras -Uses 4 D Cell Batteries (Not Included).

009933 CuddeLink "J" IR Camera

Featuring an industry leading ¼ second trigger speed that captures the images that so many other cameras would miss. Super-Fast Recovery Speed that is ready for the next picture within 1 second. 20MP images with stunning daylight color and black/white night images. Also features separate day/night delays, fully customizable time lapse and much more. Compatible with all CuddeLink cameras

-Uses 4 D Cell Batteries (Not Included).

009936 CuddeLink "J" LR IR Camera 4pk

Featuring an industry leading ¼ second trigger speed and Super-Fast Recovery Speed that is ready for the next picture within 1 second of taking the first, and the result is Cuddeback can capture 2 photos before many cameras can capture the first. Takes 20MP images with stunning daylight color and black/white night images and features a ton of cool and innovative features, such as separate day/ night delays, fully customizable time lapse and much more. CuddeLink Long Range IR- the ultimate in versatility and performance. Compatible with all CuddeLink cameras.

009939 Cuddelink "L" IR Camera

CuddeLink IR Camera can work as a Remote or HOME camera in the patented CuddeLink wireless network. The camera will work for the user to pull a single card in a HOME unit or they can deploy the CuddeLink Cell to have the images transmitted to their phone. The CuddeLink system supports a network size of 24 cameras. The Remote cameras can be placed where there is no cell service, but will link to the CuddeLink Cell so it may transmit the images to the user.

Camera Features (IR): ¼ second trigger speed; Delays ranging from 5 seconds to 5 minutes; Patented Auto camera delay; Security grade IR-cut filter for silent operation; Uses SD card up to 256GB (*not included); 3rd Gen sensor with 7 sensitivity settings; Low-glow IR LEDs (850nm); 2 yr product warranty with online registration; Blue backlit display for easy viewing; Compatible with all power and mount options; Uses 4D batteries (*not included); Dual timelapse modes (Prime Time & standard); High-def sensor optimizes image clarity and brightness for LTE delivery and phone viewing.

Includes: CuddeLink antenna, strap, mount and instructions.

009935 CuddeLink Powerhouse IR Cell

Cell Mode 1 PowerHouse Cell exceeds the performance of other cellular trail cameras – Verizon 4G LTE service, 1/4 second trigger speed, long battery & 20MP images. Cell service starts at \$10 per month.

Cell Mode 2 utilizes CuddeLink technology to allow up to 16 cameras to share one \$10 per month cell plan. So instead of paying for multiple cell plans that can add up to \$50, or \$75, or over \$100 per month, PowerHouse Cell allows you to have up to 16 CuddeLink cameras on one \$10 per month plan (750 images per month). Unlimited image plan is only \$30 per month.

Note that PowerHouse Cell camera operation requires an active Cuddeback Cell Data Plan. Each cell camera needs their own data plan to operate.

009943 CuddePower Dx6 Power Bank

CuddePower Battery Booster extends battery life on your Cuddeback cameras. CuddePower can operate a camera with or without batteries installed in the camera. The camera will draw power from the CuddePower first, saving the cameras batteries for reserve when the D batteries fail. CuddePower attaches to the tree with an included metal Genius Mount. Compatible Cuddeback cameras slide on and off the built-in Genius Mount of the CuddePower. Requires 6 x D batteries.

Includes CuddePower battery box, two 24" power cords, and Genius Standard Mount.

Compatible with Cuddeback camera Series: E Series, C Series, G Series, J Series, K Series

009940 Cuddeback Genius PTL Mount

PTL Mount (Pan-Tilt-Lock); 3 Axis of adjustment Pan, Tilt, Yaw; Includes Universal Camera Adapter; Works with Cuddeback and all trail cameras with a tripod socket; All Metal Construction won't break like plastic can; Screw or strap to a tree.

009978 Browning Spec Ops Elite HP4 Camera

The Spec Ops Elite HP4 features 22 MP image capabilities and invisible "Night Vision" IR illumination. With an adjustable flash feature that can extend the invisible IR flash out to 90 ft users will soon see that they are getting the finest invisible nighttime imagery. The Spec Ops Elite HP4 camera also features remarkable 1080p Full HD video processor, capable of producing cutting-edge video footage. Other features include a 2" color viewing screen, Smart IR Video technology, and the SD Card Management option that allows users to overwrite older images on the SD card if the memory is full. Finally, with the ability to work with up to 512 GB SDXC memory cards, the Spec Ops Elite HP4 is perfect for the surveillance of game animals that are easily spooked, as well as monitoring around your home or hunting property for security purposes.

009976 Browning Recon Force Elite HP4 Camera

The Recon Force Elite HP4 camera features 4 high-power infrared LEDs to give you the highest quality nighttime images. It also gives users the chance to customize their trail cameras experience to best meet their needs with an adjustable detection range feature that has settings from 55ft. - 80ft, as well as an adjustable IR flash. Another great feature is the built in 2" color display screen that allows users to preview images and videos right in the field as well as make sure their camera is set-up perfectly to capture the best possible images. The Recon Force Elite HP4 also features 22 MP image capabilities as well as 1080p HD video technology. Additional features include Smart IR Video, which continues to record video footage while game is moving in front of the camera when the feature is turned on, and SD card Management options that allow you to overwrite older images on the SD Card if the memory is full. The Recon Force EDGE HP4 is also compatible with up to 512 GB SDXC memory cards and continues to deliver the best battery life on the market

009971 Browning Command Ops Elite 20

The Command Ops Elite series of cameras has been updated to deliver big performance in a small package. The crisp 20MP picture resolution ensures the very best quality pictures of your game, day or night. With fast 0.3 second trigger speeds, you are sure to capture anything that steps out in front of your camera. The Command Ops Elite series also features 900p HD+ video with sound, to capture the best video of game on your property.

170

BROWNING

009972 Browning Strike Force HD Max Plus Camera

The Strike Force HD MAX Plus trail cameras deliver highperformance at amazing speeds. With an adjustable 0.135-0.7 second trigger speed and a 0.5 second recovery time between images, these cameras are sure to capture the fastest of subjects while providing the ability customize your set-up based on the wildlife behavior in your area. Experience the highest of quality with 20 MP picture capabilities, and a video processor that captures industry defining 900p HD+ video clips with sound. The Strike Force HD MAX Plus camera also features an adjustable Infrared Flash at night. You can select between Long Range, Fast Motion or Economy modes to take great pictures of game that ranges out to 100 ft. at night. Other features include SD Card Management options, and Smart IR video, which continues to record video during the day when game is present and you have the feature turned on. The Strike Force HD MAX Plus is also compatible with up to 512 GB SDXC memory cards and continues to deliver the best battery life on the market.

009973 Browning Dark Ops HD Max Plus Camera

For the best surveillance from a small trail camera, look no further than the Dark Ops HD MAX Plus. With an invisible infrared flash to ensure game or trespassers on your property don't detect the camera while it is capturing images or videos. In addition to that, the Sub Micro case size still delivers all the performance you would expect from Browning with 20 MP picture quality, 900p HD+ videos with sound, lightning fast 0.135 - 0.7 second adjustable trigger speeds, and superior battery life. Other features users will appreciate include adjustable the IR Illumination with Long Range and Economy modes to best meet your needs, as well as a battery meter that is compatible with Alkaline, Rechargeable and Lithium batteries.

8-piece folding set keeps wrenches organized & accessible; Durable alloy steel construction; Ergonomic-grip design for comfort; Sizes: T9, T10, T15, T20, T25, T27, T30, and T40

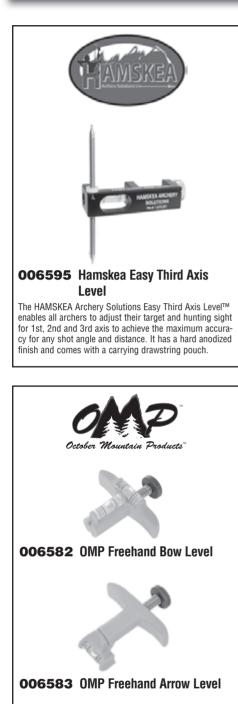

The Allen Key Combo Set includes SAE Hex sizes 5/64", 3/32", 7/64", 1/8", 9/64", 5/32", 3/16", 7/32", 1/4". Each of these hex keys is constructed of durable chrome vanadium steel and a black oxide finish to resist rust. It has size markings printed on the hex key body for easy identification.

006543 Easton Pro XL Allen Wrench XL Sizes: 1/4, 7/32, 3/16, 5/32, 9/64, 1/8, 7/64, 3/32, 5/64

006584 OMP Freehand Level Combo Includes: Freehand Bow Level and Freehand Arrow Level.

006596 RS Square-Up Level

The LRT Square-up level securely mounts to the bow's riser and remains all through the tuning process using the sight holes giving you the truest positioning possible for setting nocking position installing all accessories perfectly true and especially the 2nd and 3rd axis alignment.

006597 RS Square-Up Level Set Everything you need to Square-Up your bow. Set includes Square-Up Level and Vari-Pitch Level.

006586 RS Nok-EZ Arrow Level Get the perfect nock position every time. Place arrow on arrow rest, snap arrow on string. Move arrow up or down on string until level.

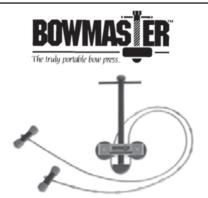

OO6587 RS Snap-On Bow String Level For use with the NOK-EZ Arrow Level. Checks vertical and horizontal position of bow for nock and sight installation. Snap on lower portion of string serving.

006589 RS Nok-EZ/Snap-On Level Combo

Ideal for the home or pro shop, this 120V 10,000 RPM arrow saw makes precision cuts while collecting shavings and dust while cutting all types of arrows including, carbon, aluminum and carbon aluminum hybrids. Features an adjustable measuring scale for consistent and accurate cuts.

006512 Bowmaster G2 Bow Press

The Bowmaster G2 Bow Press adds to the capabilities and versatility of an already powerful press. The new 6" jackscrew allows for the complete teardown of bows with highly, preloaded limbs. The 6" jackscrew also allows the G2 to fit a wider range of bow lengths including bows with axle-to-axle lengths as short as 26.5".

006513 Bowmaster G2 Split Limb Bracket Standard

The Bowmaster G2 Split Limb L Brackets are longer than previous versions and are designed to fit large cams compound bows. The G2 L Brackets will also work on bows up to 6 degrees past parallel. Standard width L Brackets will fit a maximum cam width of 3/4", which will cover about 95% of the bows on the market. The wide width will fit a maximum cam width of 1 1/8" which are intended for bows with wide cams like some models from Alpine®, Bowtech® and Diamond®.

* The Bowmaster logo stamped on the brackets indicates that they are suitable for use on bows up to 6° past parallel. Do not use on bows in excess of 6° past parallel. Older Split Limb L Brackets without the Bowmaster logo should not used on past parallel limb bows.

006490 Last Chance EZ Press

The Manual EZ Press was designed for quick and easy setup of all compound bows. Components are machined for smooth and easy operation. Works with draw weight bows over 70 lbs. * Beyond parallel limb bows such as the Bear Attack and Bear Carnage require limb adapters (sold separately). Bench Mount

006489 Last Chance EZ Green Bow Press

Designed with the individual consumer in mind. Performs the same as the original EZ Press just with fewer bells and whistles. Will accommodate all compound bows. EZ Green uses a hand crank rather than a hand wheel, comes with non-adjustable legs and is available with bench mounts only. The EZ Green has the same patented finger system that is fully adjustable while the blocks are permanently attached.

Last Chance Archery

006491 Last Chance Deluxe Press

The Manual EZ Press was designed for quick and easy setup of all compound bows. Exclusive pivot system will go from horizontal to vertical for easy access to finish bow setup. Components are machined for smooth and easy operation. Works with draw weight bows over 70 lbs. * Beyond parallel limb bows such as the Bear Attack and Bear Carnage require limb adapters (sold separately). Bench Mount

006487 Last Change EZ Green XBow Press

The EZ Green Crossbow press is equipped with the EZ Green hand crank for fast, EZ and smooth movement in and out. This press will compress down to 11" and out to 32" in length giving this press the ability to press every compound crossbow on the market today including all reverse limb crossbows!

006501 Last Chance Ultra Lock Upgrade Kit

Makes existing Ultra Lock Adapters super easy and simple to use.

006504 Last Chance 3" Cut Off Wheel

Reinforced silicon carbide for precision cuts; Fits all types of arrow saws that use a $1/2^{\rm m}$ mounting hole

006486 Last Chance MINI XB Adaptor

The Mini Xbow Adapter is specifically made for pressing crossbows that are under 12" axle to axle. With this easy to use adapter you can press crossbows down to 5" axle to axle.

Note: This adapter will only fit the LCA Ultimate EZ, Ultimate EZ Deluxe and EZ Green Xbow Presses. The adapter "DOES NOT COME WITH FINGERS". You will use the fingers that come standard with your LCA bow press.

006488 Last Chance Limb Adapter

Designed to assist in pressing beyond parallel limb bows such as the Bear Attack and Bear Carnage. These adapters clip directly to the tips of the limbs of the bow and have a unique slot which will allow easy access for the fingers to press.

006500 Last Chance Ultra Lock Adaptor

This particular adapter is made for the 2016 Hoyt, UltraFlex™ Limb System. Fully adaptable to any LCA bow presses to safely work on the all 2016 or newer Hoyt Bows with UltraFlex Limb System.

006494Last Chance Draw Board-
Standard006496Last Chance Draw Board-
Ultimate

The Draw Board from Last Chance Archery is the perfect tool, adaptable to all LCA presses, for tuning your bow. Check your timing, draw length, cam lean and set your rest with more precision than ever. The Ultimate (6496) attaches to both Ultimate EZ Presses and the Standard (6494) adapts to every other Last Chance press.

006495 Last Chance Ultimate EZ Press

The Ultimate EZ Press was designed for quick and easy set-up of all compounds* and crossbows. This press also comes with an adjustable drop pin arm that will allow you to adjust from 12-54". This press was built "heavy duty" for the high poundage crossbows. * Beyond parallel limb bows such as the Bear Attack and Bear Carnage require limb adapters (sold separately). Bench Mount

AMS Bowfishing

High-performance, lightweight and water-resistant are just a few of the Water Moc's features that show this bow is made for bowfishing and life on the water. This bow has limb bolts that are designed to be easily removed by hand. Just remove the bowstring and the limb bolts to quickly break the bow down for storage. The Water Moc's™ limbs are fully laminated and coated with a water-resistant seal to protect them from the environment. The riser is powder coated, lightweight magnesium and dipped in green AMS Koi Carp Camo. 58" Tip-to-Tip; 45 lbs at 28"

The Muzzy Vice Bowfishing Kit has everything you need to bowfish with a compound bow. Includes:

Muzzy Compound Bowfishing Bow with Finger Guards, an XD Pro Reel with attached Reel Seat and Prespooled with 150' of 150lb of Tournament Test Line, A Fish Hook Arrow Rest and a Classic White Fiberglass Arrow with a Muzzy Carp Point.

005425 Cajun Sucker Punch Bowfish Kit

Features 50# Cajun Sucker Punch Bow, Fishing Biscuit Arrow Rest, Cajun Bowfishing Reel, Cajun Blister Buster Finger Pads, 2 White Fiberglass Piranha Arrows.

005424 Cajun Fish Stick Kit

The Fish Stick is the choice for everything from big Commons in the north to Gator Gar in the swamps. This package has what you need to hit the water and Start Stikn'. The bow features an aluminum riser with take-down limbs and measures 56" tip to tip, wrapped in Kryptek Camo and has a draw weight of 45 lbs. Right Hand Only

Kit includes: Bow, drum reel with 50' of 80# line, roller rest, arrow w/Piranha Point and Blister Buster finger savers.

000946 AMS Pro Retriever Combo

This all-inclusive bowfishing kit has all of our best-selling products included!

EACH PACKAGE INCLUDES: Retriever® Pro Reel with 200 Pound Dacron Line, Tidal Wave® Arrow Rest, 2 - AMS Chaos® Arrows with Patented AMS Safety Slide® Brand Arrow Slides, and 1- AMS Bowfishing DVD Specify: Right or Left Hand

000949 AMS Retriever® Repl Line

Bright 200 pound test braided line is easy to see in muddy water. Available in 25 yard spools for standard bottles. Specify: Yellow, Orange or Pink

000941 AMS Sleek-X XB Mount

The AMS SLEEK-X CROSSBOW MOUNT is the ultimate crossbow accessory for bowfishing! The AMS Sleek-X is a two-piece assembly that mounts directly to the quiver holes on most crossbows. Install the base to your quiver holes, insert the machined aluminum handle and tighten with t-screw. Then simply mount your Retriever® reel and big game float directly to it.

NOTE: If your crossbow has a picatinny rail system, you'll need the AMS M109-PCT adapter, sold separately.

000940 AMS Retriever® TNT Fish Reel

The AMS Retriever[®] Pro Tournament Series reel is the fastest reel on the market. With a 4.3:1 gear ratio, heavy duty, machined brass gears and extra long handle, you've got the best of the best! The AMS Retriever[®] Pro line of reels have no buttons to push before the shot and no clumsy spools to hand-wind. The line is simply stacked into a bottle. As you shoot, the line flies out of the reel as fast as the arrow can take it. To retrieve the arrow, simply pull the trigger and turn the handle. The built-in arrow quiver controls your arrow when not in use! Made with a composite material that is stronger, lighter and more corrosion-resistant than ever before.

EACH PACKAGE INCLUDES: Retriever® Pro Reel: 25 yards - 200 Pound High Visibility Dacron Line: Telescoping Clamp and Quiver Mount: Patented AMS Safety Slide® Brand Arrow Slide: Trigger Guard: Operation/Instruction Manual and Mounting Hardware.

Specify: Right or Left Hand

Specify: Right or Left Hand

ng)

000956 Cajun Winch Pro Reel

The Winch Pro introduces a revolutionary design that allows the ability to brake and reel simultaneously to better bring in monsters up from the depths day after day or night after night. Features: Adjustable durable ceramic string guide for smoother string feed; Revolutionary design allows for one-handed operation; Rugged aluminum frame for superior durability; Vertical and horizontal adjustments allow the perfect fit on any bow.

000957 Cajun Spin Doctor Fish Reel

The Cajun Spin Doctor Reel is the most durable and innovative spincast bowfishing reel on the market. The reel is designed to endure the rigors of the sport with dual pickup pins with full metal assembly and a longer hood and a larger hold design for better line feeding. The Cajun bowfishing spinning reel comes pre-spooled with 150 lb. fast flight line.

004010 Cajun Screw-On Fish Reel Metal 5" drum reel screws into stabilizer bushing. Line included.

000945 AMS Retriever[®] Pro Fish Reel

The AMS Retriever® Pro line of reels have no buttons to push

FISH SEATS & RODS

נעצ זאדאלאד

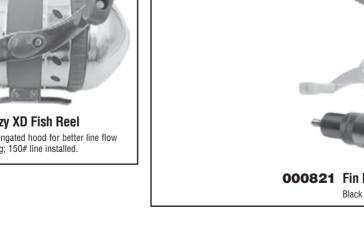

000859 Muzzy LVR Reel Seat

Features: Tool Free Reel Lock: Anti-Twist Lock Feature for Bow; Adjustable Cam Pressure; Shoot Thru Rod Adaptable; Machined and Anodized 6061-T6 Aluminum

000856 Muzzy Shoot Thru Rod- Pro Reel

Features: Extends the life of your reel by reducing side torque on the main shaft; Allows line to flow freely from spool; Stainless-steel construction.

FISH RESTS

004088 AMS Wave Rest[®]

The rugged AMS Wave Rest® was designed for maximum arrow control while swing shooting. And more, the spinning roller provides additional arrow control during the shot and reduces wear on the arrow shaft. Works right or left hand.

004087 AMS Tidal Wave® Rest

The AMS Tidal Wave® Rest is as rugged as they come. The nearly full enclosure contains your arrow no matter how the bow is handled. The arrow can be loaded through the rest or snapped in from the side. An internal spinning roller provides additional arrow control during the shot and reduces wear on the arrow shaft. Works right or left hand.

000810 Cajun Brush Fire Fish Rest

Features: Teflon impregnated insert arrow shelf for durability; Reversible mount design for use with left- and right-hand bows; Replaceable capture bristles for full containment; Laser engraved reference marks for spot on adjustments and Windage adjustments for center shot.

000809 Cajun Bowfishing Roller Rest

000802 Muzzy Fish Hook Rest

Muzzy's Fish Hook is the most effective bowfishing rest available today because of its patented design which alleviates tuning problems due to flex, torque and clearance. Height adjustable for "off the shelf" shooting or normal rest height setting or release. Right or Left Hand.

000846 Muzzy Mantis II Rest

Anodized Aluminum Frame; Full Containment, No Trap Door; No-Wear Delrin Arrow Pad; High Visibility Coloring; Laser Etched Markings for Windage Adjustments; Rotatable Frame for Elevation Adjustments and Alignment.

Windage adjustment with Aluminum-encased biscuit- 300% stronger than previous models. Laser-engraved reference marks. Custom rubber boots silence arrow loading. Universal right and left hand.

Allows the bowfisherman the ability to adapt his fishing arrows with the Lumenok Signature. It is designed to be glued onto 5/16" diameter arrows.

007016 AMS String Things Finger Protect your fingers during all day or all night bowfishing trips. Extended length on the double pad provides adequate room for your fingers. Specify colors: Blue, Green, Orange, Pink or Yellow

this system will prevent your line from tangling with the bowstring, cables, or other components on your bow. The AMS Safety Slide® is installed to the arrow shaft and will slide up and down the shaft with your line tied to it. A shock pad, bushing and screw assembly will install to the tail of the arrow. If used properly, the slide keeps the line in front of the arrow rest at all times. This prevents your line from tangling with the bowstring, which can be the cause of arrow snapback! (US Patent 6,517,453).

AMS**Bowfishing**)

002810 AMS AnKor® FX Fish Point-5/16

The patented AMS AnKor[®] FX, with its patent pending, vibration dampening, AMS Cyclone[®] tip, has all the features that serious bowfishers need when on the water. Its lightweight design, stainless steel construction, collapsed barbs and short body offer great penetration.

002812 AMS AnKor® QT Fish Point-5/16

The AnKor® QT has all of the features that serious bowfishers need when on the water. With its patent pending, vibration dampening, AMS Cyclone® tip, a short body, stamped triple barbs and stainless steel construction, the AnKor® QT is the ultimate bowfishing point! When engaged in the fish, the three barbs spread to 2" of holding area. Its best feature is its ability to release fish by turning the shaft.

000820 AMS Chaos® Fish Point

The Chaos[®] point is great for all fish. Its short length and narrow barbs require minimal penetration to engage the barbs in a fish. The barbs pivot to the side to hold the fish and release by loosening the tip.

OOO837 AMS Cyclone[®] Repl Tip Fits all standard 1/4" - 28 threaded points. 2 per pack.

002818 AMS Fish Arrow Fluorescent w/AnKor® FX/SS

Each shaft is 5/16" in diameter and 32" long. This complete, ready to shoot arrow will also include the patented AMS EverGlide® Safety Slide® system installed to the shaft. (US Patent 6,517,453) and the AnKor® QT is the ultimate bowfishing point, the patented AMS AnKor® FX, with its AMS Cyclone® tip.

002820 AMS Fiberglass Fish Arrow w/AnKor® FX

This fiberglass arrow comes completely assembled with the patented AMS AnKor[®] FX point and AMS Safety Slide. "To release fish, simply twist the tip."

002821 AMS Fiberglass Fish Arrow w/AnKor® QT

This arrow comes completely assembled with the patented AMS AnKor® QT point and AMS Safety Slide®. "To release fish, simply twist the shaft."

004020 AMS Fiberglass Fish Arrow w/Chaos®

This arrow comes completely assembled with the best selling Chaos[®] point and AMS Safety Slide[®]. Specify: White or Pink or Fluorescent Green

002819 AMS Fish Arrow Fluorescent w/AnKor® QT/SS

Each shaft is 5/16" in diameter and 32" long. This complete, ready to shoot arrow will also include the patented AMS EverGlide® Safety Slide® system installed to the shaft. (US Patent 6,517,453) and the AnKor® QT is the ultimate bowfishing point, the patented AMS AnKor® FX, with its AMS Cyclone® tip.

002826 AMS Lava Crux™ Arrow w/Chaos

The AMS Lava Crux[™] is the ultimate fish shaft! It is an AMS engineered, patent pending, arrow shaft that provides more spine for a superior shot. The ultra-light Lava Crux[™] carbon core with fiberglass wrapped exterior ensures that the carbon cannot splinter or break! Arrow comes completely assembled with the best selling Chaos Point and AMS Safety Slide.

002827 AMS Lava Crux[™] Arrow w/AnKor[®] FX

The AMS Lava CruxTM is the ultimate fish shaft! It is an AMS engineered, patent pending, arrow shaft that provides more spine for a superior shot. The ultra-light Lava CruxTM carbon core with fiberglass wrapped exterior ensures that the carbon cannot splinter or break! Arrow comes completely assembled with the AMS AnKor FX Point and AMS Safety Slide. "To release fish, simply twist the tip."

OO2828 AMS Lava Crux™ Arrow w/AnKor® QT

The AMS Lava CruxTM is the ultimate fish shaft! It is an AMS engineered, patent pending, arrow shaft that provides more spine for a superior shot. The ultra-light Lava CruxTM carbon core with fiberglass wrapped exterior ensures that the carbon cannot splinter or break! Arrow comes completely assembled with the AMS AnKOr[®] QT Point and AMS Safety Slide[®]. "To release fish, simply twist the shaft."

002831 AMS Bowfishing Bolt

These solid fiberglass, 24" long, 22/64" diameter bolts with half-moon nocks are made specifically for bowfishing. A hole is drilled for the AMS Ring System and positioned so the stop screw clears the retention spring on the crossbow. The AMS ring is installed to the crossbow bolt and will slide up and down the bolt with your line tied to it. If used properly, the ring will keep the line in front of the crossbow at all times. This prevents your line from tangling with the bowstring or fixed components, which can be the cause of arrow snapback!

002824 AMS Fiberglass Fish Shafts

AMS fiberglass shafts are glossy smooth, super-straight and ultra-durable! Each shaft is 5/16" in diameter and 32" long. The infused fiberglass shafts are put through an infusion process that actually infuses a color pattern directly into the fiberglass fibers. The infusion process creates a creative, trend setting pattern to the bowfishing arrows and is super durable and will not rub or wear off. The patented AMS Safety Slide[®] brand arrow slide system is completely installed. (US Patent 6,517,453).
